

Customized Aluminum Solar Energy System Frame Profile

Our Product Introduction

for more products please visit us on alu-heatsink.com

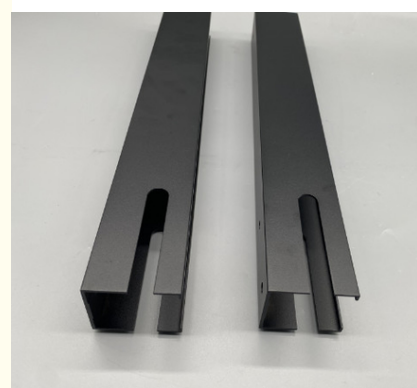

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

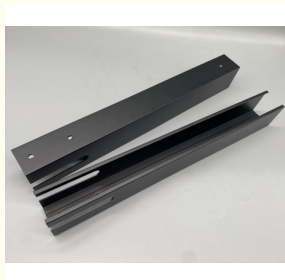

Product Specification

- Application: Solar Energy System
- Shape: Customized
- Surface Treatment: Anodized. Power Coating
- Material: Aluminum
- Oem/Odm: Available
- Usage: Solar Panel Frame
- Thickness: Customized
- Length: Customized
- Highlight: Aluminum Solar Energy System Frame Profile, Customized Solar Energy System Frame Profile, Aluminum Solar Energy System Frame Profile

Product Description

Product Description:

The Solar Panel Aluminium Profile is an essential component for any solar energy system. Made from high-quality aluminum, this profile is designed to provide support and stability for photovoltaic panels. Its lightweight yet durable construction ensures longevity and reliability, making it a cost-effective solution for your solar energy needs.

The black color of the aluminium profile not only adds a sleek and modern touch to your solar setup but also helps in absorbing more sunlight, enhancing the overall efficiency of the system. The customized width option allows you to tailor the profile to fit your specific requirements, ensuring a perfect fit for your solar panels.

Whether you are setting up a residential solar system or a large-scale commercial project, the Solar Panel Aluminium Profile is versatile and easy to install. Its sturdy construction provides ample support to the photovoltaic panels, ensuring they are securely mounted and positioned for maximum sunlight exposure.

With a focus on sustainability and energy efficiency, the Solar Panel Aluminium Profile is an eco-friendly choice for harnessing solar power. By utilizing this profile in your solar energy system, you are not only reducing your carbon footprint but also contributing to a cleaner and greener environment.

Investing in the Solar Panel Aluminium Profile is a smart choice for those looking to optimize their solar energy system. Its high-quality aluminum material ensures excellent heat dissipation, preventing overheating of the photovoltaic panels and maximizing their performance and lifespan.

Designed for easy integration and compatibility with various solar panel configurations, the Solar Panel Aluminium Profile is a versatile solution for both residential and commercial applications. Its black color and sleek design add a touch of elegance to your solar setup while ensuring reliable support and durability.

In conclusion, the Solar Panel Aluminium Profile is an indispensable component for any solar energy system. Its lightweight and durable nature, coupled with the customizable width option, make it a practical choice for both small-scale and large-scale solar projects. Invest in this aluminum profile to enhance the efficiency and performance of your photovoltaic panels and take a step towards a more sustainable future.

Features:

Product Name: Solar-Panel Aluminium Profile

Surface Treatment: Anodized, Power Coating

Application: Solar Energy System, Photovoltaic

Material: Aluminum

Length: Customized

Feature: Lightweight And Durable

Keyword: Power coating, Aluminium Photovoltaic Mounting System

Technical Parameters:

Thickness	Customized
Width	Customized
Oem/Odm	Available
Shape	Customized
Feature	Lightweight And Durable
Material	Aluminum
Surface Treatment	Anodized, Power Coating
Application	Solar Energy System
Usage	Solar Panel Frame
Length	Customized

Applications:

The Golden Chain Solar Panel Aluminium Profile is a versatile product that can be used in various applications related to aluminium photovoltaic mounting systems. With its lightweight and durable features, this aluminium profile is ideal for different scenarios where solar panels need to be securely mounted and positioned for maximum energy efficiency.

Whether it is for residential, commercial, or industrial solar panel installations, the Golden Chain Aluminium Profile offers a customized length and shape to suit different project requirements. The anodized surface treatment provides enhanced durability and corrosion resistance, making it suitable for outdoor use in different weather conditions.

Manufactured in Guangdong, China, this product adheres to high-quality standards and can be ordered in a minimum quantity of 300 kilograms. The packaging details include a protective film to ensure that the profiles are delivered in excellent condition.

Customers can expect a delivery time of 15-30 days, with payment terms available in L/C or T/T options. The power coating on the profile not only enhances its aesthetic appeal but also provides an additional layer of protection against environmental elements.

Installers and project managers can rely on the Golden Chain Solar Panel Aluminium Profile for its versatility, durability, and customizable features. Its ability to support solar panels securely and efficiently makes it a top choice for various solar energy projects.

Customization:

Product Customization Services for the Solar Panel Aluminium Profile:
Brand Name: Golden Chain
Place of Origin: Guangdong, China
Minimum Order Quantity: 300 Kilogram
Packaging Details: protect film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
Oem/Odm: Available
Shape: Customized
Feature: Lightweight And Durable
Width: Customized
Color: Black
Keywords: Aluminium Photovoltaic Mounting System, Power coating, Aluminium Photovoltaic Mounting System

Packing and Shipping:

Product Packaging:
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.
Shipping:
Ocean, Air, Express
