

## Lightweight And Durable Solar Panel Aluminium Profile Customized Width For Optimal Efficiency

Our Product Introduction

for more products please visit us on [alu-heatsink.com](http://alu-heatsink.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

### Product Specification

- Color: Black
- Thickness: Customized
- Length: Customized
- Application: Solar Energy System
- Material: Aluminum
- Width: Customized
- Shape: Customized
- Feature: Lightweight And Durable
- Highlight: **Lightweight Solar Panel Aluminium Profile, Durable Solar Panel Aluminium Profile, Customized Width Solar Panel Aluminium Profile**

## Product Description

### Product Description:

With the flexibility to customize the length and thickness of the profile, you can tailor it to meet the specific requirements of your solar panel setup. Whether you are installing solar panels on a residential rooftop or a commercial facility, these aluminum profiles can be adjusted to fit your unique project needs.

The surface treatment of these profiles is done through a precise powder coating process, enhancing their resistance to environmental elements and ensuring long-term protection against corrosion. This additional layer of protection not only extends the lifespan of the profiles but also maintains their aesthetic appeal over time.

By choosing our Solar Panel Aluminium Profile, you are investing in a reliable and efficient solution for mounting your solar panels. The inherent strength of aluminum combined with the tailored customization options makes these profiles an ideal choice for various photovoltaic applications.

Whether you are looking to set up a solar power system for residential, commercial, or industrial use, these aluminum profiles offer the structural support needed to securely fasten your solar panels in place. The black color adds a sleek and modern touch to your solar panel array, blending seamlessly with the overall design of your installation.

When it comes to harnessing solar energy, the quality of the components used plays a crucial role in the overall performance and longevity of the system. Our Solar Panel Aluminium Profile is engineered to meet the highest standards of durability and functionality, ensuring that your solar panels remain securely mounted for years to come.

With a focus on precision engineering and reliable construction, these aluminum profiles provide the stability and strength required to withstand varying weather conditions and environmental factors. Whether you are facing strong winds, heavy snow, or intense sunlight, you can trust our profiles to keep your solar panels securely in place.

Investing in our Solar Panel Aluminium Profile not only ensures the structural integrity of your solar panel installation but also contributes to the overall efficiency and performance of your photovoltaic system. The versatility of these profiles allows for seamless integration with different types of solar panels, making them a versatile choice for various solar projects.

Whether you are a homeowner looking to reduce your carbon footprint or a business owner aiming to embrace sustainable energy solutions, our Solar Panel Aluminium Profile offers the durability, customization, and reliability you need to make the most of your solar investment. Trust in the strength of aluminum and the precision of our profiles to support your solar energy goals.

### Features:

Product Name: Solar Panel Aluminium Profile

Oem/Odm: Available

Application: Solar Energy System

Length: Customized

Surface Treatment: Power Coating

Material: Aluminum

### Technical Parameters:

Shape	Customized
Oem/Odm	Available
Length	Customized
Material	Aluminum
Application	Solar Energy System
Surface Treatment	Power Coating
Color	Black
Width	Customized
Thickness	Customized
Feature	Lightweight And Durable

### Applications:

The Solar Panel Aluminium Profile by Golden Chain is a versatile product suitable for a variety of product application occasions and scenarios in the solar energy industry. Made in Guangdong, China, this product is known for its lightweight and durable features, making it ideal for use in Solar Energy Systems.

With a minimum order quantity of 300 kilograms, the Golden Chain Solar Panel Aluminium Profile can be customized in length to meet specific project requirements. The packaging details include a protective film to ensure the product reaches its destination in perfect condition.

Whether you are looking to install a new solar panel system or upgrade an existing one, the Aluminium Photovoltaic Mounting System offered by Golden Chain is a reliable choice. The product is designed to provide sturdy support for solar panels while maximizing energy efficiency.

Customers can expect a delivery time of 15-30 days after placing an order, with payment terms that include L/C and T/T options. Additionally, the product offers OEM/ODM services for those looking to customize their orders.

Overall, the Golden Chain Solar Panel Aluminium Profile is a high-quality solution for solar panel frames, offering both functionality and durability for various solar energy applications.

**Customization:**

Product Customization Services for the Solar Panel Aluminium Profile: -----  
Brand Name: Golden Chain  
Place of Origin: Guangdong, China  
Minimum Order Quantity: 300 Kilogram  
Packaging Details: Protect film  
Delivery Time: 15-30 days  
Payment Terms: L/C, T/T  
Application: Solar Energy System  
OEM/ODM: Available  
Length: Customized  
Usage: Solar Panel Frame  
Shape: Customized

**Packing and Shipping:**

Product Packaging:  
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.  
Shipping:  
Ocean, Air, Express
