

Durable Powder Coating Solar Panel Aluminium Profile For Customized Solar Energy System

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

Product Specification

- Color: Black
- Thickness: Customized
- Length: Customized
- Application: Solar Energy System
- Surface Treatment: Anodized. Power Coating
- Oem/Odm: Available
- Usage: Solar Panel Frame
- Width: Customized
- Highlight: Powder Coating Solar Panel Aluminium Profile, Customized Solar Panel Aluminium Profile

Product Description

Product Description:

The Solar Panel Aluminium Profile is an essential component for constructing durable and reliable photovoltaic mounting systems. This high-quality product is designed to meet the specific requirements of solar panel frames, ensuring a secure and efficient installation process.

With a sleek black color, the Solar Panel Aluminium Profile offers a modern and sophisticated appearance to complement the overall design of the photovoltaic system. The customizable shape and thickness of the profile allow for flexibility in adapting to different project specifications, making it suitable for a variety of solar panel installations.

Manufactured with precision and attention to detail, this Aluminium Profile is ideal for creating sturdy and long-lasting structures to support solar panels. The anodized surface treatment provides enhanced durability and corrosion resistance, ensuring the profile maintains its quality and appearance over time. Additionally, the power coating further enhances the protection of the profile, making it suitable for outdoor applications in various environmental conditions.

By utilizing the Solar Panel Aluminium Profile, installers can effectively secure solar panels in place, providing a reliable foundation for the photovoltaic system. The profile's customizable features enable seamless integration with different panel sizes and layouts, allowing for a tailored solution that meets the specific requirements of each project.

Whether used in residential, commercial, or industrial settings, the Solar Panel Aluminium Profile offers a versatile solution for constructing robust mounting systems that support the efficient operation of photovoltaic arrays. Its durable construction and thoughtful design make it a dependable choice for ensuring the longevity and performance of solar energy systems.

Overall, the Solar Panel Aluminium Profile is a reliable and versatile component that plays a crucial role in the successful installation and operation of photovoltaic systems. With its sleek black color, customizable shape and thickness, and advanced surface treatments, this profile is a top choice for creating durable and efficient mounting structures for solar panels.

Invest in the Solar Panel Aluminium Profile today to experience the benefits of a high-quality, reliable solution for your photovoltaic mounting needs. Trust in the durability and performance of this product to support the efficient operation of your solar energy system for years to come.

Features:

Product Name: Solar-Panel Aluminium Profile

Thickness: Customized

Feature: Lightweight And Durable

Oem/Odm: Available

Width: Customized

Surface Treatment: Anodized, Power Coating

Technical Parameters:

Oem/Odm	Available
Thickness	Customized
Usage	Solar Panel Frame
Width	Customized
Color	Black
Feature	Lightweight And Durable
Length	Customized
Shape	Customized
Material	Aluminum
Surface Treatment	Anodized, Power Coating

Applications:

The Solar Panel Aluminium Profile from Golden Chain is a versatile product suitable for various applications in the photovoltaic industry. Its lightweight and durable aluminum material makes it an ideal choice for constructing Aluminium Photovoltaic Mounting Systems. With its customizable length and shape, this product can be tailored to fit different solar panel configurations, providing flexibility and ease of installation. Whether it's for residential, commercial, or industrial solar projects, the Solar Panel Aluminium Profile offers a reliable solution for mounting solar panels securely and efficiently.

Manufactured in Guangdong, China, the Solar Panel Aluminium Profile upholds high-quality standards and is available for OEM and ODM orders. The minimum order quantity of 300 kilograms ensures that customers can easily obtain the necessary materials for their solar installations.

When it comes to packaging, the product is carefully protected with a film to prevent any damage during transportation. Customers can expect a delivery time of 15-30 days, providing a quick turnaround for their projects. Payment terms including L/C and T/T offer flexibility and convenience for transactions.

Overall, the Solar Panel Aluminium Profile from Golden Chain is a reliable and efficient solution for various solar applications. Its customizable features, lightweight material, and durability make it a preferred choice for those looking to build robust and long-lasting

solar panel mounting systems.

Customization:

Product Customization Services for the Solar Panel Aluminium Profile: -----

- Brand Name: Golden Chain
- Place of Origin: Guangdong, China
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T
- Length: Customized
- Usage: Solar Panel Frame
- Color: Black
- Width: Customized
- Shape: Customized

Packing and Shipping:

Product Packaging:
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.
Shipping:
Ocean, Air, Express
