

Coffee Machine Extruded Aluminum Housing Enclosure Waterproof

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: China,Guangdong
- Brand Name: No Brand
- Delivery Time: 15-20 Workdays

Product Specification

- Durability: High
- Material: Aluminum
- Waterproof: Yes
- Compatibility: Universal
- Shockproof: Yes
- Color: Customized
- Corrosion Resistance: Excellent
- Type: Coffee Machine Alloy
- Highlight: **Coffee Machine extruded aluminum housing,
Waterproof extruded aluminum housing,
Extruded housing aluminium**

Product Description

Product Description:

The sleek design of this aluminum enclosure makes it perfect for a variety of applications, from DIY electronics projects to high-end audio equipment. The anodized aluminum finish gives it a professional and modern look, making it a great choice for commercial or personal use.

Installation of the Aluminum Enclosure is easy and hassle-free. With pre-drilled holes and included screws, you can quickly and easily mount your device inside the enclosure without any professional assistance. The enclosure also features a removable top cover that makes it easy to access your electronics for any necessary maintenance or repairs.

One of the key benefits of this Aluminum Enclosure is its excellent corrosion resistance. Unlike other materials that may rust or corrode over time, aluminum is highly resistant to environmental factors that can cause damage to your electronic devices. This makes it an ideal choice for outdoor or marine applications where exposure to water and other corrosive elements is a concern.

In summary, our Aluminum Enclosure is the perfect solution for those who need a durable, high-quality case for their electronic devices. With its shockproof design, excellent corrosion resistance, and sleek anodized aluminum finish, this enclosure is sure to meet all your needs. Plus, with easy installation and a removable top cover, you can quickly and easily access your electronics whenever necessary.

Features:

Product Name: Aluminum Enclosure

Material: Aluminum

Shockproof: Yes

Corrosion Resistance: Excellent

Color: Customized

Maintenance: Low

Waterproof: Yes

Perfect for Battery Enclosure

Technical Parameters:

Installation	Easy
Shockproof	Yes
Design	Sleek
Type	Coffee Machine
Material	Aluminum
Compatibility	Universal
Corrosion Resistance	Excellent
Waterproof	Yes
Durability	High
Maintenance	Low

Applications:

Coffee Machines: Aluminum enclosures are ideal for coffee machines because of their high heat resistance and shockproof properties. They can protect the internal components of the coffee machine from damage caused by high temperatures and vibrations. Additionally, the easy installation process makes it effortless to replace the enclosure when needed.

Battery Packs: Aluminum enclosures are perfect for battery packs due to their high durability and anodized finish. The enclosure's strength protects the batteries from damage caused by accidental drops or bumps. The anodized finish adds extra protection against corrosion and wear and tear, ensuring the battery pack lasts for a long time.

Industrial Machinery: Industrial machinery needs to be robust and durable, and aluminum enclosures are an excellent choice for this purpose. The enclosures are highly shockproof, making them perfect for protecting sensitive equipment from vibrations and impact. The high durability ensures that the enclosure can withstand harsh environmental conditions and last for a long time.

Electronics: Aluminum enclosures are commonly used in electronics due to their lightweight and easy installation process. They are also highly customizable, making it easy to create enclosures in various shapes and sizes to fit specific electronic components. The high heat resistance and anodized finish also add extra protection against heat and corrosion, ensuring the longevity of the electronics.

With a delivery time of 15-20 workdays, the Aluminum Enclosure product is an excellent choice for anyone looking for a high-quality and durable enclosure. The product's attributes, such as being shockproof, having good heat resistance, and being easy to install, make it ideal for various application occasions and scenarios. No Brand Aluminum Enclosures are made in Guangdong, China, and are an affordable yet reliable solution for any project.

Customization:

Our customization services offer a variety of options to make your Aluminum Enclosure unique. Choose from different shapes and sizes, including our popular Square and Square designs. Our enclosures are also compatible with a wide range of devices.

Packing and Shipping:

Product Packaging:

The aluminum enclosure product will be packaged securely in a corrugated cardboard box with appropriate padding to prevent any damage during transportation.

Shipping:

The product will be shipped via a reputable shipping company and the delivery time will depend on the distance and shipping method chosen by the customer. The shipping cost will be calculated based on the destination and weight of the package.
