

Precision Machined Heat Sink Aluminium Extrusion Anodized Custom

Our Product Introduction

for more products please visit us on alu-heatsink.com

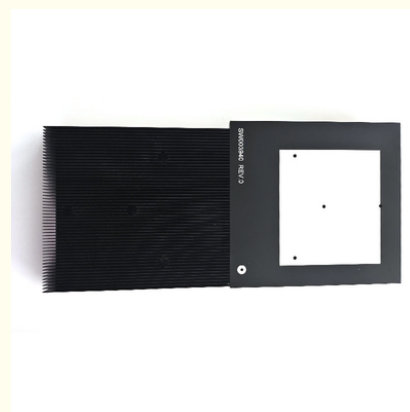

Basic Information

- Place of Origin: China, Guangdong
- Brand Name: No Brand
- Payment Terms: L/C, T/T, Western Union, MoneyGram

Product Specification

- Surface Treatmentment: Anodized, Painted, Customized
- Dimensions: Various Sizes Available
- Mounting Type: Vertical
- Sample: Available
- Machining Equipment: CNC Center Precision Machining
- Durability: High
- Compatibility: Universal
- Thermal Conductivity: High
- Highlight: **Precision Machined heat sink aluminium extrusion**
, Anodized heat sink aluminium extrusion,
anodized aluminum heat sink Extrusion

Product Description

Product Description:

We offer this heatsink in various sizes to fit your specific needs. Whether you are looking for a larger unit to cool a high-powered LED light or a smaller one for a more compact lighting fixture, we have you covered. The dimensions of our heatsinks are carefully crafted to ensure maximum efficiency and effectiveness.

Our Aluminum Heatsink is also designed to be compatible with a wide range of LED lighting products. This makes it a universal solution for your cooling needs, no matter what type of lighting you are using. From industrial to residential, our heatsink can handle it all.

In addition to being versatile and efficient, our Aluminum Heatsink is also incredibly durable. Made from high-quality materials, it is designed to withstand the rigors of daily use in a variety of environments. You can trust that our heatsink will provide reliable cooling for your LED lighting products for years to come.

Overall, our Aluminum Heatsink is the perfect solution for your LED lighting needs. With its vertical mounting type, various sizes available, universal compatibility, and high durability, it is sure to provide the cooling power your lighting products need to perform at their best. So why wait? Order your Aluminum Heatsink today and get ready to see the difference it can make for your LED lighting.

Features:

Product Name: Aluminum Heatsink

Sample: Available

Mounting Type: Vertical

Alloy: 6063

Thermal Conductivity: High

Dimensions: Various Sizes Available

Keywords: Power Station, LED Heat Sink, Heat Sink Extrusion

Technical Parameters:

Attribute	Description
Compatibility	Universal
Alloy	6063
Mounting Type	Vertical
Sample Leadtime	15 Days
Dimensions	Various Sizes Available
Surface Treatmentment	Anodized, Painted, Customized
Sample	Available
Durability	High
Thermal Conductivity	High
Machining Equipment	CNC Center Precision Machining

Applications:

No Brand Aluminum heat sink is made in China, Guangdong using CNC Center Precision Machining equipment. This ensures that the product is of high quality and meets the precise requirements of the customers. The product is compatible with various LED lighting products and can be used in different scenarios.

The surface treatment of the No Brand Aluminum heat sink is customizable. The product can be anodized or painted to meet the specific requirements of the customers. This makes it suitable for various applications and scenarios.

One of the key features of the No Brand Aluminum heat sink is its high thermal conductivity. This ensures that heat generated by the LED chips is quickly dissipated, thus ensuring the LED lighting products can function efficiently. This property makes it suitable for various applications in the LED lighting industry.

The No Brand Aluminum heat sink is designed for vertical mounting. This makes it suitable for use in various LED lighting fixtures that require a vertical mounting system.

The No Brand Aluminum heat sink is suitable for use in various applications and scenarios. Some of the common applications include LED lighting fixtures for residential and commercial buildings, street lighting, and automotive lighting. The product is also suitable for use in various scenarios, including indoor and outdoor lighting, industrial lighting, and decorative lighting.

In conclusion, No Brand Aluminum heat sink is a versatile and high-quality product that is suitable for use in various LED lighting applications and scenarios. Its high thermal conductivity, customizable surface treatment, and compatibility with different LED lighting products make it an ideal choice for customers looking for a reliable and efficient heat sink solution.

Customization:

Packing and Shipping:

Product Packaging:

One Aluminum Heatsink
Protective foam padding
Plastic bag for added protection
Product label and instructions

Shipping:

Ships within 1-2 business days
Standard shipping (3-5 business days)
Expedited shipping available for an additional fee
Ships to US addresses only
