

Customizable Width LED Aluminum Profile Strip Light Versatile Corrosion Resistance

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: China,Guangdong
- Brand Name: No Brand
- Minimum Order Quantity: 1000
- Delivery Time: 10-15 Workdays
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram

Product Specification

- Shape: Customizable
- Application: Lighting Industry
- Surface Treatment: Anodized, Coating
- Thickness: Customizable
- Heat Dissipation: Efficient
- Length: Customizable
- Color: Customized
- Material: Aluminum
- Highlight: Customizable Width LED Aluminum Profile, Corrosion Resistance LED Aluminum Profile, Versatile LED Aluminum Profile

Product Description

Product Description:

One of the most common applications of the LED Aluminum Profile is in education LED light installations. This product is ideal for providing lighting solutions in schools, universities, and other educational institutions. Its high durability ensures that it can withstand the wear and tear that comes with daily use, while its corrosion-resistant properties make it ideal for use in areas with high humidity or exposure to water.

Another popular application of the LED Aluminum Profile is in LED wall washer installations. This product is perfect for creating a dramatic lighting effect on walls, ceilings, and other surfaces. Its customizable width and thickness make it easy to install and use in a variety of different settings, while its high durability ensures that it can withstand the rigors of everyday use.

In addition to its durability and corrosion resistance, the LED Aluminum Profile is also highly customizable when it comes to color. This means that it can be easily matched to the color scheme of any room or setting, making it a versatile product that can be used in a wide range of different applications.

Overall, the LED Aluminum Profile is a high-quality product that is ideal for use in a variety of different settings. Its customizable width and thickness, durability, corrosion resistance, and color options make it a versatile and reliable product that is perfect for education LED light and LED wall washer installations.

Features:

Product Name: LED Aluminum Profile

Material: Aluminum

Heat Dissipation: Efficient

Surface Treatment: Anodized, Coating

Corrosion Resistance: Yes

Shape: Customizable

This LED Aluminum Profile is made of high-quality aluminum material, ensuring excellent heat dissipation and durability. It features anodized or coated surface treatment for added protection against corrosion. The customizable shape makes it perfect for various applications, such as education LED light and LED wall washer.

Technical Parameters:

Heat Dissipation	Efficient
Shape	Customizable
Length	Customizable
Application	Lighting Industry
Surface Treatment	Anodized, Coating
Material	Aluminum
Thickness	Customizable
Durability	High
Installation Type	Surface Mount
Color	Customized

Applications:

The LED Aluminum Profile is corrosion-resistant, making it ideal for use in humid and moist environments. It can be used in both indoor and outdoor settings without any risk of rust or deterioration. The product is perfect for the lighting industry, where precision and durability are critical.

The LED Aluminum Profile can be customized to any shape, making it suitable for various lighting applications. It can be used to create education LED lights for classrooms, libraries, and other educational facilities. The product's sleek design ensures that it blends seamlessly into the environment, providing a comfortable and conducive learning atmosphere.

The LED Aluminum Profile can also be used to create LED wall washers, which are ideal for illuminating large areas. The product is designed to provide even and consistent lighting, ensuring that every corner of the room is well-lit. The LED wall washer is perfect for use in commercial settings such as hotels, restaurants, and shopping malls.

In conclusion, the LED Aluminum Profile is a versatile product that can be used for various lighting applications. Its high-quality aluminum material, customized colors, corrosion-resistant, and customizable shapes make it ideal for use in the lighting industry. Whether you need education LED lights or LED wall washers, this product has got you covered.

Packing :

Product Packaging:

The LED Aluminum Profile product is carefully packed in a sturdy cardboard box to ensure its safety during transportation. The box is labeled with the product name, description, and quantity to make it easy for you to identify your order.
