

Solar Energy System Customized With Solar Photovoltaic Panels Frame Alu Profile OEM ODM

Our Product Introduction

for more products please visit us on alu-heatsink.com

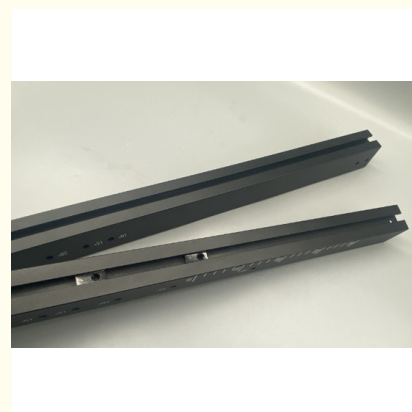

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T,

Product Specification

- Feature: Lightweight And Durable
- Surface Treatment: Anodized. Power Coating
- Material: Aluminum
- Width: Customized
- Color: Black
- Length: Customized
- Usage: Solar Panel Frame
- Oem/Odm: Available
- Highlight: **Solar Photovoltaic Panels Frame Alu Profile, Customized Length Solar Panel Aluminium Profile**

Product Description

Product Description:

The Solar Photovoltaic Panels Frame Alu Profile is a high-quality aluminum profile designed specifically for use in solar panel frames. This product offers a perfect combination of lightweight construction and exceptional durability, making it an ideal choice for various solar panel installations.

Featuring a sleek design, the aluminum profile is carefully crafted to provide maximum support and stability to solar panels. Its lightweight nature ensures easy handling during installation, while its durability guarantees long-lasting performance even in challenging weather conditions.

The surface treatment of the aluminum profile includes anodized and power coating finishes, giving it a sleek and professional look. These treatments not only enhance the aesthetic appeal of the profile but also provide protection against corrosion, ensuring a longer lifespan for the product.

Designed specifically for use in solar panel frames, the Aluminium Photovoltaic Mounting System offers a secure and reliable solution for mounting solar panels. Its precise engineering and high-quality materials make it a dependable choice for both residential and commercial solar installations.

Whether you are looking to install solar panels on a residential rooftop or a large-scale solar farm, the Solar Photovoltaic Panels Frame Alu Profile is a versatile option that can be customized to meet your specific requirements. The thickness of the profile can be customized to ensure optimal support and compatibility with your solar panel system.

In addition to its standard features, this aluminum profile also offers OEM/ODM services, allowing you to customize the design, dimensions, and finishes to suit your unique project needs. This flexibility makes it an excellent choice for solar panel manufacturers, installers, and project developers looking for a tailored solution.

With its lightweight and durable construction, surface treatments, specialized usage for solar panel frames, availability of OEM/ODM services, and customizable thickness, the Solar Photovoltaic Panels Frame Alu Profile is a top-quality product that meets the demands of the solar industry. Invest in this aluminum profile to ensure the stability and longevity of your solar panel installations.

Features:

Product Name: Solar Photovoltaic Panels Frame Alu Profile

Length: Customized

Width: Customized

Thickness: Customized

Usage: Solar Panel Frame

Feature: Lightweight And Durable

Technical Parameters:

Width	Customized
Shape	Customized
Color	Black
Length	Customized
Thickness	Customized
Oem/Odm	Available
Feature	Lightweight And Durable
Usage	Solar Panel Frame
Application	Solar Energy System
Material	Aluminum

Applications:

The Solar Photovoltaic Panels Frame Alu Profile by Golden Chain is a high-quality product originating from Guangdong, China. With a minimum order quantity of 300 kilograms, this aluminum profile comes packaged with a protective film for added safety during transportation. The delivery time for this product is estimated at 15-30 days, with payment terms accepting L/C and T/T.

The frame's shape can be customized to fit the specific requirements of the solar energy system. Its sleek black color adds a modern touch, suitable for various installation settings. The length of the profile is also customizable to ensure a perfect fit for your solar panel frame.

Designed for the solar energy industry, this aluminum profile is ideal for constructing durable and reliable solar panel frames. Its versatility allows for easy customization, making it suitable for a wide range of applications in the solar energy system.

Whether for residential, commercial, or industrial projects, the Golden Chain Solar Photovoltaic Panels Frame Alu Profile is a versatile solution. Its power coating ensures enhanced durability and resistance to weather elements, making it a long-lasting choice for your solar panel frame needs.

Customization:

Product Customization Services for the Solar Photovoltaic Panels Frame Alu. Profile: -----
Brand Name: Golden Chain
Place of Origin: Guangdong, China
Minimum Order Quantity: 300 Kilogram
Packaging Details: Protect film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
Feature: Lightweight And Durable
Length: Customized
OEM/ODM: Available
Color: Black
Thickness: Customized

Packing and Shipping:

Product Packaging:
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery. Each profile is wrapped in protective material and placed in a sturdy cardboard box with ample cushioning to prevent any damage during transit.
Shipping:
Ocean, Air, Express
