

Aluminum Products Various Sizes Excellent Corrosion Resistance for Customer Requirement

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: China, Guangdong
- Brand Name: No Brand
- Packaging Details: protect film
- Delivery Time: 15-30days
- Payment Terms: L/C, T/T

Product Specification

- Applications: Aluminum Railing For Household
- Shape: Customized
- Material: Aluminum
- Tensile Strength: Strong
- Finish: Coating/Anodized/E-Coat
- Electrical Conductivity: Good
- Color: Customized
- Malleability: High
- Highlight: **Excellent Corrosion Resistance Aluminum Products**
, Various Sizes Aluminum Products,
Strong Tensile Strength Aluminum Products

Product Description

Product Description:

Our Aluminum Products line offers a wide range of options to meet your needs, with various sizes available to suit different applications. Whether you need a small piece for a specific project or a larger quantity for a bigger task, we have you covered.

The customizable color options add a touch of personalization to your aluminum products. Choose a color that matches your style or branding to make your products stand out. Whether you prefer a classic silver finish or a vibrant color, we can accommodate your preferences.

When it comes to heat conductivity, our aluminum products excel with high performance. The superior heat conductivity of aluminum makes it an ideal choice for applications where efficient heat transfer is crucial. Whether you are working on a project that requires heat dissipation or retention, our aluminum products are up to the task.

One of the key applications of our Aluminum Products is in the manufacturing of aluminum railings for households. These railings provide both functionality and aesthetic appeal, enhancing the safety and beauty of residential spaces. Our aluminum railings are durable, easy to maintain, and can withstand various weather conditions, making them a reliable choice for your home.

Moreover, the electrical conductivity of our aluminum products is of high quality. With good electrical conductivity, these products are suitable for a wide range of applications that require efficient electrical conduction. From Mop Rods to Tool Tables, our aluminum products can meet the electrical conductivity demands of various industries and projects.

Whether you are looking for a sturdy Mop Rod for industrial cleaning purposes or a reliable Tool Table for your workshop, our Aluminum Products line has the right solutions for you. The durability and versatility of aluminum make it a popular choice for a wide range of products, ensuring longevity and performance in diverse applications.

In conclusion, our Aluminum Products offer a combination of versatility, durability, and performance to meet your specific requirements.

With customizable options, high heat conductivity, and good electrical conductivity, our products are suitable for various applications ranging from household railings to industrial tools. Choose our Aluminum Products for quality, reliability, and functionality in your projects.

Features:

Product Name: Aluminum Products

Finish: Coating/Anodized/E-Coat

Electrical Conductivity: Good

Corrosion Resistance: Excellent

Size: Various Sizes Available

Malleability: High

Technical Parameters:

Finish	Coating/Anodized/E-Coat
Tensile Strength	Strong
Heat Conductivity	High
Applications	Aluminum Railing For Household
Electrical Conductivity	Good
Material	Aluminum
Size	Various Sizes Available
Corrosion Resistance	Excellent
Durability	High
Weight	Customized

Applications:

Aluminum products are versatile and widely used in various industries due to their exceptional characteristics. With no specific brand attached, these products originate from Guangdong, China, and have a delivery time of 15-30 days. The payment terms accepted for these products include L/C and T/T.

Aluminum products come in various sizes, catering to different needs and requirements. Their high malleability makes them suitable for a wide range of applications. The 100% recyclability of aluminum products makes them an environmentally friendly choice.

One of the key features of aluminum products is the ability to customize the color according to specific preferences or branding requirements. Additionally, these products boast strong tensile strength, ensuring durability and reliability in various applications.

Aluminum products find numerous application occasions and scenarios across different industries. They are commonly used in the manufacturing of Tool Tables, providing a sturdy and lightweight material for construction. The high malleability of aluminum allows for intricate designs and precise engineering in Tool Table production.

Moreover, Aluminum Products are ideal for crafting Tool Table accessories such as Mop Rods. The strength and durability of aluminum make it a perfect material for Mop Rods, ensuring longevity and reliability during cleaning activities.

Whether in industrial settings or household applications, aluminum products offer a wide range of possibilities. Their versatility, strength, and recyclability make them a popular choice for various projects and requirements.

Customization:

- Product Customization Services for the Aluminum Products: -----
- Brand Name: No Brand
 - Place of Origin: China, Guangdong
 - Delivery Time: 15-30 days
 - Payment Terms: L/C, T/T
 - Recyclability: 100%
 - Tensile Strength: Strong
 - Finish: Coating/Anodized/E-Coat
 - Weight: Customized
 - Durability: High

Packing and Shipping:

Product Packaging:
Our Aluminum Products are carefully packaged to ensure they arrive in perfect condition. Each product is wrapped in protective material and placed in a sturdy cardboard box.

Shipping Information:
Shipping:
Ocean, Air, Express
