

## Customized Alu Profile With Power Coating Durable Solution For Industrial

### Our Product Introduction

for more products please visit us on [alu-heatsink.com](http://alu-heatsink.com)

#### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

#### Product Specification

- Feature: Lightweight And Durable
- Usage: Solar Panel Frame
- Material: Aluminum
- Length: Customized
- Oem/Odm: Available
- Surface Treatment: Anodized. Power Coating
- Application: Solar Energy System
- Shape: Customized
- Highlight: Industrial Alu Profile, Power Coating Alu Profile, Solar Panel Aluminum Profile

## Product Description

### Product Description:

The Solar Photovoltaic Panels Frame Alu Profile is a high-quality aluminum profile specifically designed for use in solar energy systems. This product is lightweight and durable, making it an excellent choice for mounting solar photovoltaic panels. The aluminum profile is available in customized lengths, widths, and thicknesses to suit various installation requirements. This flexibility allows for easy customization and ensures a perfect fit for your solar energy system.

Constructed from premium aluminum material, this Aluminium Photovoltaic Mounting System offers exceptional strength and resistance to corrosion, ensuring long-lasting performance in outdoor environments. The lightweight nature of the profile makes it easy to handle and install, reducing labor costs and installation time.

Whether you are setting up a residential solar energy system or a large-scale commercial project, the Solar Photovoltaic Panels Frame Alu Profile provides a reliable and efficient solution for mounting solar panels. Its versatility and durability make it suitable for various applications in the solar energy industry.

With a focus on quality and performance, this aluminum profile is designed to withstand harsh weather conditions and provide a secure foundation for your solar panels. The customized lengths, widths, and thicknesses allow for precise installation and optimal positioning of the solar photovoltaic panels to maximize energy production.

By selecting the Solar Photovoltaic Panels Frame Alu Profile, you can be confident in the reliability and longevity of your solar energy system. The high-quality aluminum material ensures a strong and stable mounting structure, while the lightweight design simplifies the installation process.

Investing in a durable and efficient mounting system is essential for the success of your solar energy project. The Solar Photovoltaic Panels Frame Alu Profile offers the ideal combination of lightweight construction and robust performance, making it a cost-effective solution for both residential and commercial solar installations.

Enhance the performance and longevity of your solar energy system with the Solar Photovoltaic Panels Frame Alu Profile. Its customized dimensions and durable aluminum construction provide a reliable solution for mounting solar panels in various applications. Trust in the quality and versatility of this aluminum profile to support your solar energy goals.

### Features:

Product Name: Solar Photovoltaic Panels Frame Alu Profile

Application: Solar Energy System

Shape: Customized

Oem/Odm: Available

Width: Customized

Usage: Solar Panel Frame

### Technical Parameters:

Surface Treatment	Anodized, Power Coating
Width	Customized
Oem/Odm	Available
Usage	Solar Panel Frame
Material	Aluminum
Feature	Lightweight And Durable
Shape	Customized
Application	Solar Energy System
Color	Black
Length	Customized

### Applications:

The Golden Chain Solar Photovoltaic Panels Frame Aluminum Profile is a versatile and essential component designed for various solar energy system applications. With its high-quality aluminum material and customizable shape, this product is ideal for constructing durable and efficient solar photovoltaic panels.

Manufactured in Guangdong, China, the Golden Chain Aluminum Profile ensures reliability and performance in solar energy installations. Its sleek black color adds a modern touch to the panels while providing necessary support and protection.

Whether used in residential, commercial, or industrial settings, this Aluminum Profile is a crucial element in enhancing the efficiency and longevity of solar photovoltaic systems. The minimum order quantity of 300 kilograms makes it suitable for both small-scale and large-scale projects.

Each profile is carefully packaged with protective film to prevent any damage during transportation and delivery. With a delivery time of 15-30 days, customers can expect timely arrival of their orders to meet project deadlines.

Customers can make payments conveniently through L/C or T/T, ensuring a smooth and secure transaction process. The customizable thickness of the Aluminum Profile allows for tailored solutions to meet specific project requirements.

Customization:

Product Customization Services for the Solar Photovoltaic Panels Frame Alu Profile: -----  
Brand Name: Golden Chain  
Place of Origin: Guangdong, China  
Minimum Order Quantity: 300 Kilogram  
Packaging Details: Protect film  
Delivery Time: 15-30 days  
Payment Terms: L/C, T/T  
Shape: Customized  
OEM/ODM: Available  
Usage: Solar Panel Frame  
Surface Treatment: Anodized, Power Coating  
Feature: Lightweight And Durable  
Keywords: solar, Aluminium Photovoltaic Mounting System

Packing and Shipping:

Product Packaging: -----  
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.  
Shipping:  
Ocean, Air, Express
