

Commercial Corner Aluminum Strip Light Channel 12mm

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: China, Guangdong
- Brand Name: No Brand
- Payment Terms: L/C, T/T, Western Union, MoneyGram

Product Specification

- Length: Customizable
- Heat Dissipation: Efficient
- Color: Customized
- Corrosion Resistance: Yes
- Material: Aluminum
- Application: Lighting Industry
- Width: Customizable
- Shape: Customizable
- Highlight: **Commercial aluminum strip light channel,
12mm aluminum strip light channel,
Commercial aluminium corner profile 12mm**

Product Description

Product Description:

The LED Aluminum Profile is made of high-quality anodized or coated aluminum, which provides excellent durability, making it ideal for both residential and commercial use. The anodized or coated surface treatment not only enhances its durability but also gives it an appealing look that will complement any décor.

This product is perfect for education LED light projects, strip light installations, and other lighting projects, where proper lighting and aesthetics are key factors. It's a perfect fit for any strip light installation, whether it's under cabinets, shelves, or any other location. With our LED Aluminum Profile, you can achieve a professional-looking lighting installation that will impress everyone. The profile provides a secure and stable base for the LED strip light, ensuring that it stays in place and doesn't fall off. It's a perfect solution for anyone who wants to install strip lights in their home or business without worrying about them falling off or getting damaged.

The LED Aluminum Profile is easy to install and comes with all the necessary installation hardware, making it a hassle-free solution for anyone. It's also easy to maintain, and you can clean it with a damp cloth to keep it looking new.

In conclusion, our LED Aluminum Profile is an excellent product that will enhance the functionality and aesthetics of any LED strip light installation. It's customizable, durable, and easy to install, making it a perfect fit for any project. Whether it's for education led light projects, strip light installations, or any other lighting project, our LED Aluminum Profile is the perfect solution.

Features:

Product Name: LED Aluminum Profile

Heat Dissipation: Efficient

Corrosion Resistance: Yes

Width: Customizable

Application: Lighting Industry

Length: Customizable

Material: Aluminum

Compatible with: LED wall washer

Technical Parameters:

Heat Dissipation:	Efficient
Color:	Customized
Surface Treatment:	Anodized, Coating
Width:	Customizable
Shape:	Customizable
Length:	Customizable
Corrosion Resistance:	Yes
Application:	Lighting Industry
Installation Type:	Surface Mount
Durability:	High

Applications:

One of the primary applications of LED Aluminum Profile is for LED wall washers. The profile's unique design allows for easy installation of LED lights, which can produce a uniform light output across a surface. The aluminum material used in the LED Aluminum Profile ensures that it is corrosion-resistant, making it ideal for outdoor use. The profile's efficient heat dissipation properties ensure that the LED lights stay cool, thus extending their lifespan.

The LED Aluminum Profile is customizable to fit any size of LED lights. Its surface treatment can be anodized or coated, depending on the customer's preference. Anodizing increases the profile's durability and improves its resistance to wear and tear. Coating, on the other hand, gives the profile a unique finish that can match the surrounding decor.

The LED Aluminum Profile is suitable for various scenarios, such as in homes, restaurants, hotels, and other commercial areas. Its customizable width makes it ideal for use in different areas, from small rooms to large halls. The profile's efficient heat dissipation ensures that it can be used in areas with high temperatures, such as industrial areas.

In conclusion, the LED Aluminum Profile is an essential product for anyone who wants to install LED lights. Its unique design, durability, and efficient heat dissipation make it ideal for various applications. Whether you need to install LED wall washers in your home, office, or industrial area, the LED Aluminum Profile is the perfect product for you.

Customization:

- Customizable shape to fit your unique design requirements
- Surface mount installation type for easy installation

- High durability for long-lasting use in the lighting industry
- Customizable width to fit your specific LED strip light

Our LED Aluminum Profile product is made in Guangdong, China and is a reliable solution for your LED wall washer and strip light needs.

Packing and Shipping:

Product Packaging:

The LED Aluminum Profile will be packed in a sturdy cardboard box with protective foam inserts to prevent any damage during transportation. The box will be labeled clearly with the product name, specifications, and handling instructions.

Shipping:
