

Black Aluminum Photovoltaic Panel With Power Coating

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

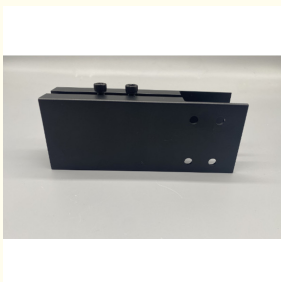

Product Specification

- Length: Customized
- Oem/Odm: Available
- Material: Aluminum
- Feature: Lightweight And Durable
- Application: Solar Energy System
- Thickness: Customized
- Width: Customized
- Color: Black
- Highlight: **Black Aluminum Photovoltaic Panel, Power Coating Photovoltaic Panel**

Product Description

Product Description:

Designed for use in the solar energy industry, the Solar Panel Aluminium Profile is an integral part of the Aluminium Photovoltaic Mounting System. Its customized length and thickness options allow for flexibility in designing and constructing solar panel frames tailored to specific project requirements.

The black powder coating on the aluminium profile not only adds a stylish look but also serves a practical purpose by providing protection against corrosion and environmental elements. This ensures that your solar panel frame remains in top condition for years to come, maximizing the overall efficiency and longevity of your solar energy system.

Whether you are a solar panel installer, contractor, or DIY enthusiast, the Solar Panel Aluminium Profile is an ideal choice for creating robust and reliable solar panel frames. Its versatility and compatibility with various mounting systems make it suitable for both residential and commercial solar installations.

In summary, the Solar Panel Aluminium Profile is a high-quality, black-colored aluminium profile that offers a perfect balance between lightweight construction and durable performance. With customizable length and thickness options, along with a protective powder coating, this product is the ideal choice for building sturdy and long-lasting solar panel frames for your solar energy projects.

Features:

Product Name: Solar-Panel Aluminium Profile

Width: Customized

Usage: Solar Panel Frame

Feature: Lightweight And Durable

Oem/Odm: Available

Color: Black

Technical Parameters:

Material	Aluminum
Usage	Solar Panel Frame
Application	Solar Energy System
Surface Treatment	Anodized, Power Coating
Feature	Lightweight And Durable
Color	Black
Width	Customized
Length	Customized
Thickness	Customized
Oem/Odm	Available

Applications:

The Golden Chain Solar Panel Aluminium Profile is a versatile product suitable for a variety of solar-related applications. Its lightweight and durable aluminum material makes it ideal for use in Solar Panel Frames, providing essential support and structure for solar panels in both residential and commercial settings.

Originating from Guangdong, China, this high-quality product has a Minimum Order Quantity of 300 Kilograms. Each profile is carefully packaged with protective film to ensure safe delivery. With a Delivery Time of 15-30 days, customers can rely on prompt shipment to meet their project timelines. Payment can be made via L/C or T/T, offering flexibility and convenience.

The custom width of the Aluminium Profile allows for tailored solutions to fit specific solar panel sizes and configurations. Its surface treatment, which includes Anodized and Power Coating, enhances durability and resistance to environmental factors, ensuring longevity and performance in various weather conditions.

Whether used in a residential rooftop solar installation or a large-scale solar farm project, the Golden Chain Solar Panel Aluminium Profile provides reliable support for solar panels. Its compatibility with Aluminium Photovoltaic Mounting Systems further expands its application scenarios, offering seamless integration and efficient installation.

For customers seeking a trusted brand and superior product for their solar projects, the Golden Chain Solar Panel Aluminium Profile stands out as a top choice. Its combination of quality material, customizable features, and versatile usage make it an essential component in the solar energy industry.

Customization:

Product Customization Services for the Solar Panel Aluminium Profile:

Brand Name: Golden Chain

Place of Origin: Guangdong, China

Minimum Order Quantity: 300 Kilogram

Packaging Details: Protect film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
Application: Solar Energy System
Thickness: Customized
OEM/ODM: Available
Feature: Lightweight And Durable
Usage: Solar Panel Frame

Packing and Shipping:

Product Packaging: -----
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.
Shipping:
Ocean, Air, Express
