

## Battery Generator Aluminum Enclosure Housing Extruded In Bulk

Our Product Introduction

for more products please visit us on [alu- heatsink.com](http://alu- heatsink.com)

### Basic Information

- Place of Origin: China,Guangdong
- Brand Name: No Brand
- Delivery Time: 15-20 Workdays

### Product Specification

- Installation: Easy
- Durability: High
- Type: Power Station
- Material: Aluminum
- Size: Customizable
- Corrosion Resistance: Excellent
- Heat Resistance: Good
- Color: Customized
- Highlight: **Battery Generator Aluminum Enclosure,  
Bulk Aluminum Enclosure,  
Bulk extruded aluminum housing**

## Product Description

### Product Description:

The Aluminum Enclosure product is a perfect solution for those who need a reliable power source on the go. Whether you're camping, hiking, or traveling to remote locations, this product will ensure that you always have access to a power source. The battery life of this product is exceptional, providing you with hours of uninterrupted power. With its square shape, it is easy to store and transport. One of the key features of the Aluminum Enclosure product is its design. It boasts a sleek, modern design that is sure to impress. The aluminum casing not only looks great but also provides added durability and protection for your power station. The product is available in a range of customized colors, ensuring that you can find one that suits your style and preferences. The Aluminum Enclosure product is also highly customizable in terms of its size. This means that you can choose a size that best suits your needs, whether you need a smaller size for shorter trips or a larger size for longer excursions. The product is easy to assemble and disassemble, making it easy to customize to your specific needs. In conclusion, the Aluminum Enclosure product is an exceptional power station that is perfect for those who need a reliable source of power on the go. Its waterproof design, sleek look, and customizable size make it an excellent choice for anyone who values quality and functionality. Whether you need it for camping, hiking or traveling, this product is the perfect solution for all your power needs. So why wait? Order your Aluminum Enclosure product today and experience the convenience and reliability of this exceptional product!

### Features:

Product Name: Aluminum Enclosure

Maintenance: Low

Material: Aluminum

Durability: High

Heat Resistance: Good

Waterproof: Yes

Features: Anodized aluminum for added durability and resistance to corrosion and wear.

### Technical Parameters:

Shockproof	Yes
Installation	Easy
Material	Aluminum
Color	Customized
Type	Power Station
Size	Customizable
Maintenance	Low
Durability	High
Heat Resistance	Good
Design	Sleek

### Applications:

The aluminum enclosure is perfect for use in electronics, automotive, and industrial applications. Its square shape makes it ideal for use in applications that require a compact and sleek design. It can be used to house electronic components, such as circuit boards and sensors, to protect them from external elements.

The enclosure is also suitable for use in outdoor applications due to its excellent waterproof properties. It can be used to house outdoor lighting systems, electrical switches, and other outdoor equipment. The enclosure's aluminum material makes it resistant to corrosion, ensuring that it can withstand harsh weather conditions.

The product is easy to install, making it suitable for use in DIY projects and small-scale industrial applications. Its square shape and compact design make it easy to mount on walls, surfaces, and other structures. Additionally, the product's delivery time of 15-20 workdays ensures that customers can receive their orders in a timely manner.

In summary, the aluminum enclosure is a versatile and durable product that is suitable for use in a variety of applications. Its square shape, high-quality aluminum material, excellent waterproof properties, and ease of installation make it suitable for use in electronics, automotive, and industrial applications. The product is made in China, Guangdong, and is available under the No Brand name.

### Customization:

Our enclosures do not carry a brand name and are manufactured in Guangdong, China. Delivery time for our customized products is approximately 15-20 workdays.

These enclosures are ideal for housing batteries and other sensitive electronic components, providing optimal protection and durability.

## Packing and Shipping:

Product Packaging:

One Aluminum Enclosure

Mounting Screws

Instruction Manual

Shipping:

Shipping will be done via a reputable courier service

Delivery time will depend on the destination and chosen shipping method

Tracking information will be provided once the order has been shipped

International customers are responsible for any applicable customs fees or taxes
