

Oem / Odm Photovoltaic Bracket For Superior Solar Panel Performance

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

Product Specification

- Usage: Solar Panel Frame
- Feature: Lightweight And Durable
- Surface Treatment: Anodized. Power Coating
- Material: Aluminum
- Width: Customized
- Color: Black
- Oem/Odm: Available
- Thickness: Customized
- Highlight: Superior Solar Panel Performance Photovoltaic Bracket
, Oem Photovoltaic Bracket,
Customized Photovoltaic Bracket

Product Description

Product Description:

The Solar Panel Aluminium Profile is a high-quality product designed for various solar panel applications. Constructed from durable aluminum material, this profile offers a lightweight and sturdy solution for mounting solar panels effectively. The aluminum material ensures longevity and resistance to corrosion, making it an ideal choice for outdoor use in solar installations.

The key feature of this Solar Panel Aluminium Profile is its lightweight design combined with exceptional durability. This ensures easy handling during installation while providing long-lasting support for solar panels. The profile is specifically engineered to withstand the harsh outdoor conditions typically encountered in solar energy systems.

With a customized shape, length, and thickness, this Aluminium Profile offers versatile options for different solar panel setups. The customization options allow for seamless integration with various mounting systems, making it a flexible solution for different project requirements. Whether it's a rooftop solar array or ground-mounted system, this profile can be tailored to fit specific needs.

One of the standout features of this Solar Panel Aluminium Profile is its power coating finish. The power coating not only enhances the appearance of the profile but also provides an additional layer of protection against environmental elements. This ensures the longevity of the profile and maintains its aesthetic appeal over time.

Designed specifically for solar applications, this Aluminium Profile is part of the Aluminium Photovoltaic Mounting System, offering a reliable and efficient solution for mounting solar panels. The profile seamlessly integrates into the mounting system, providing a secure foundation for solar panels while optimizing their performance.

Whether you are setting up a residential solar energy system or a large-scale commercial project, the Solar Panel Aluminium Profile offers a dependable solution for mounting solar panels with ease. Its lightweight construction, combined with customized options, makes it a versatile choice for various solar panel installations.

In conclusion, the Solar Panel Aluminium Profile is a top-quality product that combines the lightweight and durable properties of aluminum with customizable features to meet diverse solar panel mounting needs. With its power coating finish and integration into the Aluminium Photovoltaic Mounting System, this profile offers a reliable and efficient solution for solar energy systems.

Features:

Product Name: Solar Panel Aluminium Profile

Usage: Solar Panel Frame

Color: Black

Material: Aluminum

Feature: Lightweight And Durable

Oem/Odm: Available

Technical Parameters:

Application	Solar Energy System
Material	Aluminum
Oem/Odm	Available
Shape	Customized
Length	Customized
Thickness	Customized
Width	Customized
Surface Treatment	Anodized, Power Coating
Usage	Solar Panel Frame
Feature	Lightweight And Durable

Applications:

The Golden Chain Solar Panel Aluminium Profile, originating from Guangdong, China, is a versatile product suitable for various applications and scenarios related to the solar energy industry. With a minimum order quantity of 300 kilograms, this product is ideal for both small-scale and large-scale projects.

The aluminium profiles are carefully packaged with protective film to ensure their safe delivery to customers. The delivery time for this product ranges from 15 to 30 days, providing a convenient and efficient procurement process. Payment terms accepted for this product include L/C and T/T, offering flexibility to customers.

These black aluminum profiles are designed for use in solar panel frames, making them essential components for photovoltaic systems. The customization options available for the length, thickness, and shape of the profiles allow for tailored solutions to meet specific project requirements.

Whether for residential, commercial, or industrial solar panel installations, the Golden Chain Solar Panel Aluminium Profile is well-suited for power coating applications, providing a durable and aesthetically pleasing finish. The high-quality construction of these profiles ensures reliable performance and longevity in various environmental conditions.

Customization:

Product Customization Services for Aluminium Photovoltaic Mounting System:
Brand Name: Golden Chain
Place of Origin: Guangdong, China
Minimum Order Quantity: 300 Kilogram
Packaging Details: protect film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
Oem/Odm: Available
Surface Treatment: Anodized, Power Coating
Thickness: Customized
Length: Customized
Color: Black

Packing and Shipping:

Product Packaging:
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.
Shipping:
Ocean, Air, Express
