

## Customized Power Coating Aluminum Profile The Perfect Solution For Your Requirements

Our Product Introduction

for more products please visit us on [alu-heatsink.com](http://alu-heatsink.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

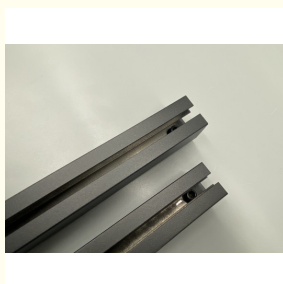

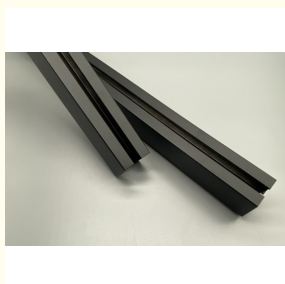

### Product Specification

- Usage: Solar Panel Frame
- Feature: Lightweight And Durable
- Oem/Odm: Available
- Width: Customized
- Length: Customized
- Material: Aluminum
- Color: Black
- Shape: Customized
- Highlight: Customized Power Coating Aluminum Profile, Power Coating Aluminum Profile, Customized Aluminum Profile

## Product Description

### Product Description:

One of the standout features of this product is its customizable thickness, allowing for precise engineering based on the unique needs of the solar panel frame. This flexibility ensures that the profile can provide optimal support and stability to the solar panels, enhancing their performance and longevity.

Moreover, the customizable width of the Aluminium Profile offers further versatility in design and installation. Whether for residential, commercial, or industrial solar energy systems, this profile can be tailored to fit the specific dimensions and requirements of the project, ensuring a seamless and efficient integration.

The surface treatment of the Aluminium Profile is another critical aspect that enhances its durability and performance. With options for anodized and powder coating finishes, the profile is not only protected against corrosion and environmental factors but also achieves a sleek and professional appearance that complements the overall aesthetics of the solar panel frame.

Designed for use in Solar Energy Systems, the Aluminium Profile excels in providing structural support and mounting capabilities for solar panels. Its robust construction and precise engineering make it an indispensable component in ensuring the stability and efficiency of the entire solar energy system.

Whether for ground-mounted solar arrays, rooftop installations, or solar farms, the Aluminium Profile offers a reliable and versatile solution for securely mounting solar panels in various settings. Its compatibility with different types of solar panels and mounting configurations makes it a versatile choice for a wide range of solar energy projects.

In conclusion, the Solar Panel Aluminium Profile is a high-quality and customizable component that plays a crucial role in the successful installation and operation of solar panel systems. With its customizable thickness, width, and surface treatment options, this profile offers exceptional versatility and durability for various solar energy applications. Whether for residential, commercial, or industrial projects, the Aluminium Profile is a reliable choice for creating robust and efficient solar panel frames.

### Features:

Product Name: Solar-Panel Aluminium Profile

Material: Aluminum

OEM/ODM: Available

Thickness: Customized

Surface Treatment: Anodized, Power Coating

Color: Black

### Technical Parameters:

Color	Black
Length	Customized
Application	Solar Energy System
Width	Customized
Material	Aluminum
Surface Treatment	Anodized, Power Coating
Shape	Customized
Oem/Odm	Available
Feature	Lightweight and Durable
Usage	Solar Panel Frame

### Applications:

The Solar Panel Aluminium Profile by Golden Chain is a versatile product suitable for various application occasions and scenarios related to solar energy systems. Crafted from durable aluminum material, these profiles are designed to withstand outdoor elements and provide long-lasting support for photovoltaic panels.

With a customized shape, the Aluminium Photovoltaic Mounting System profiles can be tailored to fit specific solar panel installations, ensuring a secure and precise mounting solution. The lightweight nature of the profiles makes them easy to handle and install, while their black color adds a sleek and modern touch to the overall system.

Whether you are setting up a residential solar energy system or a larger commercial project, the Golden Chain Solar Panel Aluminium Profile is ideal for enhancing the efficiency and performance of your photovoltaic array. The minimum order quantity of 300 kilograms allows for flexibility in project sizing, while the protective film packaging ensures that the profiles arrive in pristine condition.

Originating from Guangdong, China, these profiles are crafted with precision and expertise, meeting high-quality standards for the solar energy industry. The delivery time of 15-30 days and payment terms of L/C or T/T provide convenience and reliability for customers looking to incorporate these profiles into their projects.

In conclusion, the Golden Chain Solar Panel Aluminium Profile is a top choice for those seeking a reliable, durable, and customizable solution for their photovoltaic mounting needs. Whether for residential, commercial, or industrial applications, these profiles offer the perfect support system for maximizing the efficiency and longevity of your solar energy setup.

Customization:

Product Customization Services for Solar Panel Aluminium Profile: .....  
Brand Name: Golden Chain  
Place of Origin: Guangdong, China  
Minimum Order Quantity: 300 Kilogram  
Packaging Details: Protect film  
Delivery Time: 15-30 days  
Payment Terms: L/C, T/T  
Usage: Solar Panel Frame  
Application: Solar Energy System  
Width: Customized  
Surface Treatment: Anodized, Power Coating  
OEM/ODM: Available

Packing and Shipping:

Product Packaging:  
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery. Each profile is wrapped in protective material and placed in a sturdy cardboard box with ample cushioning to prevent any damage during transit.  
Shipping:  
Ocean, Air, Express
