

Customized Solar Panel Aluminum Profile High Durability Corrosion-Resistant

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

Product Specification

- Thickness: Customized
- Oem/Odm: Available
- Surface Treatment: Anodized, Power Coating
- Feature: Lightweight And Durable
- Width: Customized
- Material: Aluminum
- Usage: Solar Panel Frame
- Application: Solar Energy System
- Highlight: **Corrosion Resistant Solar Panel Aluminum Profile**
, High Durability Solar Panel Aluminum Profile

Product Description

Product Description:

One of the key features of the Solar Panel Aluminium Profile is its lightweight yet durable construction. Made from high-quality aluminum, this profile offers a perfect balance of strength and weight, ensuring long-lasting performance and reliability. The lightweight design also makes installation easier and more convenient, reducing overall project time and cost.

The shape of the Solar Panel Aluminium Profile is fully customizable, allowing for flexibility in design and installation. Whether you require straight profiles, angles, or custom shapes, this product can be tailored to meet your specific project requirements. The ability to customize the shape of the profiles ensures a perfect fit for any installation, maximizing efficiency and performance.

For those looking for personalized solutions, the Solar Panel Aluminium Profile offers OEM/ODM services. This means that you can work closely with the manufacturer to create custom profiles that meet your exact specifications. Whether you need specific dimensions, surface finishes, or other modifications, the OEM/ODM option allows you to create a unique and tailored solution for your solar panel mounting needs.

In addition to its customizable features, the Solar Panel Aluminium Profile is also treated with anodized power coating for enhanced durability and protection. The anodized coating provides a corrosion-resistant surface that can withstand harsh environmental conditions, ensuring long-term performance and reliability. The power coating further enhances the appearance of the profiles, giving them a smooth and professional finish.

Overall, the Solar Panel Aluminium Profile is an essential component for any aluminium photovoltaic mounting system. Its lightweight and durable design, customizable shape options, OEM/ODM services, and surface treatment make it a top choice for solar panel installations. With its sleek black color and modern appearance, this profile offers both functionality and style, making it a versatile and reliable solution for your solar energy projects.

Features:

Product Name: Solar Panel Aluminium Profile

Oem/Odm: Available

Length: Customized

Shape: Customized

Width: Customized

Color: Black

Technical Parameters:

Usage	Solar Panel Frame
Width	Customized
Feature	Lightweight And Durable
Length	Customized
Shape	Customized
Surface Treatment	Anodized, Power Coating
Application	Solar Energy System
Thickness	Customized
Oem/Odm	Available
Material	Aluminum

Applications:

Golden Chain Solar Panel Aluminium Profile is a versatile product suitable for a wide range of applications in the solar energy industry. With its exceptional quality and durability, this aluminum profile is designed to meet the specific needs of solar panel installations.

Whether it's for residential, commercial, or industrial use, the Golden Chain Solar Panel Aluminium Profile is the perfect solution.

Manufactured in Guangdong, China, this product offers a minimum order quantity of 300 kilograms, ensuring that you have an ample supply for your projects. The packaging details include a protective film to safeguard the aluminum profile during transportation and storage, while the delivery time ranges from 15 to 30 days, depending on your location.

When it comes to payment terms, you have the flexibility to choose between L/C or T/T, making the purchasing process convenient and hassle-free. The material used in the production of this aluminum profile is high-quality aluminum, known for its lightweight properties and exceptional durability.

Customized in length to suit your specific requirements, the Golden Chain Solar Panel Aluminium Profile features a sleek black color that complements the aesthetics of solar panel installations. With OEM/ODM services available, you can further customize the profile to meet your unique specifications.

Whether you are installing solar panels on rooftops, in solar farms, or any other application, the Golden Chain Solar Panel Aluminium Profile is the ideal choice. Its power coating ensures a long-lasting finish that can withstand the elements, making it suitable for outdoor use in various climates.

Customization:

Product Customization Services for Solar Panel Aluminium Profile:
Brand Name: Golden Chain
Place of Origin: Guangdong, China
Minimum Order Quantity: 300 Kilogram
Packaging Details: Protect film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
Material: Aluminum
Shape: Customized
Application: Solar Energy System, Aluminium Photovoltaic Mounting System
Color: Black
Thickness: Customized

Packing and Shipping:

Product Packaging:
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.
Shipping:
Ocean, Air, Express
