

Customized Extruded Solar Panel Aluminum Profile And 6063 Aluminum Material

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

Product Specification

- Surface Treatment: Anodized, Power Coating
- Thickness: Customized
- Shape: Customized
- Width: Customized
- Oem/Odm: Available
- Feature: Lightweight And Durable
- Material: Aluminum
- Color: Black
- Highlight: Customized Extruded Solar Panel aluminum profile
, 6063 Solar Panel aluminum profile

Product Description

Product Description:

The Solar Photovoltaic Panels Frame Alu Profile is a high-quality product designed for use in solar energy systems. Made from durable aluminum material, this profile offers excellent strength and corrosion resistance, making it ideal for outdoor applications.

The surface treatment of the Aluminum Profile includes both anodized and power coating options, providing added protection against environmental factors such as UV exposure and moisture. This ensures the longevity and performance of the profile in various weather conditions, making it a reliable choice for solar panel installations.

With a customized thickness and width, the Aluminum Profile can be tailored to meet specific project requirements, ensuring a precise fit and optimal performance. This customization option allows for greater flexibility in design and installation, making it suitable for a wide range of solar energy system configurations.

Whether used in residential, commercial, or industrial solar projects, the Solar Photovoltaic Panels Frame Alu Profile offers a versatile solution for mounting solar panels securely and efficiently. Its lightweight yet sturdy construction simplifies installation processes and minimizes structural load, making it a cost-effective choice for solar energy system components.

In addition to its practical benefits, the Aluminum Profile also contributes to the overall aesthetics of solar panel arrays, providing a sleek and modern look that complements the surrounding environment. Its clean lines and smooth finish enhance the visual appeal of solar installations, creating a polished and professional appearance.

Overall, the Solar Photovoltaic Panels Frame Alu Profile is a reliable and durable product that meets the demands of solar energy systems. Its aluminum construction, customized dimensions, and dual surface treatment options make it a versatile and high-performance choice for mounting solar panels with precision and efficiency.

Features:

Product Name: Solar Photovoltaic Panels Frame Alu Profile

Length: Customized

Material: Aluminum

Surface Treatment: Anodized, Power Coating

Feature: Lightweight And Durable

Usage: Solar Panel Frame

Technical Parameters:

Thickness	Customized
Application	Solar Energy System
Surface Treatment	Anodized, Power Coating
Material	Aluminum
Width	Customized
Oem/Odm	Available
Shape	Customized
Feature	Lightweight And Durable
Usage	Solar Panel Frame
Length	Customized

Applications:

The Solar Photovoltaic Panels Frame Alu Profile by Golden Chain is a high-quality product made from aluminum, designed specifically for use in solar energy systems. The product originates from Guangdong, China, and has a minimum order quantity of 300 kilograms.

The packaging details include a protective film to ensure the product reaches you in perfect condition. With a delivery time of 15-30 days, you can rely on timely receipt of your order. Payment terms accepted for this product are L/C and T/T.

With its sleek black color and durable aluminum material, this aluminum profile is ideal for constructing solar panel frames. The length of the profile is customizable to suit your specific project requirements.

Product Application Occasions and Scenarios:

Residential Solar Panel Installations: The aluminum profile is perfect for framing solar panels on rooftops of residential buildings.

Commercial Solar Energy Projects: Large-scale solar energy systems can benefit from the use of these durable profiles to support the panels.

Off-Grid Solar Solutions: In remote areas where access to the grid is limited, these profiles can help set up efficient off-grid solar systems.

Solar Farms: For massive solar farms requiring sturdy support structures, the aluminum profiles provide the necessary strength and durability.

Whether you are setting up a small residential solar system or a large commercial project, the Solar Photovoltaic Panels Frame Alu Profile by Golden Chain is a reliable choice for your solar panel framing needs.

Customization:

Product Customization.Services for.Aluminium.Photovoltaic.Mounting.System
Brand Name: Golden Chain
Place of Origin: Guangdong, China
Minimum Order Quantity: 300 Kilogram
Packaging Details: Protect Film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
OEM/ODM: Available
Shape: Customized
Thickness: Customized
Feature: Lightweight And Durable
Usage: Solar Panel Frame

Packing and Shipping:

Product Packaging:
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery. Each profile is wrapped in protective material and placed in a sturdy cardboard box with ample cushioning to prevent any damage during transit.
Shipping:
Ocean, Air, Express
