

## Black Power Coating For Solar Panel Frame Superior Performance And Durability

### Our Product Introduction

for more products please visit us on [alu-heatsink.com](http://alu-heatsink.com)

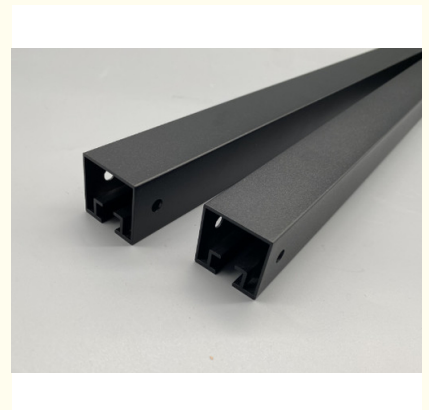

#### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

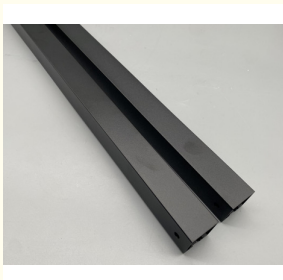

#### Product Specification

- Feature: Lightweight And Durable
- Thickness: Customized
- Length: Customized
- Usage: Solar Panel Frame
- Application: Solar Energy System
- Material: Aluminum
- Shape: Customized
- Color: Black
- Highlight: **Superior Performance Solar Panel Frame , Black Solar Panel Frame**

## Product Description

### Product Description:

The Solar Panel Aluminium Profile is an essential component for the installation of solar panels, providing a sturdy and reliable framework for your solar energy system. This product is designed to support the solar panels securely and efficiently, ensuring optimal performance and longevity of your solar energy setup.

Color: Black

Length: Customized

Surface Treatment: Anodized, Power Coating

Material: Aluminum

OEM/ODM: Available

The Solar Panel Aluminium Profile features a sleek and modern black color, adding a touch of sophistication to your solar panel installation. The black color not only enhances the aesthetics of your solar energy system but also helps in better heat absorption, improving the overall efficiency of the panels.

With customized length options available, this Aluminium Photovoltaic Mounting System can be tailored to fit the specific requirements of your solar panel setup. Whether you need a standard size or a unique length, the flexibility in customization ensures a perfect fit for your project.

The surface treatment of the Aluminium Photovoltaic Mounting System includes both anodized and power coating finishes. The anodized finish provides enhanced durability and corrosion resistance, protecting the aluminium profile from environmental factors and ensuring a long lifespan. On the other hand, the power coating finish adds an extra layer of protection and aesthetic appeal to the profile, making it an ideal choice for outdoor installation.

Constructed from high-quality aluminum material, the Solar Panel Aluminium Profile offers excellent strength and structural integrity to support the weight of the solar panels. Aluminum is known for its lightweight yet durable properties, making it the perfect material for solar panel mounting systems. The corrosion-resistant nature of aluminum also ensures that the profile can withstand harsh weather conditions and maintain its functionality over time.

For those looking for customization options, the OEM/ODM services available for the Aluminium Photovoltaic Mounting System allow you to personalize the design and specifications according to your unique requirements. Whether you have specific dimensions in mind or require additional features, the OEM/ODM capabilities ensure that the product meets your exact needs.

In conclusion, the Solar Panel Aluminium Profile is a reliable and versatile solution for mounting solar panels with efficiency and precision. With its black color, customized length options, anodized and power coating surface treatments, aluminum material, and OEM/ODM availability, this product offers the perfect combination of durability, functionality, and customization for your solar energy system.

### Features:

Product Name: Solar Panel Aluminium Profile

Surface Treatment: Anodized, Power Coating

Material: Aluminum

Feature: Lightweight And Durable

Thickness: Customized

Shape: Customized

### Technical Parameters:

Material	Aluminum
Color	Black
Surface Treatment	Anodized, Power Coating
Application	Solar Energy System
Length	Customized
Shape	Customized
Oem/Odm	Available
Feature	Lightweight And Durable
Thickness	Customized
Width	Customized

### Applications:

The Solar Panel Aluminium Profile by Golden Chain is a versatile product suitable for various applications in the solar industry. Its lightweight and durable feature makes it an ideal choice for constructing solar panel frames and mounting systems.

With its origin in Guangdong, China, this product is manufactured with high-quality materials to ensure reliability and longevity. The minimum order quantity of 300 kilograms allows for flexibility in project sizes, catering to both small and large-scale solar installations. Packaged with protective film, these aluminium profiles are safeguarded during transportation and handling, arriving in optimal condition. The delivery time of 15-30 days ensures timely availability for project timelines.

The payment terms of L/C and T/T offer convenient options for transactions, making the procurement process efficient. The black color of

the profiles adds a sleek and professional look to solar panel structures. Available for OEM/ODM customization, these profiles can be tailored to meet specific project requirements. The surface treatment options of anodized and power coating enhance the durability and weather resistance of the profiles, ensuring long-term performance in outdoor solar environments. With customized thickness options available, these aluminium profiles offer versatility in design and structural support for solar panels. Whether for rooftop solar installations, solar farms, or other solar applications, the Solar Panel Aluminium Profile by Golden Chain provides a reliable and efficient solution for harnessing solar energy.

**Customization:**

- Product Customization Services for Solar Panel Aluminium Profile: -----
- Brand Name: Golden Chain
  - Place of Origin: Guangdong, China
  - Minimum Order Quantity: 300 Kilogram
  - Packaging Details: Protect film
  - Delivery Time: 15-30 days
  - Payment Terms: L/C, T/T
  - Shape: Customized
  - Surface Treatment: Anodized, Power Coating
  - Width: Customized
  - Color: Black
  - Length: Customized

**Packing and Shipping:**

Product Packaging: -----  
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.  
Shipping:  
Ocean, Air, Express
