

Customized Thickness Solar Energy System For Versatile Energy Solutions

Our Product Introduction

for more products please visit us on alu-heatsink.com

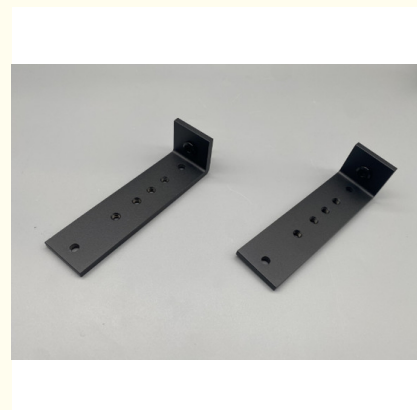

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

Product Specification

- Usage: Solar Panel Frame
- Oem/Odm: Available
- Shape: Customized
- Width: Customized
- Feature: Lightweight And Durable
- Material: Aluminum
- Thickness: Customized
- Color: Black
- Highlight: Versatile Energy Solutions Solar Energy System, Customized Thickness Solar Energy System

Product Description

Product Description:

The Solar Panel Aluminium Profile is a high-quality product designed specifically for solar energy systems. This aluminium profile is essential for creating sturdy and reliable solar panel frames. The product features a sleek black color that not only complements the solar panels but also provides a modern and professional look.

Made from durable aluminum material, this profile ensures long-lasting performance and protection against environmental factors. The use of aluminum also makes the profile lightweight yet strong, making it ideal for supporting solar panels in various weather conditions. The Solar Panel Aluminium Profile is an essential component of the aluminium photovoltaic mounting system. Its design allows for easy installation and secure attachment of solar panels, ensuring optimal performance and stability. The profile is compatible with different types of solar panels and can be customized to meet specific requirements.

One of the key features of this product is its power coating, which provides an extra layer of protection against corrosion, UV rays, and other damaging elements. The power coating not only enhances the durability of the profile but also helps maintain its appearance over time, ensuring a long-lasting and maintenance-free solution for solar panel frames.

Whether you are setting up a residential solar energy system or a large-scale commercial project, the Solar Panel Aluminium Profile is a versatile and reliable choice. Its compatibility with OEM/ODM requirements allows for customization based on individual project needs, ensuring a perfect fit and seamless integration into any solar energy system.

In addition to its functionality, the Solar Panel Aluminium Profile also offers a sleek and professional appearance, enhancing the overall aesthetics of the solar panel installation. The black color adds a modern touch to the system, making it visually appealing and blending seamlessly with the surroundings.

When it comes to solar panel frames, durability and reliability are crucial factors. The Solar Panel Aluminium Profile excels in both aspects, offering a robust and long-lasting solution for securing solar panels in place. Its sturdy construction and high-quality material make it a dependable choice for any solar energy project.

Overall, the Solar Panel Aluminium Profile is an essential component for any solar energy system, providing stability, durability, and versatility for the mounting of solar panels. With its black color, aluminum material, power coating, and OEM/ODM compatibility, this profile offers a premium solution for creating efficient and reliable solar panel frames.

Features:

Product Name: Solar-Panel Aluminium Profile

Application: Aluminium Photovoltaic Mounting System

Length: Customized

Feature: Lightweight And Durable

Usage: Solar Panel Frame

Surface Treatment: Anodized, Power Coating

Technical Parameters:

Usage	Solar Panel Frame
Feature	Lightweight And Durable
Surface Treatment	Anodized, Power Coating
Material	Aluminum
Length	Customized
Application	Solar Energy System
Width	Customized
Thickness	Customized
Color	Black
Oem/Odm	Available

Applications:

The Golden Chain Solar Panel Aluminium Profile is a versatile product designed for various solar energy system applications. With its lightweight and durable aluminum material, this product is ideal for constructing solar panel frames that require strength and stability. Manufactured in Guangdong, China, the Golden Chain Solar Panel Aluminium Profile meets high-quality standards and is suitable for both residential and commercial solar projects. The black color of the profile adds a sleek and modern touch to the solar panel installation. Whether you are setting up a photovoltaic system on a rooftop or a ground-mounted solar array, the Golden Chain Aluminium Profile is a reliable choice. Its minimum order quantity of 300 kilograms ensures that you have an ample supply for your project needs.

The packaging details include a protective film to prevent any damage during transportation, while the delivery time of 15-30 days ensures timely arrival of your order. Flexible payment terms of L/C and T/T make it convenient for you to complete your purchase.

Overall, the Golden Chain Solar Panel Aluminium Profile is a must-have component for anyone working in the solar energy industry. Its versatility, durability, and compatibility with solar panel frames make it a valuable product for enhancing the efficiency and performance of photovoltaic systems.

Customization:

Product Customization Services for the Solar Panel Aluminium Profile:
Brand Name: Golden Chain
Place of Origin: Guangdong, China
Minimum Order Quantity: 300 Kilogram
Packaging Details: Protect Film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
Material: Aluminum
Feature: Lightweight And Durable
Surface Treatment: Anodized, Power Coating
Thickness: Customized
Shape: Customized

Packing and Shipping:

Product Packaging:
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.
Shipping:
Ocean, Air, Express
