

Soldering 6063 Aluminium Heat Sink Plate CNC Machined In Bulk

Our Product Introduction

for more products please visit us on alu-heatsink.com

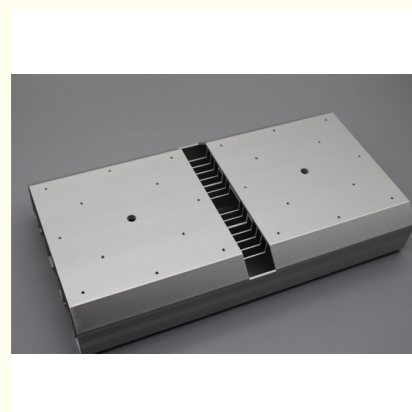

Basic Information

- Place of Origin: China, Guangdong
- Brand Name: No Brand
- Delivery Time: 15-18 workdays
- Payment Terms: L/C, T/T, Western Union, MoneyGram

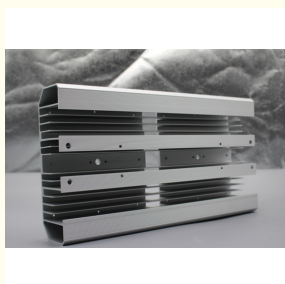

Product Specification

- Alloy: 6063
- Sample Leadtime: 15 Days
- Mounting Type: Vertical
- Dimensions: Various Sizes Available
- Durability: High
- Surface Treatmentment: Anodized, Painted, Customized
- Inspection: 100% On Appearance
- Processing Way: Stamping / Soldering
- Highlight: Soldering aluminium heat sink plate,
6063 aluminium heat sink plate,
6063 Aluminium cnc machined heat sinks

Product Description

Product Description:

Our aluminum heat sink is available in various sizes to fit your specific needs. We understand that every project has its unique requirements, and our range of sizes provides you with the flexibility to choose the perfect fit for your project. Whether you require a small or large heat sink, we have got you covered.

We take pride in our commitment to delivering our products on time. Our sample lead time is 15 days, ensuring that you have enough time to test and evaluate our product before placing a bulk order. We understand the importance of timely delivery, and our team works diligently to ensure that all orders are delivered promptly.

Our aluminum heat sink is available in a range of surface treatments, including anodized, painted, and customized finishes. We understand that each project has its unique requirements, and our range of surface treatments provides you with the flexibility to choose the perfect finish for your project.

Whether you are an individual or a business, our aluminum heat sink is the perfect solution for your power station and other electronic devices. The high-quality materials used in its construction make it a durable and reliable product that is sure to last. With our commitment to quality and timely delivery, you can rest assured that you will receive the best service possible.

Features:

Product Name: Aluminum Heatsink

Sample Leadtime: 15 Days

Surface Treatment: Anodized, Painted, Customized

Processing Way: Stamping / Soldering

Alloy: 6063

Mounting Type: Vertical

Application: LED Lighting

Material: Aluminum

Function: Heat dissipation for LED lighting

Technical Parameters:

Technical Parameter	Description
Sample Leadtime	15 Days
Compatibility	Universal
Inspection	100% On Appearance
Thermal Conductivity	High
Machining Equipment	CNC Center Precision Machining
Mounting Type	Vertical
Sample	Available
Process	CNC Machining
Surface Treatment	Anodized, Painted, Customized
Processing Way	Stamping / Soldering

Applications:

Our No Brand Aluminum Heat Sink is made from high-quality 6063 alloy and is compatible with a wide range of electronic devices. It is suitable for use in LED lighting, but it can also be used in other applications such as power supplies, audio amplifiers, and computer components.

One of the key benefits of our Aluminum Heat Sink is its durability. Made using CNC center precision machining, it is built to withstand high levels of stress and wear. This makes it an excellent choice for use in industrial and commercial applications where reliability is crucial.

Our Aluminum Heat Sink comes in various sizes, making it suitable for a wide range of devices and scenarios. Whether you need a small heat sink for a compact device or a larger one for a high-powered LED system, we have the right size for you.

Our Aluminum Heat Sink is made in Guangdong, China, and is of the highest quality. It is designed to be easy to install and requires minimal maintenance, making it an excellent choice for both professionals and DIY enthusiasts.

In summary, our No Brand Aluminum Heat Sink is an essential component for any electronic device that generates heat. Whether you need it for a high-powered LED system or a computer component, our heat sink is durable, reliable, and of the highest quality. Made using CNC center precision machining, it is built to last, making it an excellent investment for any scenario where heat dissipation is crucial.

Customization:

No Brand Aluminum Heat Sink with our Product Customization Services. Our heat sink extrusion is made in **China, Guangdong** and is available in various sizes. We offer samples for testing and our heat sink is compatible with LED lighting. Our product has high durability due to the **CNC Machining** process used to manufacture it.

Support and Services:

The Aluminum Heatsink product technical support and services include:

Assistance with product installation and setup

Troubleshooting product issues and providing solutions

Guidance on proper maintenance and care of the product

Access to software and firmware updates

Product warranty information and support

Our team of technical experts is available to answer any questions and provide support to ensure a smooth and efficient user experience with our Aluminum Heatsink product.

Packing and Shipping:

Product Packaging:

This Aluminum Heatsink product will be carefully packed in a sturdy cardboard box with protective packaging materials to ensure that it arrives at your doorstep in perfect condition.

Shipping:

We offer free shipping on all orders of our Aluminum Heatsink product within the United States. Orders will be shipped within 1-2 business days after payment is received.

For international orders, shipping rates will vary depending on the destination country and shipping method selected at checkout.
