

Aluminum Solar Panel Frame Essential Element For Solar Energy Solutions

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

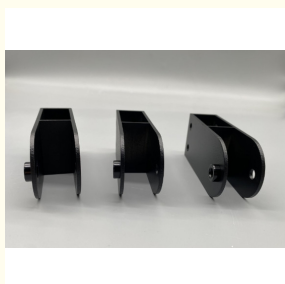

Product Specification

- Length: Customized
- Material: Aluminum
- Thickness: Customized
- Surface Treatment: Anodized, Power Coating
- Shape: Customized
- Application: Solar Energy System
- Usage: Solar Panel Frame
- Color: Black
- Highlight: Aluminum Solar Panel Frame, Solar Energy Solutions Solar Panel Frame, Essential Element Solar Panel Frame

Product Description

Product Description:

Solar Panel Aluminium Profile

Photovoltaic applications require high-quality materials for durability and efficiency. Our Solar Panel Aluminium Profile is designed specifically for the solar industry, providing a reliable and sturdy framework for photovoltaic installations.

Material: Aluminum

Our Solar Panel Aluminium Profile is made from high-grade aluminum, known for its lightweight yet durable properties. Aluminum is the ideal material for solar panel structures as it offers excellent corrosion resistance, ensuring longevity and performance in various environmental conditions.

Oem/Odm: Available

We understand that each solar project may have unique requirements. That's why we offer OEM/ODM services for our Solar Panel Aluminium Profile, allowing you to customize the design and specifications to meet your specific project needs.

Length: Customized

Flexibility is key when it comes to solar panel installations. Our Solar Panel Aluminium Profile can be customized in length, ensuring a perfect fit for your project layout. Whether you need standard sizes or bespoke lengths, we can accommodate your requirements.

Width: Customized

In addition to length customization, we also offer the flexibility to customize the width of our Solar Panel Aluminium Profile. This feature allows for precise fitting of solar panels and optimizes the overall efficiency of the photovoltaic system.

Surface Treatment: Anodized, Power Coating

To enhance the durability and aesthetics of our Solar Panel Aluminium Profile, we provide surface treatments such as anodizing and powder coating. Anodizing creates a protective layer on the aluminum surface, improving corrosion resistance and prolonging the lifespan of the profile. Powder coating offers a decorative finish while providing additional protection against environmental elements.

Enhance your solar panel installations with our premium Solar Panel Aluminium Profile. Designed for photovoltaic applications, our aluminum profile offers the perfect combination of strength, durability, and customization options to meet your project requirements.

Contact us today to learn more about our Solar Panel Aluminium Profile and how it can elevate your solar energy projects.

Features:

Product Name: Solar-Panel Aluminium Profile

Length: Customized

Surface Treatment: Anodized, Power Coating

Color: Black

Application: Solar Energy System

Material: Aluminum

Technical Parameters:

| | |
|-------------------|-------------------------|
| Surface Treatment | Anodized, Power Coating |
| Material | Aluminum |
| Width | Customized |
| Thickness | Customized |
| Color | Black |
| Oem/Odm | Available |
| Length | Customized |
| Shape | Customized |
| Application | Solar Energy System |
| Usage | Solar Panel Frame |

Applications:

The Solar Panel Aluminium Profile by Golden Chain is a versatile product suitable for a variety of product application occasions and scenarios. This high-quality product is manufactured in Guangdong, China, ensuring reliability and durability. The minimum order quantity for the Solar Panel Aluminium Profile is 300 kilograms, making it suitable for both small and large-scale projects.

The packaging details include protective film to ensure that the product reaches its destination in perfect condition. With a delivery time of 15-30 days, customers can expect timely delivery of their orders. Payment terms accepted for the Solar Panel Aluminium Profile include L/C and T/T, providing flexibility for different payment preferences.

One of the key features of the Solar Panel Aluminium Profile is its lightweight and durable design. This makes it an ideal choice for use in solar panel installations, specifically in Aluminium Photovoltaic Mounting Systems. The customized shape and length options allow for flexibility in various installation settings.

The Solar Panel Aluminium Profile is made of high-quality aluminum material, ensuring longevity and resistance to corrosion. The product is available for OEM and ODM services, allowing for customization to meet specific project requirements. The power coating finish adds an extra layer of protection and enhances the aesthetic appeal of the product.

Customization:

Product Customization Services for Solar Panel Aluminium Profile: -----
Brand Name: Golden Chain
Place of Origin: Guangdong, China
Minimum Order Quantity: 300 Kilogram
Packaging Details: Protect film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
Usage: Solar Panel Frame
Surface Treatment: Anodized, Power Coating
Feature: Lightweight and Durable
Color: Black
Length: Customized

Packing and Shipping:

Product Packaging: -----
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.
Shipping:
Ocean, Air, Express
