## Product Description

### Product Description:

Experience innovative lighting solutions with our LED Aluminum Profile, designed to elevate your space with customizable features that cater to your specific needs. With a focus on versatility and quality, this product promises to deliver superior performance for a wide range of applications.

Featuring a customizable width, our LED Aluminum Profile gives you the flexibility to tailor the lighting solution to your exact specifications. Whether you require a narrow profile for a sleek and modern look or a wider profile for increased light output, this product can be customized to meet your needs.

Enhance the aesthetics of your space with a customized color option for the LED Aluminum Profile. Whether you prefer a classic white finish for a clean and contemporary look or a bold color to make a statement, the choice is yours. Create the perfect ambiance with a color that complements your decor and style.

Shape your lighting design with a variety of customizable options available for the LED Aluminum Profile. From linear designs that provide a seamless and uniform lighting effect to more intricate shapes that add a touch of sophistication, this product allows you to unleash your creativity and bring your vision to life.

Designed for easy installation, the LED Aluminum Profile features a surface mount installation type that ensures a hassle-free setup process. Whether you are a professional installer looking for a quick and efficient solution or a DIY enthusiast seeking a user-friendly option, this product offers convenience and ease of use.

Personalize the surface treatment of the LED Aluminum Profile to suit your specific requirements and preferences. Whether you prefer a matte, glossy, or textured finish, this product can be customized to enhance its durability and visual appeal. Choose a surface treatment that complements your space and ensures long-lasting performance.

Illuminate your space with the brilliance of our LED Aluminum Profile, perfect for a wide range of applications including LED wall washers, educational LED lights, and strip lights. Create stunning lighting effects that enhance the ambiance of your surroundings, whether it be in residential, commercial, or educational settings. With its versatility and high-quality design, this product is a reliable choice for your lighting needs.

Experience the power of customizable lighting solutions with our LED Aluminum Profile, a versatile and innovative product that promises to transform your space with style and functionality. Elevate your lighting design to new heights with a product that offers superior performance, durability, and aesthetic appeal. Choose quality, choose versatility, choose our LED Aluminum Profile for your lighting needs.

### Features:

Product Name: LED Aluminum Profile

Shape: Customized

Application: Lighting Industry

Installation Type: Surface Mount

Corrosion Resistance: Yes

Length: Customizable

### Technical Parameters:

Color	Customized
Material	Aluminum 6063
Heat Dissipation	Efficient
Durability	High
Thickness	Customizable
Width	Customizable
Shape	Customized
Application	Lighting Industry
Corrosion Resistance	Yes
Installation Type	Surface Mount

### Applications:

LED Aluminum Profile, a high-quality product made of Aluminum 6063, is a versatile solution designed for the lighting industry. With its efficient heat dissipation and high durability, this product is ideal for a wide range of applications and scenarios.

One of the key application occasions for LED Aluminum Profile is in the education sector, specifically for educational LED light installations. The profile can be used to create innovative and energy-efficient lighting solutions in classrooms, libraries, and other educational facilities. Its customizable thickness allows for flexibility in design, making it suitable for various lighting projects.

Another popular application scenario for LED Aluminum Profile is in strip light installations. The profile can be used to house and protect LED strip lights, providing a sleek and professional finish to lighting projects. Whether used in residential or commercial settings, the profile enhances the overall look and functionality of strip light installations.

Manufactured in Guangdong, China, LED Aluminum Profile is available with a minimum order quantity of 300 kilograms. The product is

packaged in cartons for convenient transportation and delivery within 15-30 days. Payment terms include L/C and T/T, ensuring a smooth transaction process for customers.
