

Black Powder Coated Solar Panel Aluminium Profile

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

Product Specification

- Color: Black
- Surface Treatment: Anodized Power Coating
- Shape: Customized
- Material: Aluminum
- Width: Customized
- Usage: Solar Panel Frame
- Thickness: Customized
- Application: Solar Energy System
- Highlight: **Powder Coated Solar Panel Aluminium Profile, Aluminum Profile For Solar Panel**

Product Description

Product Description:

The Solar Photovoltaic Panels Frame Alu Profile is specifically designed for use in Solar Energy Systems. It is a versatile product that is suitable for both residential and commercial applications. With the option for OEM/OEM customization, this aluminum profile can be tailored to meet the specific requirements of different projects.

The material used in the production of this frame is high-quality aluminum, which ensures durability and longevity. The aluminum construction also makes the frame lightweight, yet strong enough to support photovoltaic panels effectively. This ensures a reliable and long-lasting support structure for the solar panels.

One of the key features of this Alu profile is its customized shape and width options. The flexibility in shape and width allows for seamless integration with different types and sizes of photovoltaic panels. This customization ensures a perfect fit for the solar panels, maximizing the efficiency of the solar energy system.

Additionally, the Alu profile is finished with a power coating, which provides an extra layer of protection against environmental elements and corrosion. The power coating not only enhances the appearance of the frame but also contributes to its overall durability and resistance to wear and tear.

With the focus on photovoltaic applications, this frame is designed to support and secure solar panels effectively. The customized shape and width options ensure a precise fit for the panels, maximizing their exposure to sunlight and optimizing energy production.

Overall, the Solar Photovoltaic Panels Frame Alu Profile is a reliable and durable solution for solar energy systems. Its aluminum construction, customized shape, width options, and power coating finish make it a versatile and high-performing choice for both residential and commercial solar projects.

Features:

Product Name: Solar Photovoltaic Panels Frame Alu Profile

Color: Black

Surface Treatment: Anodized Power Coating

Oem/Odm: Available

Length: Customized

Material: Aluminum

Technical Parameters:

Material	Aluminum
Color	Black
Surface Treatment	Anodized, Power Coating
Usage	Solar Panel Frame
Thickness	Customized
Oem/Odm	Available
Application	Solar Energy System
Length	Customized
Feature	Lightweight And Durable
Width	Customized

Applications:

Product Application Occasions and Scenarios for the Solar Photovoltaic Panels Frame Alu Profile by Golden Chain: -----

Brand Name: Golden Chain

Place of Origin: Guangdong, China

Minimum Order Quantity: 300 Kilogram

Packaging Details: Protect film

Delivery Time: 15-30 days

Payment Terms: L/C, T/T

Width: Customized

Oem/Odm: Available

Color: Black

Material: Aluminum

Surface Treatment: Anodized, Power Coating

The Solar Photovoltaic Panels Frame Alu Profile by Golden Chain is designed for various applications in the renewable energy sector.

With its durable aluminum material and power coating surface treatment, this product is ideal for supporting and framing photovoltaic panels.

These profiles can be customized to fit different widths and are suitable for both residential and commercial solar panel installations. The black color adds a sleek and modern look to the solar panel arrays, making them visually appealing.

Whether it's a rooftop solar installation, a solar farm, or a solar canopy, the Solar Photovoltaic Panels Frame Alu Profile by Golden Chain

provides a sturdy and reliable structure to securely hold the photovoltaic panels in place. The anodized and power coating surface treatment ensures long-lasting protection against environmental elements, making it suitable for outdoor use. With a minimum order quantity of 300 kilograms, these profiles can be ordered in bulk for large-scale solar projects. The packaging details include a protective film to prevent any damage during transportation. Choose Golden Chain for your solar photovoltaic panel framing needs and enjoy the benefits of high-quality aluminum profiles with power coating surface treatment, customized width options, and reliable Oem/Odm services.

Customization:

Product Customization Services for the Solar Photovoltaic Panels Frame Alu Profile: -----
Brand Name: Golden Chain
Place of Origin: Guangdong, China
Minimum Order Quantity: 300 Kilogram
Packaging Details: protect film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
Shape: Customized
Color: Black
Usage: Solar Panel Frame
Length: Customized
Oem/Odm: Available

Packing and Shipping:

Product Packaging: -----
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery. Each profile is wrapped in protective material and placed in a sturdy cardboard box with ample cushioning to prevent any damage during transit.
Shipping:
Ocean, Air, Express
