

ODM 6063 Universal Aluminum Heatsink Extrusion By The Foot

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: China, Guangdong
- Brand Name: No Brand
- Payment Terms: L/C, T/T, Western Union, MoneyGram

Product Specification

- Alloy: 6063
- Sample: Available
- Thermal Conductivity: High
- Compatibility: Universal
- Machining Equipment: CNC Center Precision Machining
- Mounting Type: Vertical
- Surface Treatmentment: Anodized, Painted, Customized
- Dimensions: Various Sizes Available
- Highlight: **ODM Aluminum Heatsink, Aluminum Heatsink Extrusion By The Foot, 6063 heat sink extrusion by the foot**

Product Description

Product Description:

The Aluminum Heat Sink has a variety of surface treatments available including anodized, painted and customized. These treatments provide the heat sink with an extra layer of protection against wear and tear, ensuring that it lasts a long time. In addition, the heat sink's surface treatment not only provides protection, but also adds to the overall aesthetic value of the product.

This Aluminum Heat Sink is designed to be mounted vertically. With its sturdy base and vertical design, the heat sink provides a secure and stable mounting solution for your LED lighting projects. This mounting type ensures that the heat sink is positioned correctly for optimal thermal management and maximum performance.

The durability of the Aluminum Heat Sink is one of its main features. Constructed from high-quality aluminum, this heat sink is built to last. With its ability to withstand high temperatures and extreme conditions, the heat sink is the perfect solution for your LED lighting needs.

Our Aluminum Heat Sink is available for sample orders and has a sample lead time of 15 days. This gives you the opportunity to test the product before making a larger purchase. Our sample program ensures that you receive the right product for your needs.

Investing in our Aluminum Heat Sink is a smart choice for your LED lighting projects. Its high-quality construction, surface treatments, vertical mounting and durability make it the perfect solution for any LED lighting application. Order now and experience the difference that our Aluminum Heat Sink can make for your LED lighting projects.

Features:

Product Name: Aluminum Heatsink

Dimensions: Various Sizes Available

Sample: Available

Sample Leadtime: 15 Days

Thermal Conductivity: High

Mounting Type: Vertical

This Aluminum Heatsink is the perfect solution for your power station needs. With its high thermal conductivity and vertical mounting type, it will keep your equipment cool and running smoothly. Samples are also available with a leadtime of 15 days.

Technical Parameters:

Mounting Type	Vertical
Sample	Available
Sample Leadtime	15 Days
Compatibility	Universal
Machining Equipment	CNC Center Precision Machining
Surface Treatmentment	Anodized, Painted, Customized
Alloy	6063
Durability	High
Thermal Conductivity	High
Dimensions	Various Sizes Available

Applications:

The Aluminum Heatsink product is suitable for various LED lighting applications, such as residential lighting, commercial lighting, and automotive lighting. In residential lighting, the product can be used in LED bulbs, ceiling lights, and wall sconces. In commercial lighting, the product can be used in LED downlights, track lights, and floodlights. In automotive lighting, the product can be used in LED headlights, taillights, and interior lighting.

The Aluminum Heatsink product is also ideal for scenarios where high thermal conductivity and durability are necessary. For example, in industrial settings where high temperatures and harsh environments are common, the product can be used in LED lighting for machinery, warehouses, and manufacturing facilities. The product can also be used in outdoor lighting applications, such as streetlights and stadium lights, where exposure to the elements can compromise the performance of the LED lights.

The Aluminum Heatsink product is made with high-quality 6063 alloy and is available in various sizes to accommodate different LED lighting needs. The product is manufactured in China, Guangdong and is available from a variety of suppliers. Samples are also available for customers to test before placing larger orders.

Customization:

We offer various surface treatments including anodizing, painting, and customized options to fit your specific needs. Samples are also available, with a lead time of 15 days.

Choose No Brand and trust our quality products for your next project.

Packing and Shipping:

Product Packaging:
The aluminum heatsink will be securely wrapped in bubble wrap to prevent any damage during transportation.
The wrapped product will be placed in a corrugated cardboard box with proper cushioning material to prevent any movement or impact during shipping.
The box will be sealed with adhesive tape to ensure that the product stays safe and secure throughout the shipping process.

Shipping:
The product will be shipped via a reliable courier service.
The shipping time may vary depending on the destination, but we will provide an estimated delivery date once the order is placed.
We will provide a tracking number so that you can track the status of your shipment.
