

Surface Mounted LED Aluminum Profile Lightweight 1m For Ceilings

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: China,Guangdong
- Brand Name: No Brand

Product Specification

- Features: Lightweight
- Heat Dissipation: Efficient
- Installation Type: Surface Mount
- Thickness: Customizable
- Width: Customizable
- Length: Customizable
- Durability: High
- Shape: Customizable
- Highlight: **Ceilings LED Aluminum Profile,
1m LED Aluminum Profile,
1m surface mounted aluminium led profile**

Product Description:

The LED Aluminum Profile is the ideal choice for education LED light installation. Its durable construction ensures that the LED light strip is protected and can withstand any potential damage. The product is designed to be easily mounted to walls or ceilings, making it perfect for classrooms, libraries, and other educational settings.

Our LED Aluminum Profile is also an excellent choice for LED wall washer applications. The profile's silver color provides a sleek look that complements any modern design. The customizable length and thickness make it easy to fit into any space, while also ensuring that the LED light strip has proper ventilation to prevent overheating.

Overall, our LED Aluminum Profile is a versatile and reliable product that is perfect for the lighting industry. Its customizable length and thickness, lightweight design, and sleek silver color make it an excellent choice for education LED light installations and LED wall washer applications.

Features:

Product Name: LED Aluminum Profile

Width: Customizable

Color: Silver

Application: Lighting Industry

Thickness: Customizable

Heat Dissipation: Efficient

This LED Aluminum Profile is perfect for the education led light industry. It is made of durable aluminum and has a customizable width and thickness. The silver color gives it a sleek look and it is designed for efficient heat dissipation. It is perfect for use with strip light applications in the lighting industry.

Technical Parameters:

Installation Type	Surface Mount
Application	Lighting Industry
Surface Treatment	Anodized
Corrosion Resistance	Yes
Color	Silver
Features	Lightweight
Durability	High
Thickness	Customizable
Width	Customizable
Length	Customizable

Applications:

The LED Aluminum Profile is an excellent product for use in education settings. The product's efficient heat dissipation and corrosion resistance make it a great option for use in classrooms and educational facilities. It is an ideal product for use in education LED lights, as it can provide a bright and even light source that is easy on the eyes. The customizable shape of the product also allows it to be adapted to various classroom settings, making it a versatile lighting solution.

The LED Aluminum Profile is also a great option for outdoor lighting applications. The product's efficient heat dissipation and corrosion resistance make it a great option for use in LED wall washers. It is an ideal product for use in landscape lighting, as it can provide an even and bright light source that can highlight various landscape features. The product's customizable shape also allows it to be adapted to various outdoor lighting scenarios, making it a versatile lighting solution.

Overall, the LED Aluminum Profile is an excellent product for use in the lighting industry. It is a high-quality product that is manufactured in Guangdong, China, and is suitable for a variety of purposes. Its efficient heat dissipation, corrosion resistance, customizable shape, and surface mount installation type make it a versatile and efficient lighting solution. It is an ideal product for use in education LED lights, LED wall washers, and various other lighting applications.

Packing and Shipping:

Product Packaging:

This LED Aluminum Profile product will be carefully packaged to ensure safe delivery to your doorstep. It will be wrapped in bubble wrap and placed in a sturdy cardboard box. The box will be labeled with the product name and any necessary handling instructions.

Shipping:

We offer shipping worldwide for this LED Aluminum Profile product. The shipping cost will be calculated based on the destination and weight of the package. We use reliable courier services to ensure timely delivery. Once your order has been shipped, you will receive a tracking number to monitor the delivery status.
