

Lightweight And Durable Solar Panel Aluminium Profile For Solar Energy System

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

Product Specification

- Material: Aluminum
- Width: Customized
- Oem/Odm: Available
- Application: Solar Energy System
- Color: Black
- Usage: Solar Panel Frame
- Thickness: Customized
- Feature: Lightweight And Durable
- Highlight: **Anodized Solar Panel Aluminium Profile,
Durable Solar Panel Aluminium Profile,
Lightweight Solar Panel Aluminium Profile**

Product Description

Product Description:

The Solar Panel Aluminium Profile is a crucial component of the Aluminium Photovoltaic Mounting System, designed to support and secure photovoltaic solar panels in various applications. This product is highly versatile, with customizable length and thickness options to suit different project requirements.

Constructed from high-quality aluminum material, this profile offers excellent durability and corrosion resistance, ensuring long-term performance even in challenging environmental conditions. The use of aluminum also makes the profile lightweight yet robust, facilitating easy installation and maintenance.

One of the key advantages of the Solar Panel Aluminium Profile is its OEM/ODM availability, allowing customers to customize the shape, dimensions, and other specifications according to their specific needs. This flexibility ensures compatibility with different solar panel models and mounting setups, making it a versatile solution for various photovoltaic installations.

Whether for residential, commercial, or industrial solar projects, this aluminium profile provides a reliable and efficient mounting solution. Its customizable nature enables seamless integration with different mounting structures, such as ground mounts, roof mounts, and solar tracking systems.

With a focus on both functionality and aesthetics, the Solar Panel Aluminium Profile offers a sleek and modern design that complements the overall look of the solar installation. Its clean lines and durable finish enhance the visual appeal of the setup while maintaining the structural integrity necessary for long-term performance.

When it comes to solar panel mounting, precision and reliability are paramount, and this aluminium profile excels in both aspects. The customizable length and thickness options ensure a perfect fit for the solar panels, minimizing gaps and optimizing the overall efficiency of the photovoltaic system.

Furthermore, the use of aluminum as the primary material provides inherent benefits such as high strength-to-weight ratio, corrosion resistance, and recyclability. These properties contribute to the sustainability and longevity of the solar panel mounting system, aligning with the environmentally-friendly nature of solar energy production.

Whether used in residential rooftop installations, commercial solar farms, or off-grid applications, the Solar Panel Aluminium Profile delivers consistent performance and durability. Its ability to withstand various weather conditions, including high winds and snow loads, makes it a reliable choice for both small-scale and large-scale solar projects.

In conclusion, the Solar Panel Aluminium Profile is a versatile and customizable solution for mounting photovoltaic solar panels in a wide range of applications. With its high-quality aluminum construction, OEM/ODM availability, and tailored shape options, this profile offers both functionality and aesthetic appeal for solar installations of all sizes.

Features:

Product Name: Solar Panel Aluminium Profile
Color: Black
Oem/Odm: Available
Material: Aluminum
Application: Solar Energy System
Usage: Solar Panel Frame

Technical Parameters:

Application	Solar Energy System
Color	Black
Width	Customized
Thickness	Customized
Oem/Odm	Available
Usage	Solar Panel Frame
Feature	Lightweight And Durable
Length	Customized
Surface Treatment	Anodized, Power Coating
Shape	Customized

Applications:

The Golden Chain Solar Panel Aluminium Profile is a versatile product that can be used in a variety of product application occasions and scenarios. Its durable aluminum material and black color make it ideal for solar panel installations in both residential and commercial settings.

One of the key application scenarios for this product is in the field of solar energy. The Solar Panel Aluminium Profile is specifically designed for use in Aluminium Photovoltaic Mounting Systems, providing a sturdy and reliable support structure for solar panels. Whether you are setting up a small solar array on a residential rooftop or a large-scale solar farm, this product is perfect for the job.

Thanks to its customized shape and width, the Solar Panel Aluminium Profile can be tailored to fit the specific requirements of your solar installation project. Its availability for OEM/ODM orders allows for further customization, ensuring that it meets your exact specifications.

Manufactured in Guangdong, China, the Golden Chain Solar Panel Aluminium Profile boasts high quality and precision engineering. The minimum order quantity of 300 kilograms makes it suitable for both small-scale and large-scale solar projects. The product is carefully packaged with protective film to prevent damage during transportation, and it can be delivered within 15-30 days of placing an order. When it comes to payment terms, the Golden Chain Solar Panel Aluminium Profile offers flexibility with options for L/C and T/T. This makes the purchasing process convenient and accessible for customers worldwide.

Customization:

Product Customization Services for Solar Panel Aluminium Profile: -----
Brand Name: Golden Chain
Place of Origin: Guangdong, China
Minimum Order Quantity: 300 Kilograms
Packaging Details: Protect film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
Material: Aluminum
OEM/ODM: Available
Length: Customized
Feature: Lightweight And Durable
Shape: Customized

Packing and Shipping:

Product Packaging: -----
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.
Shipping:
Ocean, Air, Express
