

Good Heat Resistance Aluminum Battery Box With Anodized Ultimate Solution For Industrial

Our Product Introduction

for more products please visit us on alu-heatsink.com

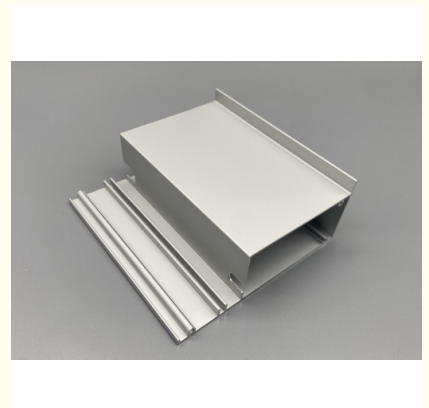

Basic Information

- Place of Origin: China,Guangdong
- Brand Name: No Brand
- Minimum Order Quantity: 300Kilogram
- Packaging Details: Carton
- Delivery Time: 15-20 Workdays
- Payment Terms: L/C, T/T

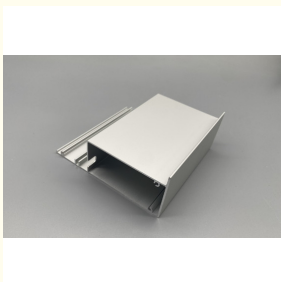

Product Specification

- Material: Aluminum6063
- Compatibility: Universal
- Installation: Easy
- Size: Customizable
- Corrosion Resistance: Excellent
- Waterproof: Yes
- Shockproof: Yes
- Durability: High
- Highlight: **Good Heat Resistance Aluminum Battery Box, Industrial Aluminum Battery Box, Anodized Aluminum Battery Box**

Product Description

Product Description:

The Aluminum Enclosure is a high-quality product designed specifically for battery applications. Made from durable anodized aluminum, this enclosure offers excellent corrosion resistance, ensuring longevity and reliability even in challenging environments. Its universal compatibility makes it suitable for a wide range of battery types and sizes.

One of the key features of the Aluminum Enclosure is its easy installation process. With a user-friendly design and clear instructions, you can quickly set up your battery system without any hassle. Whether you are a professional installer or a DIY enthusiast, you will appreciate the simplicity and efficiency of this enclosure.

In addition to its ease of installation, the Aluminum Enclosure also boasts waterproof properties, providing an extra layer of protection for your batteries. This feature is essential for outdoor installations or areas with high moisture levels, ensuring that your batteries remain safe and secure at all times.

The anodized aluminum construction of the enclosure not only enhances its durability but also gives it a sleek and modern look. The smooth finish adds a touch of sophistication to your battery system, making it a stylish addition to any setting. Whether you are using the enclosure for personal or professional purposes, its aesthetic appeal is sure to impress.

With its focus on quality, functionality, and design, the Aluminum Enclosure sets a high standard for battery enclosures. Its robust construction, excellent corrosion resistance, universal compatibility, easy installation, and waterproof features make it a top choice for anyone looking to protect and enhance their battery system.

Features:

Product Name: Aluminum Enclosure

Color: Customized

Material: Aluminum6063

Size: Customizable

Type: Battery

Compatibility: Universal

Technical Parameters:

Heat Resistance	Good
Shockproof	Yes
Compatibility	Universal
Color	Customized
Corrosion Resistance	Excellent
Installation	Easy
Type	Battery
Waterproof	Yes
Design	Sleek
Material	Aluminum6063

Applications:

The Aluminum Enclosure from No Brand, originating from Guangdong, China, is a versatile product suitable for a wide range of application occasions and scenarios. With a minimum order quantity of 300 kilograms, this product is ideal for various industries and purposes.

One of the key features of the Aluminum Enclosure is its excellent corrosion resistance, making it perfect for outdoor use in challenging environments. Whether it is protecting electronic components, batteries, or sensitive equipment, this enclosure offers reliable protection against corrosion.

Furthermore, the Aluminum Enclosure is waterproof and shockproof, adding an extra layer of security for sensitive equipment such as batteries. Its durable construction ensures that the contents remain safe and secure even in harsh conditions.

Thanks to its heat resistance, the Aluminum Enclosure is well-suited for applications where temperature fluctuations are common.

Whether it is used in industrial settings or outdoor installations, this enclosure can withstand varying temperatures without compromising its performance.

With low maintenance requirements, the Aluminum Enclosure is a cost-effective solution for long-term use. Its robust design and high-quality materials ensure durability and reliability, reducing the need for frequent maintenance.

Whether used in manufacturing facilities, outdoor installations, or electronic projects, the Aluminum Enclosure offers a secure and protective housing for various applications. Its simple yet effective design, combined with its waterproof, shockproof, and corrosion-resistant properties, make it a versatile choice for different scenarios.

When ordering the Aluminum Enclosure, customers can expect a delivery time of 15-20 workdays, with packaging details provided in cartons for convenient handling. Payment terms include L/C and T/T, offering flexibility for procurement processes.

Customization:

Product Customization Services for the Aluminum Enclosure: -----
Brand Name: No Brand
Place of Origin: China, Guangdong
Minimum Order Quantity: 300 Kilogram
Packaging Details: Carton
Delivery Time: 15-20 Workdays
Payment Terms: L/C, T/T
Type: Battery
Color: Customized
Compatibility: Universal
Size: Customizable
Durability: High
Keywords: Square, Aluminum, Anodized

Packing and Shipping:

Product Packaging: -----
The LED Aluminum Profile is carefully packaged in a sturdy cardboard box to ensure safe transportation.
Shipping:
Ocean, Air, Express
