

Power Coating And Black Design Perfect Combination For Solar Panels

Our Product Introduction

for more products please visit us on alu-heatsink.com

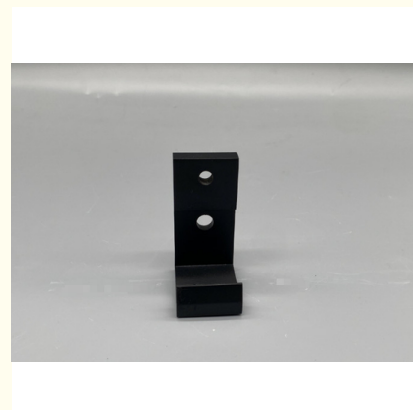

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

Product Specification

- Application: Solar Energy System
- Surface Treatment: Power Coating
- Thickness: Customized
- Material: Aluminum
- Usage: Solar Panel Frame
- Width: Customized
- Length: Customized
- Shape: Customized
- Highlight: **Black Design Solar Panels Aluminium Profile, Power Coating Solar Panels Aluminium Profile**

Product Description

Product Description:

The Solar Panel Aluminium Profile is a crucial component designed for the installation and mounting of solar panels. This versatile product is highly customizable in terms of shape, width, and thickness, making it suitable for various solar panel setups. With the option for OEM and ODM services, customers can tailor the aluminium profiles to meet their specific project requirements.

The Aluminium Photovoltaic Mounting System is crafted from high-quality aluminum material, ensuring durability and longevity in various environmental conditions. Its black color adds a sleek and modern look to the solar panel installation, blending seamlessly with the panels themselves.

One of the key features of the Solar Panel Aluminium Profile is its customized shape, allowing for flexibility in design and installation. Whether you require a specific angle or curvature for your solar panel array, these profiles can be tailored to fit your needs precisely. Additionally, the customizable width and thickness of the aluminium profiles offer further adaptability for different solar panel configurations. This versatility ensures that the profiles can support the panels securely while optimizing their exposure to sunlight for maximum energy production.

For customers seeking a tailored solution for their solar panel mounting needs, the availability of OEM and ODM services is a valuable offering. This allows for the customization of the Aluminium Photovoltaic Mounting System to align with specific project requirements, ensuring a seamless and efficient installation process.

Whether you are setting up a residential solar power system or a large-scale solar farm, the Solar Panel Aluminium Profile provides a reliable and customizable solution for securing your panels in place. Its durable aluminum construction, along with its sleek black color, makes it a practical and aesthetically pleasing choice for solar installations.

In conclusion, the Solar Panel Aluminium Profile is an essential component for any solar project, offering versatility, durability, and customization options to meet the unique needs of each installation. With its ability to support various panel configurations and its sleek design, this aluminum profile is a reliable choice for ensuring the effective and secure mounting of solar panels.

Features:

Product Name: Solar Panel Aluminium Profile

Color: Black

Width: Customized

Usage: Solar Panel Frame

Application: Solar Energy System

Material: Aluminum

Features: Power coating, Aluminum Profile, Power coating

Technical Parameters:

Usage	Solar Panel Frame
Feature	Lightweight And Durable
Material	Aluminum
Oem/Odm	Available
Length	Customized
Width	Customized
Surface Treatment	Power Coating
Application	Solar Energy System
Color	Black
Thickness	Customized

Applications:

The Solar Panel Aluminium Profile by Golden Chain is a versatile product designed for use in various photovoltaic applications. It is manufactured in Guangdong, China and is suitable for a wide range of scenarios.

With a minimum order quantity of 300 kilograms, the Solar Panel Aluminium Profile is perfect for large-scale projects such as solar energy systems. The packaging details include a protective film to ensure that the product reaches you in perfect condition.

Delivery time for the Solar Panel Aluminium Profile is estimated to be between 15-30 days, and payment terms accepted are L/C and T/T, providing flexibility for customers.

Customized in thickness and width, the Aluminum Profile is a high-quality material that is durable and reliable for long-term use in solar panel frames. Its application in solar energy systems makes it an essential component for harnessing solar power efficiently.

Whether you are setting up a new solar panel installation or looking to upgrade an existing system, the Solar Panel Aluminium Profile offers the strength and stability required to support photovoltaic panels effectively.

Customization:

Product Customization Services for the Solar Panel Aluminium Profile:

- Brand Name: Golden Chain
- Place of Origin: Guangdong, China
- Minimum Order Quantity: 300 Kilograms
- Packaging Details: Protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T
- Material: Aluminum
- Color: Black
- Width: Customized
- OEM/ODM: Available
- Shape: Customized

Packing and Shipping:

Product Packaging:

The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.

Shipping:

Ocean, Air, Express
