

## Flexible Extruded Aluminum Led Channel Profile Anodized Silver And Black

Our Product Introduction

for more products please visit us on [alu-heatsink.com](http://alu-heatsink.com)

### Basic Information

- Place of Origin: China,Guangdong
- Brand Name: No Brand

### Product Specification

- Features: Lightweight
- Corrosion Resistance: Yes
- Installation Type: Surface Mount
- Surface Treatment: Anodized
- Thickness: Customizable
- Application: Lighting Industry
- Shape: Customizable
- Material: Aluminum
- Highlight: Flexible extruded aluminum led channel,  
Anodized Silver extruded aluminum led channel  
, Anodized Silver flexible aluminium led profile

## Product Description

### Product Description:

The aluminum profile comes in a sleek and stylish silver color that adds a modern touch to your lighting fixtures. Not only is it aesthetically pleasing, but it also has corrosion resistance, making it durable and long-lasting for your lighting needs.

The length of the LED Aluminum Profile is customizable, so you can tailor it to fit your specific project requirements. It's perfect for use with LED wall washers and strip lights, providing a secure and stable platform for your lighting fixtures.

With its easy installation, customizable length, and corrosion resistance, the LED Aluminum Profile is the perfect solution for your lighting needs in the lighting industry. Get yours today and take your lighting projects to the next level!

### Features:

Product Name: LED Aluminum Profile

Color: Silver

Features: Lightweight

Surface Treatment: Anodized

Application: Lighting Industry

Material: Aluminum

Perfect for LED wall washer

### Technical Parameters:

Shape	Customizable
Material	Aluminum
Heat Dissipation	Efficient
Corrosion Resistance	Yes
Surface Treatment	Anodized
Thickness	Customizable
Application	Lighting Industry
Features	Lightweight
Installation Type	Surface Mount
Length	Customizable

### Applications:

The LED Aluminum Profile is designed to hold strip lights or LED wall washers. The product is used in various lighting applications, including residential and commercial purposes. The following are the product application occasions and scenarios:

#### Residential Lighting

The LED Aluminum Profile is an ideal product for residential lighting applications. The product can be installed on the ceiling or walls to create a visually appealing lighting effect. The aluminum profile can hold strip lights or LED wall washers, which can be used to highlight artwork, bookshelves, or other interior elements.

#### Commercial Lighting

The LED Aluminum Profile is also commonly used in commercial lighting applications. The product can be used in retail stores, restaurants, and other commercial spaces to create a unique lighting effect. The aluminum profile can hold strip lights or LED wall washers, which can be used to highlight products or create a warm and inviting atmosphere.

#### Architectural Lighting

The LED Aluminum Profile is a popular product in architectural lighting applications. The product can be used to create a variety of lighting effects, including highlighting architectural features or creating a dramatic effect. The aluminum profile can hold LED wall washers, which can be used to illuminate an entire wall or facade.

#### Outdoor Lighting

The LED Aluminum Profile can also be used in outdoor lighting applications. The product is weather-resistant and can be used to create a unique lighting effect on the exterior of buildings. The aluminum profile can hold strip lights or LED wall washers, which can be used to illuminate walkways, patios, or other outdoor spaces.

In conclusion, the LED Aluminum Profile is a versatile product that can be used in various lighting applications. The product is made of high-quality aluminum material that ensures durability and efficient heat dissipation. Whether it's for residential, commercial, architectural, or outdoor lighting, the LED Aluminum Profile is an excellent choice for those who want to create a visually appealing and unique lighting effect.

### Packing and Shipping:

**Product Packaging:**

Our LED Aluminum Profile product comes carefully packaged in a sturdy cardboard box to ensure it arrives in perfect condition. Inside the box, the product is wrapped in bubble wrap for extra protection during shipping.

**Shipping:**

We offer worldwide shipping for our LED Aluminum Profile product. Shipping costs will vary depending on the destination and shipping speed chosen at checkout. We strive to process and ship orders within 1-2 business days. Once your order has shipped, we will provide you with a tracking number so you can track your package every step of the way.
