

Universal Compatibility And Waterproof Aluminum Enclosure Battery Powered

Our Product Introduction

for more products please visit us on alu-heatsink.com

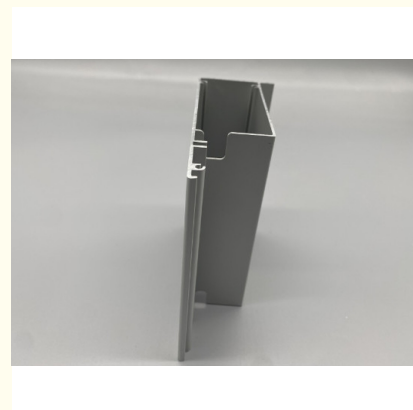

Basic Information

- Place of Origin: China,Guangdong
- Brand Name: No Brand
- Minimum Order Quantity: 300Kilogram
- Packaging Details: Carton
- Delivery Time: 15-20 Workdays
- Payment Terms: L/C, T/T

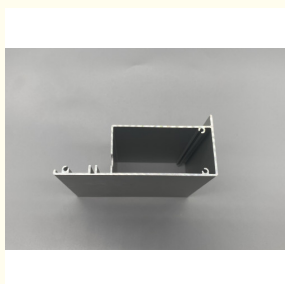

Product Specification

- Waterproof: Yes
- Design: Sleek
- Durability: High
- Heat Resistance: Good
- Color: Customized
- Type: Battery
- Maintenance: Low
- Material: Aluminum6063
- Highlight: **Waterproof Aluminum Enclosure,
Universal Compatibility Aluminum Enclosure,
Battery Powered Aluminum Enclosure**

Product Description

Product Description:

Introducing our innovative Aluminum Enclosure, a cutting-edge solution designed to meet the demands of modern technology. This premium product offers exceptional heat resistance, making it an ideal choice for various applications where temperature control is crucial.

The Aluminum Enclosure is expertly engineered to be shockproof, providing superior protection for sensitive electronic components such as batteries. Its robust construction ensures that your devices remain safe and secure, even in challenging environments.

This enclosure is specifically designed for battery applications, making it a versatile and practical choice for a wide range of electronic devices. Whether you are designing a portable power bank or a sophisticated battery management system, the Aluminum Enclosure is the perfect solution to meet your needs.

With its excellent corrosion resistance properties, this enclosure is built to last, even in harsh conditions. The sleek design not only enhances the aesthetic appeal of your product but also ensures long-lasting durability, making it a reliable choice for demanding applications.

Constructed from high-quality aluminum, this enclosure offers a perfect balance of strength and lightweight design. The premium materials used in its construction ensure that it can withstand the rigors of daily use, providing you with peace of mind knowing that your devices are well-protected.

Whether you are a professional electronics designer or a DIY enthusiast, the Aluminum Enclosure offers a versatile and reliable solution for your battery enclosure needs. Its innovative design and advanced features make it an essential component for any electronic project that requires a durable and high-performance enclosure.

Upgrade your electronic devices with the Aluminum Enclosure and experience the difference in quality and performance. With its unmatched heat resistance, shockproof design, and excellent corrosion resistance, this enclosure sets the standard for reliability and durability in the industry.

Invest in the Aluminum Enclosure today and take your electronic projects to the next level. With its sleek design and premium features, this enclosure is the perfect choice for demanding applications that require a high-quality battery enclosure solution.

Features:

Product Name: Aluminum Enclosure

Waterproof: Yes

Design: Sleek

Size: Customizable

Material: Aluminum6063

Shockproof: Yes

Technical Parameters:

Maintenance	Low
Durability	High
Waterproof	Yes
Corrosion Resistance	Excellent
Material	Aluminum6063
Design	Sleek
Compatibility	Universal
Type	Battery
Shockproof	Yes
Heat Resistance	Good

Applications:

When it comes to protective enclosures for electronic devices, the Aluminum Enclosure from No Brand is a top choice. This product, originating from China, Guangdong, boasts excellent corrosion resistance, making it perfect for a wide range of applications.

One of the key features of this Aluminum Enclosure is its anodized finish, which not only enhances its durability but also gives it a sleek and professional look. The square design of the enclosure allows for easy customization, ensuring that it can accommodate various sizes of batteries.

Thanks to its shockproof and waterproof properties, this enclosure is ideal for use in demanding environments where electronic devices need reliable protection. Whether it's in industrial settings, outdoor installations, or marine applications, this enclosure can withstand the rigors of daily use.

Businesses looking to purchase the Aluminum Enclosure can do so with a minimum order quantity of 300 kilograms. The packaging details involve cartons, ensuring safe delivery of the product. Speaking of delivery, customers can expect their orders to arrive within 15-20 workdays, allowing for quick deployment of electronic devices.

For payment terms, both L/C and T/T options are available, providing flexibility for buyers. With its customizable size, excellent corrosion resistance, and specialized design for battery applications, the Aluminum Enclosure from No Brand is a versatile and reliable solution for

various product application occasions and scenarios.

Customization:

- Product Customization Services for Aluminum Enclosure: -----
- Brand Name: No Brand
 - Place of Origin: China, Guangdong
 - Minimum Order Quantity: 300 Kilogram
 - Packaging Details: Carton
 - Delivery Time: 15-20 Workdays
 - Payment Terms: L/C, T/T
 - Shockproof: Yes
 - Size: Customizable
 - Corrosion Resistance: Excellent
 - Color: Customized
 - Material: Aluminum6063

Packing and Shipping:

Product Packaging: Each Aluminum Enclosure is carefully wrapped in protective foam and placed in a sturdy cardboard box to prevent any damage during transit.

Shipping: We ship our Aluminum Enclosures using reliable courier services to ensure safe and timely delivery to your doorstep. Tracking information will be provided once the order is dispatched.
