

Heat Dissipation LED Aluminum Profile For Customized Coating Specifications

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: China,Guangdong
- Brand Name: No Brand
- Minimum Order Quantity: 1000
- Delivery Time: 10-15 Workdays
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram

Product Specification

- Durability: High
- Application: Lighting Industry
- Color: Customized
- Shape: Customizable
- Surface Treatment: Anodized, Coating
- Width: Customizable
- Thickness: Customizable
- Corrosion Resistance: Yes
- Highlight: **Heat Dissipation LED Aluminum Profile,
Customized Coating LED Aluminum Profile,
LED Aluminum Profile**

Product Description

Product Description:

The LED Aluminum Profile is available in a variety of customizable colors to fit your specific design needs. Choose from a wide range of surface treatments, including anodized or coating, to create the perfect finish for your project.

The profile's width and length can also be customized to fit the dimensions of your project. This flexibility allows you to create a unique and personalized design that will perfectly complement your space.

The LED Aluminum Profile is ideal for use with strip lights, such as our LED strip light or LED wall washer. When paired together, these products create a stunning lighting effect that will enhance any space. The profile's design also ensures that the strip lights are securely placed and protected, increasing their lifespan and durability.

With its sleek and modern design, customizable options, and compatibility with strip lights, our LED Aluminum Profile is the perfect choice for your lighting project. Enhance the look of your space with this high-quality product today.

Features:

Product Name: LED Aluminum Profile

Installation Type: Surface Mount

Surface Treatment: Anodized, Coating

Corrosion Resistance: Yes

Material: Aluminum

Shape: Customizable

Compatible with strip light and LED wall washer

Technical Parameters:

Thickness	Customizable
Durability	High
Shape	Customizable
Corrosion Resistance	Yes
Application	Lighting Industry
Surface Treatment	Anodized, Coating
Heat Dissipation	Efficient
Installation Type	Surface Mount
Width	Customizable
Material	Aluminum

Applications:

Education LED Light:

The LED Aluminum Profile can be used to create education LED light. The product can be used to illuminate classrooms, laboratories, and libraries. The product is efficient in heat dissipation, and it is highly durable. The aluminum material used in the product ensures that it can withstand the harsh conditions of the classroom.

LED Wall Washer:

The LED Aluminum Profile is perfect for creating LED wall washers. The product can be customized to create a unique lighting effect on walls. The product is highly efficient in heat dissipation, ensuring that it can be used for extended periods without overheating. The product is highly durable, and the aluminum material used in its construction ensures that it can withstand harsh conditions.

Aluminum Profile:

The LED Aluminum Profile is made of high-quality aluminum material. The aluminum material is highly durable, ensuring that the product can be used for extended periods without showing signs of wear and tear. The product is highly efficient in heat dissipation, ensuring that it can be used for extended periods without overheating. The product is customizable, and the thickness and shape can be modified to meet the specific needs of the customer.

The LED Aluminum Profile is made in China, Guangdong. The product is highly customizable, ensuring that it can be used in multiple applications. The product is highly efficient in heat dissipation, ensuring that it can be used for extended periods without overheating. The product is highly durable and made of high-quality aluminum material, ensuring that it can withstand harsh conditions. The product is perfect for creating education LED light, LED wall washers, and aluminum profiles.

Packing :

The LED Aluminum Profile is carefully packed in a sturdy cardboard box to ensure safe transportation.
