Basic Information

- Place of Origin: China, Guangdong
- Brand Name: No Brand

Product Specification

- Heat Dissipation: Efficient
- Color: Customized
- Surface Treatment: Anodized, Coating
- Length: Customizable
- Material: Aluminum
- Thickness: Customizable
- Application: Lighting Industry
- Shape: Customizable
- Highlight: **12mm LED Aluminum Profile,
Strip LED Aluminum Profile,
12mm led strip light profiles**

Product Description

Product Description:

One of the key features of this product is its durability. Made of high-quality aluminum, this profile is built to last and withstand wear and tear. It is also corrosion-resistant, ensuring that it will not deteriorate over time even in harsh outdoor environments.

Another important aspect of this product is its efficient heat dissipation. LED lighting can generate a lot of heat, causing damage to the lighting fixtures and even creating a fire hazard. However, our LED Aluminum Profile is designed with heat dissipation in mind, ensuring that your LED lighting stays cool and safe.

In addition to its durability and heat dissipation, this profile is also customizable to fit your specific needs. With a customizable width, you can ensure that your LED lighting is securely and snugly housed within the profile. And with a variety of color options available, you can choose the perfect color to match your project's aesthetic.

Overall, the LED Aluminum Profile is the perfect solution for anyone looking for a long-lasting and reliable housing for their LED lighting. Its high-quality aluminum construction, corrosion resistance, efficient heat dissipation, and customizable width and color options make it the best choice for any project.

Features:

Product Name: LED Aluminum Profile

Durability: High

Thickness: Customizable

Surface Treatment: Anodized, Coating

Color: Customized

Width: Customizable

Compatible with strip light

Ideal for led wall washer

Technical Parameters:

Installation Type	Surface Mount
Material	Aluminum
Surface Treatment	Anodized, Coating
Shape	Customizable
Heat Dissipation	Efficient
Thickness	Customizable
Corrosion Resistance	Yes
Width	Customizable
Application	Lighting Industry
Color	Customized

Applications:

One of the most common product application scenarios for LED Aluminum Profile is as a led wall washer. This product is designed to deliver bright, even lighting that can be used to illuminate large areas with ease. With its efficient heat dissipation design, LED Aluminum Profile is perfect for use in high-intensity lighting applications that require consistent performance over extended periods of time.

Another popular product application scenario for LED Aluminum Profile is as a strip light. This product is highly customizable, allowing users to create unique and visually stunning lighting designs that can be tailored to their specific needs. Whether you are looking to add a touch of ambiance to your home or business or need a reliable lighting solution for a commercial or industrial space, LED Aluminum Profile is the perfect choice.

With its surface mount installation type and customizable width and shape, LED Aluminum Profile is easy to install and can be adapted to fit a wide range of product application scenarios. Whether you are looking to create a unique lighting design for your home or business, or need a reliable and efficient lighting solution for an industrial or commercial space, LED Aluminum Profile is the perfect choice.

Customization:

Packing and Shipping:

Product Packaging:

The LED Aluminum Profile product will be packaged in a sturdy cardboard box to protect it during shipping. The product will be secured with foam inserts to prevent any damage during transit.

Shipping:
The LED Aluminum Profile product will be shipped via standard ground shipping. The estimated delivery time may vary depending on the destination. Once the order is processed and shipped, a tracking number will be provided to the customer to track the shipment online.
