

## ODM 6063 Alloy Extruded Aluminum Heatsink Anodized Aluminum Heat Sink

Our Product Introduction

for more products please visit us on [alu-heatsink.com](http://alu-heatsink.com)

### Basic Information

- Place of Origin: China, Guangdong
- Brand Name: No Brand

### Product Specification

- Alloy: 6063
- Mounting Type: Vertical
- Thermal Conductivity: High
- Surface Treatmentment: Anodized, Painted, Customized
- Durability: High
- Dimensions: Various Sizes Available
- Sample: Available
- Sample Leadtime: 15 Days
- Highlight: ODM extruded aluminum heatsink,  
Anodized extruded aluminum heatsink,  
ODM anodized aluminum heat sink

## Product Description

### Product Description:

One of the key features of our Aluminum Heat Sink is its high thermal conductivity. This means that it is able to transfer heat away from your LED lighting components quickly and effectively, which can help to extend the lifespan of your LED lights.

In addition to its excellent thermal conductivity, our Aluminum Heat Sink is also highly durable. Made from high-quality materials, it is designed to withstand the rigors of regular use without showing signs of wear and tear.

Our Aluminum Heat Sink is also compatible with a wide range of LED lighting products, making it a versatile choice for any project.

Whether you are working on a small DIY project or a large commercial installation, our Aluminum Heat Sink is sure to meet your needs.

To help you make an informed decision, we offer samples of our Aluminum Heat Sink. This means that you can try it out for yourself before committing to a larger purchase. And with a sample lead time of just 15 days, you won't have to wait long to get started on your project.

So if you are looking for a reliable and high-quality Aluminum Heat Sink for your LED lighting project, look no further than our Aluminum Heat Sink. With its high thermal conductivity, durability, and compatibility with a wide range of LED lighting products, it is sure to meet your needs.

### Features:

Product Name: Aluminum Heatsink

Compatibility: Universal

Sample Leadtime: 15 Days

Alloy: 6063

Thermal Conductivity: High

Sample: Available

Suitable for: LED Lighting, Power station

Material: Aluminum heat sink

### Technical Parameters:

Product Attribute	Value
Product Name	Aluminum Heat Sink
Dimensions	Various Sizes Available
Alloy	6063
Sample	Available
Thermal Conductivity	High
Mounting Type	Vertical
Surface Treatment	Anodized, Painted, Customized
Durability	High
Compatibility	Universal
Sample Leadtime	15 Days

### Applications:

The heatsinks can be used in a variety of applications, including LED lighting systems. LED heat sinks are designed to dissipate the heat generated by the LED light source, ensuring that the LED light operates at a safe and optimal temperature. The aluminum heatsinks are available in various sizes, making them suitable for small and large LED lighting systems.

The heat sink extrusion design allows for efficient heat dissipation, ensuring that the electronic components operate at a safe temperature. The heatsinks are available with different surface treatments, including anodized, painted, and customized finishes. The anodized finish provides a protective layer that enhances the durability of the heatsink, while the painted finish allows for customization to match the aesthetics of the device.

Aluminum heatsinks are also used in power electronics, including power modules and transistors. The heatsinks are designed to dissipate the heat generated by the power electronics, ensuring that the components operate within their safe temperature range. The aluminum heatsinks are available in various sizes, making them suitable for small and large power electronics systems.

The aluminum heatsinks are made in China, Guangdong, and are of high quality. Samples are available for customers to test before placing orders. The heatsinks are suitable for use in a wide range of electronic devices and components, providing an efficient solution for heat dissipation.

### Customization:

## Packing and Shipping:

Product Packaging:

One Aluminum Heatsink

Protective plastic wrap

Carton box

Shipping:

Ships within 24 hours

Free shipping

Shipped via standard carrier
