

Heat Dissipation Aluminum Coating Ultimate Product Enhancement

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: China, Guangdong
- Brand Name: No Brand
- Minimum Order Quantity: 1000
- Delivery Time: 10-15 Workdays
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram

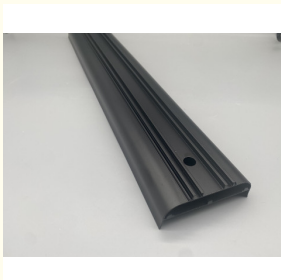

Product Specification

- Material: Aluminum
- Shape: Customizable
- Durability: High
- Surface Treatment: Anodized, Coating
- Width: Customizable
- Heat Dissipation: Efficient
- Color: Customized
- Length: Customizable
- Highlight: Customizable LED Aluminum Profile, Heat Dissipation LED Aluminum Profile

Product Description

Product Description:

One of the standout features of this LED Aluminum Profile is its efficient heat dissipation capabilities. This is crucial for LED lighting as it helps to prevent overheating and prolongs the lifespan of the product. The high-quality aluminum construction allows for optimal heat dissipation, keeping your LED lights cool and functioning at their best.

With customizable width and thickness options, this LED Aluminum Profile is versatile enough to fit a variety of LED light sizes. The anodized and coating surface treatments provide added protection against wear and tear, ensuring your LED lights are protected and functioning efficiently for years to come.

Whether you're in need of LED wall washer lighting for your home or business, our LED Aluminum Profile is the perfect fit. Its sleek and modern design will seamlessly blend in with any environment, providing a clean and polished look. Plus, the customizable options allow for a tailored fit to your specific LED lighting needs.

In summary, our LED Aluminum Profile is the ideal choice for anyone in need of a durable and efficient LED wall washer solution. Its high-quality aluminum construction provides excellent corrosion resistance and efficient heat dissipation. Plus, with customizable width and thickness options, this product is versatile enough to fit a variety of LED light sizes. Choose the anodized or coating surface treatment for added protection against wear and tear. Upgrade your LED lighting system with our LED Aluminum Profile today!

Features:

Product Name: LED Aluminum Profile

Material: Aluminum

Thickness: Customizable

Surface Treatment: Anodized, Coating

Length: Customizable

Heat Dissipation: Efficient

Compatible with strip light

Provides a sleek and professional look to your strip light installation

Technical Parameters:

Technical Parameters	Description
Installation Type	Surface Mount
Color	Customized
Length	Customizable
Width	Customizable
Shape	Customizable
Material	Aluminum
Heat Dissipation	Efficient
Surface Treatment	Anodized, Coating
Durability	High
Corrosion Resistance	Yes

Applications:

The LED Aluminum Profile is perfect for creating different lighting effects in various settings. It can be used in indoor and outdoor environments, such as homes, offices, malls, hotels, and other public areas. One of the most common applications of the LED Aluminum Profile is to create a seamless lighting effect on walls and ceilings. This is achieved by embedding the LED strips into the profile, which then illuminates the room.

The LED Aluminum Profile is also ideal for creating LED wall washers. By using the LED Aluminum Profile, the light is diffused evenly, creating an even wash of light. This makes it ideal for highlighting specific areas in a space, such as artwork, signage, or architectural features. The LED Aluminum Profile can be customized to fit any application, making it a versatile product for any lighting project.

The LED Aluminum Profile is easy to install and is designed for surface mounting. It can be installed on any flat surface without any special tools or equipment. The product is lightweight and durable, making it easy to handle and transport. The LED Aluminum Profile is also designed to protect the LED strip lights from damage, ensuring a long lifespan for the product.

In conclusion, the LED Aluminum Profile is an excellent product for creating different lighting effects in various settings. Its customizable shape and length make it a versatile product that can be used in any lighting project. The LED Aluminum Profile is perfect for presenting strip lights and LED wall washers, making it an ideal product for the lighting industry.

Packing :

The LED Aluminum Profile will be carefully packed in a sturdy cardboard box to prevent any damage during transportation.
