

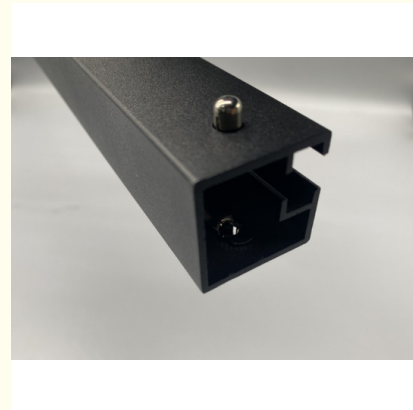

Photovoltaic Panel Frame Alu Profile Customized Thickness

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

Product Specification

- Color: Black
- Material: Aluminum
- Surface Treatment: Anodized. Power Coating
- Length: Customized
- Width: Customized
- Application: Solar Energy System
- Oem/Odm: Available
- Shape: Customized
- Highlight: **Customized Photovoltaic Panel Frame Alu Profile**
, Photovoltaic Panel Frame Alu Profile,
Customized Thickness Solar Panel Aluminium

Product Description

Product Description:

The Solar Photovoltaic Panels Frame Alu Profile is an essential component designed for the efficient installation of solar photovoltaic panels. This versatile frame is specially crafted to support solar panels and ensure their stability and longevity, making it an ideal choice for both residential and commercial solar energy systems.

Constructed from high-quality aluminum, this frame offers exceptional durability and corrosion resistance, ensuring reliable performance in various environmental conditions. The use of aluminum in the construction of this frame enhances its strength-to-weight ratio, making it lightweight yet robust enough to withstand the rigors of outdoor use.

With a customizable width, thickness, and length, the Solar Photovoltaic Panels Frame Alu Profile can be tailored to suit the specific requirements of your solar panel installation. This flexibility allows for seamless integration with different panel sizes and configurations, providing a customized solution for your solar energy needs.

The Aluminium Photovoltaic Mounting System features a sleek and modern design that not only enhances the aesthetics of your solar panel array but also ensures easy installation and maintenance. The frame's streamlined profile allows for efficient mounting and alignment of solar panels, optimizing their exposure to sunlight for maximum energy production.

Whether you are setting up a rooftop solar system or a ground-mounted array, the Solar Photovoltaic Panels Frame Alu Profile offers a reliable and cost-effective solution for securely mounting your solar panels. Its aluminum construction ensures long-lasting performance, minimizing the need for frequent maintenance and replacement, thus providing a sustainable and eco-friendly energy solution.

Designed to meet the demanding requirements of solar panel installations, this frame provides a sturdy and secure foundation for your photovoltaic system. Its customizable dimensions allow for easy adaptation to different panel configurations, ensuring a precise fit and maximizing the efficiency of your solar energy setup.

Investing in the Solar Photovoltaic Panels Frame Alu Profile means investing in the future of renewable energy. By utilizing this high-quality aluminum frame for your solar panel installation, you are not only harnessing the power of the sun to generate clean electricity but also contributing to a more sustainable and environmentally friendly energy landscape.

Experience the benefits of a reliable and durable mounting solution with the Aluminium Photovoltaic Mounting System. Enhance the performance and longevity of your solar panel system with this versatile and customizable frame that is designed to support your renewable energy goals.

Features:

Product Name: Solar Photovoltaic Panels Frame Alu Profile

Material: Aluminum

Color: Black

Thickness: Customized

Shape: Customized

Width: Customized

Features: Solar-powered, Power coating, Aluminium Photovoltaic Mounting System

Technical Parameters:

Material	Aluminum
Shape	Customized
Application	Solar Energy System
Feature	Lightweight And Durable
Thickness	Customized
Color	Black
Width	Customized
Length	Customized
Oem/Odm	Available
Surface Treatment	Anodized, Power Coating

Applications:

The Golden Chain Solar Photovoltaic Panels Frame Alu Profile is a versatile product suitable for a variety of Product Application Occasions and Scenarios. Its lightweight and durable design makes it ideal for use in the solar industry, specifically for mounting solar panels. The frame is specially designed to provide a secure and stable support for solar panels, ensuring maximum efficiency in capturing solar power.

Originating from Guangdong, China, this product is manufactured with high-quality aluminum material that is both lightweight and durable, perfect for outdoor use. The surface treatment of anodized power coating not only enhances the frame's appearance but also provides added protection against corrosion, making it suitable for various weather conditions.

With a minimum order quantity of 300 kilograms, the Solar Photovoltaic Panels Frame Alu Profile is available in black color and can be customized through OEM/ODM services. The packaging details include a protective film to ensure the product arrives in perfect condition.

Whether you are setting up a small residential solar panel system or a large-scale commercial installation, the Golden Chain Solar Photovoltaic Panels Frame Alu Profile is the ideal choice. The delivery time of 15-30 days ensures timely arrival of the product, while the payment terms of L/C and T/T provide flexibility for customers.

Customization:

Product Customization Services for the Aluminium Photovoltaic Mounting System

Brand Name: Golden Chain
Place of Origin: Guangdong, China
Minimum Order Quantity: 300 Kilogram
Packaging Details: protect film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
OEM/ODM: Available
Surface Treatment: Anodized, Power Coating
Application: Solar Energy System
Width: Customized
Length: Customized

Packing and Shipping:

Product Packaging:
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery. Each profile is wrapped in protective material and placed in a sturdy cardboard box with ample cushioning to prevent any damage during transit.
Shipping:
Ocean, Air, Express
