

Solar Energy System Lightweight And Durable Solar Panel Aluminium Profile With Anodized Coating

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

Product Specification

- Color: Black
- Usage: Solar Panel Frame
- Width: Customized
- Oem/Odm: Available
- Feature: Lightweight And Durable
- Application: Solar Energy System
- Material: Aluminum
- Surface Treatment: Anodized. Power Coating
- Highlight: **Anodized Coating Solar Panel Aluminium Profile**
, Durable Solar Panel Aluminium Profile,
Lightweight Solar Panel Aluminium Profile

Product Description

Product Description:

The black color of the aluminium profile not only provides a sleek and modern look but also offers durability and resistance to environmental elements. The powder coating finish adds an extra layer of protection, making this product ideal for outdoor use in various weather conditions.

Customization is key when it comes to our Solar Panel Aluminium Profile. You can choose the shape and length that best suits your solar panel system, allowing for seamless integration and optimal performance. Whether you need a standard size or a unique design, we can accommodate your preferences with precision and expertise.

Made from high-quality aluminum material, our Aluminium Photovoltaic Mounting System is lightweight yet strong, providing the structural support needed for your solar panels. The aluminum profile offers excellent corrosion resistance and thermal conductivity, ensuring long-lasting reliability and efficiency for your solar energy system.

When it comes to solar panel installations, having the right mounting system is crucial for the overall performance and stability of the system. Our Solar Panel Aluminium Profile is designed to meet the highest standards of quality and functionality, offering a reliable solution for your solar energy needs.

Whether you are installing solar panels on a residential rooftop, commercial building, or large-scale solar farm, our Aluminium Profile is a versatile and cost-effective choice. Its customizable features and durable construction make it suitable for a wide range of solar panel applications, providing flexibility and reliability for your renewable energy projects.

With our Solar Panel Aluminium Profile, you can rest assured that your solar panel system will be securely mounted and well-supported for optimal energy production. The combination of high-quality aluminum material, powder coating finish, and customizable design makes this product a top choice for solar panel installers and project developers.

Invest in the future of solar energy with our Solar Panel Aluminium Profile and enjoy the benefits of a reliable and efficient mounting solution for your solar panel system. Contact us today to learn more about our customizable options and how our Aluminium Profile can enhance the performance and longevity of your solar energy project.

Features:

Product Name: Solar Panel Aluminium Profile

Feature: Lightweight And Durable

Width: Customized

Thickness: Customized

Length: Customized

Oem/Odm: Available

Technical Parameters:

Surface Treatment	Anodized, Power Coating
Shape	Customized
Thickness	Customized
Color	Black
Length	Customized
Application	Solar Energy System
Oem/Odm	Available
Material	Aluminum
Width	Customized
Usage	Solar Panel Frame

Applications:

The Golden Chain Solar Panel Aluminium Profile is a versatile and essential component for various applications in the solar energy industry. With its high-quality construction and durable design, this product is ideal for creating sturdy frames for solar panels in both residential and commercial settings.

One of the key application scenarios for the Golden Chain Solar Panel Aluminium Profile is in the installation of Aluminium Photovoltaic Mounting Systems. These mounting systems are crucial for securely positioning solar panels to maximize energy absorption and efficiency. The profile's customized thickness and length options make it suitable for a wide range of solar panel sizes and configurations. Manufactured in Guangdong, China, the Golden Chain Solar Panel Aluminium Profile meets high-quality standards and is designed to withstand various environmental conditions. Its anodized surface treatment provides enhanced corrosion resistance, making it suitable for outdoor use in solar energy systems.

Whether you are setting up a small residential solar array or a large-scale solar energy system, the Golden Chain Solar Panel Aluminium Profile is a reliable choice. The minimum order quantity of 300 kilograms allows for flexibility in project sizes, while the protective film packaging ensures that the profiles arrive in perfect condition.

Customers can expect a delivery time of 15-30 days after placing their order, and payment terms include L/C and T/T for convenience. The product's compatibility with power coating further enhances its durability and aesthetic appeal, making it a valuable investment for

long-term solar panel installations.

Customization:

Product Customization Services for the Solar Panel Aluminium Profile: -----
Brand Name: Golden Chain
Place of Origin: Guangdong, China
Minimum Order Quantity: 300 Kilogram
Packaging Details: Protect film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
Color: Black
Application: Solar Energy System
Feature: Lightweight And Durable
Length: Customized
Material: Aluminum

Packing and Shipping:

Product Packaging:
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.
Shipping:
Ocean, Air, Express
