

High Tensile Strength Aluminium Frame Profile Extruded Aluminum Shelving

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: China, Guangdong
- Brand Name: No Brand

Product Specification

- Color: Customized
- Aesthetics: Sleek
- Tensile Strength: High
- Cost: Affordable
- Material: Aluminum
- Malleability: High
- Stiffness: Strong
- Conductivity: Good
- Highlight: **Extruded aluminium frame profile,
aluminium frame profile Shelving,
High Tensile extruded aluminum shelving**

Product Description

Product Description:

The Aluminum Shelving is made from high-quality aluminum material that has been carefully crafted to provide maximum durability and longevity. The material used in this product is renowned for its high tensile strength, which means it can withstand heavy loads without bending or breaking. This makes it a great option for storing heavy items such as books, tools, and equipment.

One of the key features of this shelving unit is its strong rust resistance. Unlike other types of metal shelving options that can easily rust and corrode when exposed to moisture, the Aluminum Shelving has been designed to withstand the effects of moisture and humidity. This means you can use it in damp environments such as basements, garages, and storage rooms without worrying about rust and corrosion. In addition to its rust resistance, the Aluminum Shelving is also highly resistant to corrosion. This means it can withstand exposure to harsh chemicals and other corrosive substances without deteriorating or becoming damaged. This makes it a great option for use in commercial settings such as factories, warehouses, and laboratories.

Another key feature of this shelving unit is its stiffness. The Aluminum Shelving has been designed to be incredibly rigid and strong, which means it can withstand heavy loads and remain stable without bending or flexing. This makes it a great option for storing fragile items such as glassware, ceramics, and electronics.

Overall, the Aluminum Shelving is an affordable and high-quality shelving option that offers great value for your money. Its strong resistance to rust, corrosion, and stiffness make it a great option for storing a wide range of items in both residential and commercial settings. So why wait? Order your Aluminum Shelving today and start enjoying a more organized and clutter-free space!

Features:

Product Name: Aluminum Shelving

Also known as: Aluminum Wall Shelving, Wood Aluminum

Rust Resistance: Strong

Conductivity: Good

Durability: High

Corrosion Resistance: Strong

Application: Household, Business

Technical Parameters:

Attribute	Description
Product Name	Aluminum Shelving
Color	Customized
Conductivity	Good
Stiffness	Strong
Malleability	High
Rust Resistance	Strong
Cost	Affordable
Application	Household, Business
Material	Aluminum
Durability	High
Aesthetics	Sleek

Applications:

Household

The Aluminum Wall Shelving is a great addition to any home. With its high heat resistance and durability, it can withstand the wear and tear of everyday use. This product is perfect for storing kitchen utensils, bathroom supplies, and even books and decorations in the living room. The malleability of the aluminum also allows for customization, allowing users to adjust the shelving to fit their specific needs.

Business

The Aluminum Shelving is also great for business settings. Its high durability makes it a reliable option for storing office supplies, files, and even heavy equipment. The Aluminum Office Shelving is a great way to maximize space while maintaining a professional look. With its customizable color options, it can also add a touch of style to any workspace.

Overall, our No Brand Aluminum Shelving product is a versatile option for both household and business settings. Its high heat resistance, durability, and malleability make it a reliable and customizable choice for any storage needs. Order yours today!

Customization:

Packing and Shipping:

- The aluminum shelving product will be carefully packaged in a sturdy cardboard box to ensure its safe delivery.
- All necessary hardware and assembly instructions will be included within the package.

Shipping:

- The aluminum shelving product will be shipped via standard ground shipping.
- Shipping times may vary depending on location and shipping method selected.
