

Customized Thickness Solar Panel Aluminium Profile For OEM / ODM Collaboration

Our Product Introduction

for more products please visit us on alu-heatsink.com

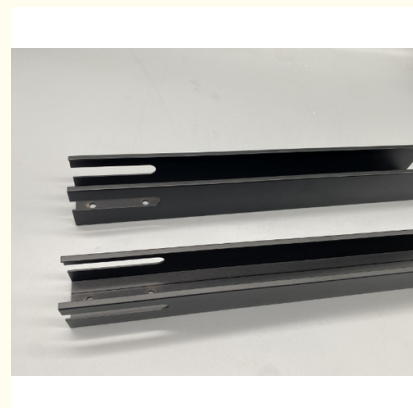

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

Product Specification

- Surface Treatment: Anodized, Power Coating
- Feature: Lightweight And Durable
- Thickness: Customized
- Usage: Solar Panel Frame
- Material: Aluminum
- Oem/Odm: Available
- Length: Customized
- Width: Customized
- Highlight: **Customized Thickness Solar Panel Aluminium Profile**
, Black Solar Panel Aluminium Profile

Product Description

Product Description:

The Solar Panel Aluminium Profile features a customizable width, allowing you to tailor the size according to your specific project requirements. Whether you are setting up a residential rooftop solar system or a large-scale commercial solar farm, this product can be adjusted to fit seamlessly into your design.

To ensure longevity and resistance to environmental elements, the surface of the aluminium profile is treated with both anodized and power coating finishes. This dual treatment provides enhanced protection against corrosion, UV rays, and harsh weather conditions, making it ideal for outdoor solar applications.

One of the key advantages of our Solar Panel Aluminium Profile is its lightweight yet durable construction. The aluminum material offers a perfect balance between strength and weight, making it easy to handle during installation while ensuring long-term structural integrity for your solar panels.

In addition to its customizable width, the Solar Panel Aluminium Profile also offers flexibility in terms of length. You can tailor the length of the profile to suit the dimensions of your solar panel array, allowing for a precise and secure mounting solution for your photovoltaic system.

Designed to be compatible with various photovoltaic modules, the Aluminium Photovoltaic Mounting System provides a reliable and efficient solution for securing solar panels in place. Its sturdy construction and versatile design make it suitable for a wide range of solar installations, from residential rooftops to commercial solar projects.

Whether you are looking to harness solar energy for your home or business, our Solar Panel Aluminium Profile offers the perfect combination of quality, performance, and durability. With its customized width and length options, as well as its anodized and power coating surface treatment, this product is built to withstand the rigors of solar panel installations and deliver reliable energy production for years to come.

Invest in our Solar Panel Aluminium Profile today and take a step towards a more sustainable future powered by solar energy.

Experience the benefits of a high-performance photovoltaic mounting system that is designed to last and maximize the efficiency of your solar power generation.

Features:

Product Name: Solar Panel Aluminium Profile

Oem/Odm: Available

Width: Customized

Usage: Aluminium Photovoltaic Mounting System

Feature: Lightweight And Durable

Surface Treatment: Anodized, Power Coating

Technical Parameters:

Thickness	Customized
Oem/Odm	Available
Usage	Solar Panel Frame
Surface Treatment	Anodized, Power Coating
Color	Black
Application	Solar Energy System
Width	Customized
Length	Customized
Feature	Lightweight And Durable
Shape	Customized

Applications:

The Golden Chain Solar Panel Aluminium Profile is a versatile product suitable for a wide range of applications in the solar industry. With its high-quality aluminum material and durable construction, this product is designed to be used specifically for solar panel frames, making it an essential component for any solar installation project.

Whether you are working on a residential rooftop solar system or a large-scale solar farm, the Golden Chain Aluminium Profile is ideal for creating sturdy and reliable frames to support solar panels. Its lightweight design makes it easy to handle and install, while its black color adds a sleek and professional look to the overall solar array.

Manufactured in Guangdong, China, this product meets high-quality standards and is available for order in quantities starting from 300 kilograms. The packaging details include a protective film to ensure that the profiles arrive in perfect condition, ready for installation.

With a customizable length feature, the Golden Chain Aluminium Profile can be tailored to fit specific project requirements, providing flexibility and convenience for solar panel installations of any size. The delivery time for this product is estimated to be between 15-30 days, ensuring timely arrival for your solar project needs.

Accepted payment terms for the Golden Chain Solar Panel Aluminium Profile include L/C and T/T, offering convenience and flexibility for transactions. Whether you are a solar panel manufacturer, installer, or distributor, this product is a reliable choice for creating robust and

efficient solar panel frames.

Customization:

Product Customization Services for the Solar Panel Aluminium Profile
Brand Name: Golden Chain
Place of Origin: Guangdong, China
Minimum Order Quantity: 300 Kilogram
Packaging Details: Protect film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
Surface Treatment: Anodized, Power Coating
OEM/ODM: Available
Material: Aluminum
Length: Customized
Width: Customized
Keywords: Aluminum Profile, Photovoltaic, Aluminium Photovoltaic Mounting System

Packing and Shipping:

Product Packaging:
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.
Shipping:
Ocean, Air, Express
