

## Aluminum Profile For Solar Power Panel With Customized Width

### Our Product Introduction

for more products please visit us on [alu-heatsink.com](http://alu-heatsink.com)

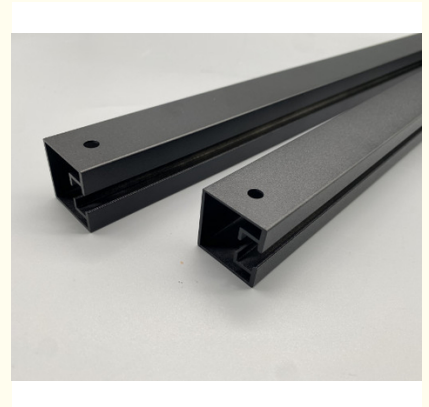

#### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

#### Product Specification

- Width: Customized
- Length: Customized
- Application: Solar Energy System
- Feature: Lightweight And Durable
- Surface Treatment: Anodized. Power Coating
- Color: Black
- Thickness: Customized
- Material: Aluminum
- Highlight: **Aluminum Profile For Solar Power Panel, Customized Width Solar Panel Aluminium Profile**

## Product Description

### Product Description:

The Solar Panel Aluminium Profile is a high-quality product designed for the efficient installation of photovoltaic solar panels. Its lightweight and durable construction make it an ideal choice for various solar energy systems.

Constructed from premium aluminum material, this profile is not only lightweight but also offers exceptional durability to ensure long-term performance. The black color of the profile adds a sleek and modern look to the solar panel installation.

The width of the Solar Panel Aluminium Profile can be customized to meet the specific requirements of different solar panel setups. This customization option allows for a perfect fit and seamless integration with the solar energy system.

With its versatile application in solar energy systems, this aluminium profile is suitable for both residential and commercial projects.

Whether it's a rooftop solar panel installation or a ground-mounted system, this profile provides the necessary support and stability.

The length of the Solar Panel Aluminium Profile is also customizable, enabling flexibility in design and layout. This customization feature ensures that the profile can accommodate different sizes and configurations of solar panels, optimizing the overall efficiency of the system.

Featuring a power coating finish, this aluminium profile offers enhanced protection against environmental factors such as corrosion and UV exposure. The power coating not only adds to the aesthetics of the profile but also contributes to its longevity and performance in various weather conditions.

In summary, the Solar Panel Aluminium Profile is a versatile and reliable solution for the installation of photovoltaic solar panels in solar energy systems. Its lightweight and durable construction, black color, customizable width and length, and power coating finish make it an excellent choice for both residential and commercial solar projects.

### Features:

Product Name: Solar Panel Aluminium Profile

Usage: Aluminium Photovoltaic Mounting System

Shape: Customized

Application: Solar Energy System

Color: Black

Surface Treatment: Anodized, Powder Coating

### Technical Parameters:

Usage	Solar Panel Frame
Oem/Odm	Available
Application	Solar Energy System
Width	Customized
Length	Customized
Color	Black
Shape	Customized
Feature	Lightweight And Durable
Surface Treatment	Anodized, Power Coating
Thickness	Customized

### Applications:

Product Application Occasions and Scenarios for Golden Chain Solar Panel Aluminium Profile:

Golden Chain Solar Panel Aluminium Profile is a versatile product suitable for a wide range of applications in the solar energy system industry. With its high-quality aluminum material and customized shape, this product provides a reliable and durable solution for various solar energy projects.

Whether you are working on residential, commercial, or industrial solar panel installations, Golden Chain Solar Panel Aluminium Profile is an ideal choice. Its lightweight design makes it easy to handle and install, while its durability ensures long-term performance in outdoor environments.

Thanks to its surface treatment options such as anodized and power coating, this product offers enhanced protection against corrosion and weathering, making it suitable for use in diverse weather conditions.

Whether you are setting up solar panels on rooftops, ground mounts, or solar farms, Golden Chain Solar Panel Aluminium Profile provides a secure and stable framework for solar panels, helping maximize energy production efficiency.

With a minimum order quantity of 300 kilograms and packaging details including protective film, ordering and receiving Golden Chain Solar Panel Aluminium Profile is convenient and hassle-free. The product's origin in Guangdong, China, ensures high quality and reliable performance, while the delivery time of 15-30 days and flexible payment terms of L/C and T/T make it a convenient choice for solar energy system projects.

**Customization:**

Product Customization.Services for.Solar.Panel Aluminium Profile: .....  
Brand Name: Golden Chain  
Place of Origin: Guangdong, China  
Minimum Order Quantity: 300 Kilogram  
Packaging Details: Protect film  
Delivery Time: 15-30 days  
Payment Terms: L/C, T/T  
Feature: Lightweight and Durable  
Surface Treatment: Anodized, Power Coating  
Width: Customized  
OEM/ODM: Available  
Application: Solar Energy System

**Packing and Shipping:**

Product Packaging: .....  
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.  
Shipping:  
Ocean, Air, Express
