

## Power Coating Solar Photovoltaic Panels Frame Alu Profile For Lightweight And Durable Solar Panel Frame

Our Product Introduction

for more products please visit us on [alu- heatsink.com](http://alu- heatsink.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Packaging Details: protect film
- Delivery Time: 15-30days

### Product Specification

- Width: Customized
- Feature: Lightweight And Durable
- Thickness: Customized
- Length: Customized
- Color: Black
- Application: Solar Energy System
- Material: Aluminum
- Surface Treatment: Power Coating
- Highlight: **Alu Profile Solar Photovoltaic Panels Frame ,  
Durable Solar Photovoltaic Panels Frame ,  
Lightweight Solar Photovoltaic Panels Frame**

## Product Description

### Product Description:

The Solar Photovoltaic Panels Frame Alu Profile is a versatile product designed for the Solar Energy System application. This aluminum profile is specifically crafted for photovoltaic panels, providing a sturdy and reliable mounting system for solar energy setups.

The shape of the Aluminum Profile can be customized according to the specific requirements of the solar panel installation. Whether the project demands a particular angle or curvature, the frame can be tailored to ensure a seamless fit for the photovoltaic panels.

With customizable length options, the Aluminium Photovoltaic Mounting System offers flexibility in accommodating various panel sizes and configurations. This adaptability allows for a precise and tailored approach to solar panel installations, optimizing energy output and efficiency.

For clients seeking OEM or ODM services, the Solar Photovoltaic Panels Frame Alu Profile product is available for customization. This means that specific design specifications, branding requirements, or unique features can be incorporated into the aluminum profile to meet individual needs and preferences.

In terms of thickness, the Aluminum Profile can be customized to meet the structural and durability requirements of the photovoltaic panels. By providing varying thickness options, the frame can ensure the stability and longevity of the solar energy system, even in challenging environmental conditions.

Overall, the Solar Photovoltaic Panels Frame Alu Profile offers a reliable and customizable solution for mounting photovoltaic panels in solar energy systems. With its durable aluminum construction, tailored shape and length options, and availability for OEM/ODM customization, this product provides a versatile and efficient mounting system for solar panel installations.

### Features:

Product Name: Solar-Photovoltaic-Panels Frame Alu-Profile

Application: Solar Energy System

Width: Customized

Color: Black

Oem/Odm: Available

Length: Customized

### Technical Parameters:

Length	Customized
Material	Aluminum
Color	Black
Width	Customized
Surface Treatment	Anodized
Usage	Solar Panel Frame
Application	Solar Energy System
Feature	Lightweight And Durable
Thickness	Customized
Oem/Odm	Available

### Applications:

Golden Chain Solar Photovoltaic Panels Frame Alu Profile is a premium product designed for various applications in the solar energy system. Made with high-quality aluminum, this frame is durable, lightweight, and corrosion-resistant, making it ideal for outdoor use. The black color of the frame adds a sleek and modern look to any solar panel installation.

Originating from Guangdong, China, this product upholds the reputation of quality craftsmanship and precision engineering. The customized thickness and length options ensure a perfect fit for different solar panel sizes and configurations, allowing for a seamless integration into any photovoltaic system.

Whether used in residential, commercial, or industrial settings, the Golden Chain Solar Photovoltaic Panels Frame Alu Profile excels in providing reliable support and stability for solar panels. Its compatibility with Aluminium Photovoltaic Mounting Systems makes it versatile and easy to install, saving time and effort during the setup process.

The frame is coated with a power coating finish, enhancing its durability and weather resistance, ensuring long-term performance even in challenging environmental conditions. This feature makes it an excellent choice for both rooftop and ground-mounted solar panel installations.

Overall, the Golden Chain Solar Photovoltaic Panels Frame Alu Profile is a top-of-the-line product that meets the highest standards of quality and functionality. Its versatility, durability, and aesthetics make it a perfect choice for a wide range of photovoltaic applications, providing reliable support and protection for solar panels while enhancing the overall efficiency of solar energy systems.

### Customization:

Product Customization Services for the Solar Photovoltaic Panels Frame Alu.Profile: .....  
Brand Name: Golden Chain  
Place of Origin: Guangdong, China  
Surface Treatment: Power Coating  
Color: Black  
Length: Customized  
Thickness: Customized  
Feature: Lightweight And Durable

**Packing and Shipping:**

Product Packaging:  
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery. Each profile is wrapped in protective material and placed in a sturdy cardboard box with ample cushioning to prevent any damage during transit.  
Shipping:  
Ocean, Air, Express
