Product Description

Product Description:

The LED Aluminum Profile is a high-quality product designed for the lighting industry, offering exceptional durability and customizable features to meet various lighting needs. Made from premium aluminum material, this profile is built to last and withstand the rigors of everyday use.

One of the key features of the LED Aluminum Profile is its high durability, making it a reliable choice for both residential and commercial lighting applications. The use of aluminum ensures that the profile is resistant to corrosion, rust, and impact, providing long-lasting performance and reliability.

One of the standout aspects of this product is its customizable shape, allowing users to create unique lighting designs and configurations tailored to their specific requirements. Whether you need a linear profile, corner profile, or any other shape, the LED Aluminum Profile can be customized to suit your needs, offering endless possibilities for creative lighting solutions.

With a focus on versatility and adaptability, the LED Aluminum Profile is ideal for a wide range of lighting applications within the industry. From accent lighting in residential spaces to task lighting in commercial settings, this product provides a versatile platform for creating customized lighting solutions that enhance any environment.

Another key attribute of the LED Aluminum Profile is its customizable thickness, allowing users to select the appropriate profile dimensions based on their specific lighting requirements. This flexibility ensures that the profile can be tailored to different lighting scenarios, providing optimal performance and efficiency.

In addition to its durability and customizable features, the LED Aluminum Profile offers a wide range of color options to suit various design preferences and lighting aesthetics. Whether you prefer a sleek silver finish, a modern black coating, or a custom color match, this product can be tailored to complement any design scheme.

Overall, the LED Aluminum Profile is a premium lighting solution that combines high durability, customizable shape, industry-specific application, customizable thickness, and a variety of color options. With its robust construction, versatile design, and tailored features, this product is an ideal choice for professionals and enthusiasts looking to create innovative and personalized lighting designs.

Features:

Product Name: LED Aluminum Profile

Surface Treatment: Customized

Installation Type: Surface Mount

Application: Lighting Industry

Heat Dissipation: Efficient

Corrosion Resistance: Yes

Technical Parameters:

Length	Customizable
Corrosion Resistance	Yes
Width	Customizable
Thickness	Customizable
Application	Lighting Industry
Shape	Customized
Material	Aluminum 6063
Durability	High
Installation Type	Surface Mount
Heat Dissipation	Efficient

Applications:

The LED Aluminum Profile is a versatile product suitable for a wide range of applications due to its durable aluminum construction. Whether it's for educational institutions, commercial spaces, or residential settings, this product offers a high level of durability and corrosion resistance, making it ideal for long-term use.

One of the key application scenarios for the LED Aluminum Profile is in educational settings, such as schools, colleges, and universities. The customizable width and shape of the profile make it easy to integrate with different lighting designs, providing a sleek and modern look. The surface mount installation type ensures a hassle-free setup, perfect for classrooms, libraries, and lecture halls.

For commercial spaces, the LED Aluminum Profile is a great choice for creating ambient lighting that enhances the overall atmosphere. Whether it's in retail stores, offices, or restaurants, this product can be customized to fit specific design requirements. The corrosion-resistant properties of the aluminum ensure that the profile maintains its quality even in high-traffic areas.

In residential settings, the LED Aluminum Profile can be used to add a touch of sophistication to home lighting. Whether it's for accent lighting in living rooms, kitchens, or bedrooms, the customizable width and shape allow for seamless integration with existing decor. The high durability of the profile ensures that it can withstand daily wear and tear, providing long-lasting performance.

With a minimum order quantity of 300 kilograms, the LED Aluminum Profile is suitable for large-scale projects and installations. The packaging details in cartons make transportation and storage convenient, while the delivery time of 15-30 days ensures timely fulfillment.

of orders. Payment terms such as L/C and T/T offer flexibility for customers, making it easier to procure this high-quality aluminum product from China, Guangdong.

Customization:

Product Customization Services for LED Aluminum Profile:
Brand Name: No Brand
Place of Origin: China, Guangdong
Minimum Order Quantity: 300 Kilogram
Packaging Details: Carton
Delivery Time: 15-30 days
