

Customized Length Bracket For Balcony Solar Panels

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

Product Specification

- Color: Black
- Material: Aluminum
- Feature: Lightweight And Durable
- Length: Customized
- Shape: Customized
- Thickness: Customized
- Usage: Solar Panel Frame
- Width: Customized
- Highlight: Customized Length Bracket, Balcony Solar Panels Bracket

Product Description

Product Description:

One of the key features of this product is its lightweight design, which makes it easy to handle and install, reducing the overall weight of the solar energy system. Despite its lightness, the aluminum profile is incredibly durable, offering excellent resistance to corrosion and wear over time.

The Solar Panel Aluminium Profile is specifically designed for use in solar energy systems, providing a reliable and efficient solution for mounting solar panels. Its customized shape allows for flexibility in installation, accommodating different panel sizes and configurations to maximize energy production.

With a customized width option available, this aluminum profile can be tailored to fit specific project requirements, ensuring a perfect fit for the solar panels and enhancing the overall efficiency of the system. Whether for residential, commercial, or industrial applications, the Solar Panel Aluminium Profile offers a versatile solution for various solar energy projects.

When it comes to mounting solar panels, the choice of materials is crucial to ensure the stability and longevity of the system. Aluminum is a popular choice for photovoltaic mounting systems due to its lightweight nature and inherent strength, making it an ideal material for supporting solar panels in different environments.

The Solar Panel Aluminium Profile is engineered to meet the demanding requirements of solar panel installations, offering a reliable and cost-effective solution for securing panels in place. Its durable construction and customized shape make it a preferred choice for solar energy projects seeking high performance and long-term reliability.

Whether you are setting up a residential rooftop solar system or a large-scale solar farm, the Solar Panel Aluminium Profile provides the strength and versatility needed to ensure a successful installation. Its lightweight design simplifies the mounting process, while its aluminum material delivers durability and resistance to environmental factors.

Investing in high-quality components like the Solar Panel Aluminium Profile is essential for optimizing the performance of your solar energy system. By choosing a reliable and durable mounting solution, you can enhance the efficiency and longevity of your solar panels, maximizing the energy output and return on investment.

In conclusion, the Solar Panel Aluminium Profile is a top choice for solar energy projects requiring a lightweight and durable mounting solution. With its aluminum construction, customized shape, and adjustable width options, this profile offers versatility, reliability, and performance for various solar panel installations. Upgrade your solar energy system with the Solar Panel Aluminium Profile today and experience the benefits of a premium mounting solution tailored to your specific needs.

Features:

Product Name: Solar Panel Aluminium Profile

Surface Treatment: Anodized, Power Coating

Oem/Odm: Available

Material: Aluminum

Thickness: Customized

Width: Customized

Technical Parameters:

Width	Customized
Length	Customized
Application	Solar Energy System
Oem/Odm	Available
Shape	Customized
Material	Aluminum
Color	Black
Thickness	Customized
Surface Treatment	Anodized, Power Coating
Feature	Lightweight And Durable

Applications:

The Solar Panel Aluminium Profile by Golden Chain is a versatile product designed for various photovoltaic applications in the solar energy industry. Made in Guangdong, China, this product is known for its high quality and durability.

With a minimum order quantity of 300 kilograms, the Solar Panel Aluminium Profile is suitable for both large-scale commercial projects and smaller residential installations. The packaging details include a protective film to ensure that the product reaches customers in perfect condition.

Customers can expect a delivery time of 15-30 days, making it a convenient option for projects with tight timelines. The payment terms for this product include L/C and T/T, providing flexibility for different purchasing preferences.

Thanks to its black color and customizable shape, the Solar Panel Aluminium Profile seamlessly integrates into various solar energy systems, enhancing both functionality and aesthetics. The product also offers OEM/ODM services, allowing customers to tailor the profiles to their specific requirements.

Equipped with anodized and power coating surface treatments, the Solar Panel Aluminium Profile provides excellent protection against environmental factors, ensuring long-lasting performance in outdoor settings. Whether for rooftop solar panels or ground-mounted systems, this product is a reliable choice for harnessing solar energy efficiently.

Customization:

Product Customization Services for the Solar Panel Aluminium Profile:

- Brand Name: Golden Chain
- Place of Origin: Guangdong, China
- Minimum Order Quantity: 300 Kilograms
- Packaging Details: Protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T
- Feature: Lightweight And Durable
- Material: Aluminum
- Usage: Solar Panel Frame
- Application: Solar Energy System
- Width: Customized

Packing and Shipping:

Product Packaging:

The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.

Shipping:

Ocean, Air, Express
