

## Sturdy And Lightweight Solar Photovoltaic Panels Frame Alu Profile For Easy And Fast Solar Panel Mounting

Our Product Introduction

for more products please visit us on [alu-heatsink.com](http://alu-heatsink.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300kilogram
- Packaging Details: protect film
- Delivery Time: 15-30days

### Product Specification

- Color: Black
- Width: Customized
- Usage: Solar Panel Frame
- Surface Treatment: Anodized
- Oem/Odm: Available
- Shape: Customized
- Material: Aluminum
- Application: Solar Energy System
- Highlight: **Easy Solar Photovoltaic Panels Frame,  
Sturdy Solar Photovoltaic Panels Frame,  
Lightweight Solar Photovoltaic Panels Frame**

## Product Description

### Product Description:

The Solar Photovoltaic Panels Frame Alu Profile is a versatile product that is suitable for various solar energy system applications. With an emphasis on quality and customization, this aluminum profile is designed to meet the specific needs of customers. Whether you require OEM or ODM services, this product is available to accommodate your unique requirements. One of the key features of this aluminum profile is its customizability in terms of thickness and width. This flexibility allows you to tailor the product to your project's specifications, ensuring a precise fit and optimal performance. The ability to customize the thickness and width of the profile makes it a versatile solution for different mounting requirements in photovoltaic systems. The Solar Photovoltaic Panels Frame Alu Profile is specifically designed for use in photovoltaic applications, making it an ideal choice for solar energy systems. Its lightweight construction offers ease of installation and handling, while its durable aluminum material ensures long-lasting performance in various environmental conditions. This combination of lightweight design and durability makes it a reliable choice for mounting solar photovoltaic panels.

When it comes to mounting solar panels, the choice of material is crucial for ensuring stability and longevity. The aluminum profile used in this product is well-suited for photovoltaic applications, offering excellent corrosion resistance and structural strength. This ensures that your solar energy system is securely mounted and can withstand exposure to the elements over time.

In addition to its functionality, the Solar Photovoltaic Panels Frame Alu Profile also boasts a modern and sleek design that enhances the overall aesthetics of your solar energy system. The clean lines and smooth finish of the aluminum profile add a professional touch to the installation, giving your project a polished look.

Overall, the Solar Photovoltaic Panels Frame Alu Profile is a reliable and customizable solution for mounting solar panels in photovoltaic systems. With its lightweight and durable construction, this aluminum profile offers both practicality and aesthetic appeal. Whether you are looking for a versatile mounting system for your solar energy project or need a tailored solution for a specific application, this product is designed to meet your needs.

### Features:

Product Name: Solar Photovoltaic Panels Frame Alu Profile

Surface Treatment: Anodized

Material: Aluminum

Application: Solar Energy System

Length: Customized

Oem/Odm: Available

### Technical Parameters:

Usage	Solar Panel Frame
Surface Treatment	Anodized
Application	Solar Energy System
Feature	Lightweight And Durable
Thickness	Customized
Width	Customized
Shape	Customized
Color	Black
Length	Customized
Oem/Odm	Available

### Applications:

The Solar Photovoltaic Panels Frame Alu Profile by Golden Chain is a versatile product suitable for a wide range of applications related to solar energy. Made from lightweight and durable aluminum material, this product is designed to provide support and stability to solar panels in various environments.

With its sleek black color and customizable length, the Golden Chain solar panel frame is not only functional but also aesthetically pleasing. The Aluminium Photovoltaic Mounting System is perfect for both residential and commercial solar panel installations, offering a secure and efficient solution for harnessing solar power.

Whether you are setting up a solar array on a rooftop, a ground-mounted solar system, or a solar carport, this product can be tailored to meet your specific needs. The power coating on the aluminum frame ensures long-lasting protection against corrosion and harsh weather conditions, making it ideal for outdoor use.

Originating from Guangdong, China, the Golden Chain Solar Photovoltaic Panels Frame Alu Profile is a reliable choice for anyone looking to maximize the efficiency and longevity of their solar panels. Its high-quality construction and versatile design make it a valuable asset for both individuals and businesses seeking to harness the power of solar energy.

### **Customization:**

Product Customization Services for the Aluminium Photovoltaic Mounting System:

- Brand Name: Golden Chain
- Place of Origin: Guangdong, China
- Feature: Lightweight And Durable
- Usage: Solar Panel Frame
- Color: Black
- Material: Aluminum
- Length: Customized

### **Packing and Shipping:**

Product Packaging:

The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery. Each profile is wrapped in protective material and placed in a sturdy cardboard box with ample cushioning to prevent any damage during transit.

Shipping:

Ocean, Air, Express

**Golden Chain Products Industrial Co., Ltd.**
