

## Solar Installations Black Solar Photovoltaic Panels Frame Alu Profile Customized Thickness

### Our Product Introduction

for more products please visit us on [alu-heatsink.com](http://alu-heatsink.com)

#### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

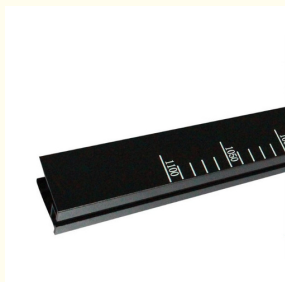

#### Product Specification

- Surface Treatment: Anodized. Power Coating
- Material: Aluminum
- Oem/Odm: Available
- Width: Customized
- Length: Customized
- Color: Black
- Application: Solar Energy System
- Feature: Lightweight And Durable
- Highlight: **Alu Profile Solar Photovoltaic Panels Frame, Customized Thickness Solar Photovoltaic Panels Frame, Black Solar Photovoltaic Panels Frame**

## Product Description

### Product Description:

The Solar Photovoltaic Panels Frame Alu Profile is a high-quality product designed for use in solar energy systems. This aluminum profile is specifically crafted for mounting solar photovoltaic panels, providing a durable and reliable structure to support the panels and maximize energy production.

With a customized length, thickness, and width, the Solar Photovoltaic Panels Frame Alu Profile can be tailored to fit specific project requirements, ensuring a perfect fit for your solar energy system. The black color of the profile adds a sleek and modern aesthetic to the installation, blending seamlessly with the solar panels for a professional finish.

Constructed from premium aluminum material, this Aluminium Photovoltaic Mounting System offers exceptional strength and corrosion resistance, making it ideal for outdoor use in various environmental conditions. The profile is engineered to withstand the elements and provide long-lasting support for the solar panels, ensuring a reliable and efficient solar energy system.

The customization options for the length, thickness, and width of the Aluminum Profile allow for flexibility in design and installation, accommodating a range of solar panel configurations and project requirements. Whether you are installing solar panels on a residential rooftop or a large-scale solar farm, the Solar Photovoltaic Panels Frame Alu Profile can be customized to meet your specific needs.

By choosing the Solar Photovoltaic Panels Frame Alu Profile for your solar energy system, you can benefit from a durable, high-performance mounting solution that is designed to optimize the efficiency and output of your solar panels. The profile provides a secure foundation for the panels, ensuring stability and longevity for your solar energy system.

In conclusion, the Solar Photovoltaic Panels Frame Alu Profile is a versatile and reliable product that offers customizable options to suit your solar energy system requirements. With its high-quality aluminum construction, black color finish, and tailored dimensions, this Aluminium Photovoltaic Mounting System provides a robust and efficient solution for mounting solar photovoltaic panels.

### Features:

Product Name: Solar Photovoltaic Panels Frame Alu Profile

Surface Treatment: Anodized, Power Coating

Color: Black

Feature: Lightweight And Durable

Oem/Odm: Available

Thickness: Customized

### Technical Parameters:

Length	Customized
Surface Treatment	Anodized, Power Coating
Application	Solar Energy System
Usage	Solar Panel Frame
Material	Aluminum
Shape	Customized
Color	Black
Feature	Lightweight And Durable
Oem/Odm	Available
Width	Customized

### Applications:

#### Product Application Occasions and Scenarios for Golden Chain Solar Photovoltaic Panels Frame Alu Profile:

The Golden Chain Solar Photovoltaic Panels Frame Alu Profile is a versatile and reliable product designed for various applications in the renewable energy sector. With its durable aluminum construction and customizable shape, this product is ideal for use in photovoltaic installations, particularly for mounting solar panels.

Whether you are setting up a solar farm, residential solar panels, or commercial solar arrays, the Golden Chain Solar Photovoltaic Panels Frame Alu Profile is the perfect solution. The power coating surface treatment not only enhances the aesthetics but also provides protection against corrosion, making it suitable for outdoor use in different weather conditions.

Manufactured in Guangdong, China, this product reflects superior quality and craftsmanship. The minimum order quantity of 300 kilograms ensures that you can meet your project requirements efficiently. The packaging details include a protective film to prevent any damage during transportation.

With a delivery time of 15-30 days, you can rely on timely shipment of the product to your location. The payment terms of L/C and T/T offer flexibility and convenience for your transactions. The availability of OEM/ODM services allows you to customize the product according to your specific needs.

Overall, the Golden Chain Solar Photovoltaic Panels Frame Alu Profile is an essential component for any photovoltaic system, providing sturdy support and stability for your solar panels. Its anodized surface treatment and aluminum material ensure longevity and durability, making it a reliable choice for your renewable energy projects.

Customization:

Product Customization.Services for.Aluminium.Photovoltaic.Mounting.System .....  
Brand Name: Golden Chain  
Place of Origin: Guangdong, China  
Minimum Order Quantity: 300 Kilogram  
Packaging Details: Protect film  
Delivery Time: 15-30 days  
Payment Terms: L/C, T/T  
Application: Solar Energy System  
Oem/Odm: Available  
Thickness: Customized  
Feature: Lightweight And Durable  
Color: Black  
Aluminum Profile  
Power coating

Packing and Shipping:

Product Packaging: .....  
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery. Each profile is wrapped in protective material and placed in a sturdy cardboard box with ample cushioning to prevent any damage during transit.  
Shipping:  
Ocean, Air, Express
