

Aluminum Solar Panel Aluminium Profile In Black Power Coating For Solar Panels

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

Product Specification

- Application: Solar Energy System
- Thickness: Customized
- Length: Customized
- Width: Customized
- Surface Treatment: Anodized. Power Coating
- Color: Black
- Feature: Lightweight And Durable
- Oem/Odm: Available
- Highlight: **Aluminium Solar Panel Aluminium Profile, Aluminium Solar Panel Profile**

Product Description

Product Description:

With a customizable shape and width, the Solar Panel Aluminium Profile can be tailored to suit various solar panel configurations, providing flexibility and adaptability to different installation requirements. The ability to customize the profile allows for a precise fit, ensuring seamless integration and optimal performance of the solar panels.

The aluminum construction of the profile offers numerous advantages, making it an ideal choice for solar panel frames. Aluminum is known for its lightweight yet robust properties, making it easy to handle during installation while providing strength and resilience to support the solar panels. Additionally, aluminum is corrosion-resistant, ensuring the profile remains unaffected by environmental factors, thus extending its lifespan and maintaining its structural integrity over time.

One of the key features of the Solar Panel Aluminium Profile is its versatility in design and application. Whether used for residential, commercial, or industrial solar energy systems, this profile offers a reliable solution for framing solar panels. The customizable shape and width enable seamless integration with various types of solar panels, allowing for efficient energy production and utilization.

Furthermore, the Solar Panel Aluminium Profile is coated with a high-quality powder coating finish, enhancing its aesthetic appeal while providing additional protection against wear and tear. The powder coating not only adds a sleek and professional look to the profile but also improves its resistance to scratches, chemicals, and UV exposure, ensuring long-lasting performance and visual appeal.

The application of powder coating to the Solar Panel Aluminium Profile serves to enhance its durability and weather resistance, making it suitable for outdoor use in diverse environmental conditions. Whether installed in sunny, rainy, or snowy regions, the powder-coated profile maintains its quality and appearance, offering reliable support and protection to the solar panels throughout their operational lifespan.

In summary, the Solar Panel Aluminium Profile is an essential component for solar panel frames, designed to optimize the performance and longevity of solar energy systems. With its aluminum construction, customizable shape and width, and high-quality powder coating finish, this profile offers a durable, versatile, and aesthetically pleasing solution for framing solar panels in various applications. Invest in the Solar Panel Aluminium Profile to enhance the efficiency and reliability of your solar energy system while adding a touch of elegance to your renewable energy setup.

Features:

Product Name: Solar Panel Aluminium Profile

Application: Solar Energy System

Thickness: Customized

Surface Treatment: Anodized, Power Coating

Usage: Solar Panel Frame

Color: Black

Technical Parameters:

Application	Solar Energy System
Material	Aluminum
Length	Customized
Usage	Solar Panel Frame
Shape	Customized
Surface Treatment	Anodized, Power Coating
Feature	Lightweight And Durable
Thickness	Customized
Oem/Odm	Available
Width	Customized

Applications:

Golden Chain Solar Panel Aluminium Profile is a versatile product designed for various photovoltaic applications. Its durable construction and customizable features make it suitable for a wide range of occasions and scenarios.

With its origin in Guangdong, China, this product offers high quality and reliability for your solar panel installations. The minimum order quantity of 300 kilograms ensures that you have an ample supply for your projects. The packaging details include a protective film to prevent any damage during transportation.

The Golden Chain Solar Panel Aluminium Profile is ideal for use in photovoltaic systems, providing a sturdy and secure mounting solution. Whether you are setting up solar panels on rooftops, ground mounts, or solar farms, this product offers flexibility in length, shape, and width to suit your specific requirements.

The black color of the profile not only gives a sleek and modern look but also helps in efficient heat dissipation, enhancing the performance of the photovoltaic panels. The customizable options and availability of OEM/ODM services allow you to tailor the product according to your project needs.

When it comes to delivery, you can expect your order to arrive within 15-30 days, ensuring timely completion of your solar energy projects. The payment terms of L/C and T/T provide flexibility in transactions, making it convenient for international buyers.

Whether you are a solar panel manufacturer, installer, or project developer, the Golden Chain Solar Panel Aluminium Profile is a reliable choice for creating efficient and durable photovoltaic mounting systems. Invest in this product to ensure the success and longevity of your solar energy projects.

Customization:

Product Customization Services for the Solar Panel Aluminium Profile:

Brand Name: Golden Chain
Place of Origin: Guangdong, China
Minimum Order Quantity: 300 Kilogram
Packaging Details: Protect film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
Material: Aluminum
Length: Customized
Oem/Odm: Available
Usage: Solar Panel Frame
Thickness: Customized
Keywords: Aluminium Photovoltaic Mounting System, Aluminum Profile

Packing and Shipping:

Product Packaging:
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.
Shipping:
Ocean, Air, Express
