

## Customized Length Photovoltaic Power Coating For Sustainable Energy Production

Our Product Introduction

for more products please visit us on [alu-heatsink.com](http://alu-heatsink.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

### Product Specification

- Oem/Odm: Available
- Usage: Solar Panel Frame
- Application: Solar Energy System
- Surface Treatment: Power Coating
- Shape: Customized
- Color: Black
- Length: Customized
- Width: Customized
- Highlight: Sustainable Energy Production Power Coating, Customized Length Photovoltaic Power Coating

## Product Description

### Product Description:

The Solar Panel Aluminium Profile is a high-quality product designed for use in solar energy systems. Made from durable aluminum material, this profile is known for its strength and corrosion resistance, making it ideal for outdoor applications.

One of the key features of this product is its customizable length and width options, allowing for flexibility in various solar panel installations. Whether you have specific size requirements or need a custom fit for your project, this profile can be tailored to meet your needs.

With a focus on durability and longevity, this aluminium profile is designed to withstand the elements and provide reliable support for solar panels. The customizable thickness ensures that the profile can meet the structural requirements of different solar energy systems, providing stability and support for the panels.

Additionally, this Solar Panel Aluminium Profile is coated with a high-quality power coating finish, enhancing its resistance to scratches, UV rays, and other environmental factors. The power coating not only adds to the aesthetic appeal of the profile but also helps protect it from wear and tear, extending its lifespan and maintaining its performance over time.

When it comes to application, this profile is specifically designed for use in solar energy systems. Whether you are setting up a residential solar panel array or a commercial solar power plant, this aluminium profile offers the strength and durability needed to support the panels and ensure optimal performance.

Overall, the Solar Panel Aluminium Profile is a versatile and reliable product that combines the strength of aluminum with the benefits of customization. With its customizable length, width, and thickness options, as well as its durable power coating finish, this profile is a great choice for anyone looking to invest in a high-quality solution for their solar energy system needs.

### Features:

Product Name: Solar Panel Aluminium Profile

Color: Black

Usage: Solar Panel Frame

Oem/Odm: Available

Surface Treatment: Power Coating

Thickness: Customized

### Technical Parameters:

Length	Customized
Surface Treatment	Power Coating
Feature	Lightweight And Durable
Oem/Odm	Available
Width	Customized
Shape	Customized
Usage	Solar Panel Frame
Material	Aluminum
Color	Black
Thickness	Customized

### Applications:

The Golden Chain Solar Panel Aluminium Profile, originating from Guangdong, China, is a versatile product suitable for various applications in the photovoltaic industry. With a minimum order quantity of 300 kilograms, this product is carefully packaged with protective film to ensure its safe delivery.

The lightweight and durable nature of the aluminium profile makes it ideal for constructing solar panel frames. The customizable thickness and width options allow for flexibility in design and application, catering to different project requirements.

Whether used in residential, commercial, or industrial settings, the Golden Chain Solar Panel Aluminium Profile provides a reliable solution for framing photovoltaic modules. Its customizable shape further enhances its adaptability to different installation scenarios. Customers can expect a delivery time of 15-30 days, with payment terms including L/C and T/T for convenience. The product's high-quality construction and reliable performance make it a preferred choice for solar panel manufacturers and installers looking for efficient and cost-effective solutions.

### Customization:

Product Customization Services for the Solar Panel Aluminum Profile:

Brand Name: Golden Chain

Place of Origin: Guangdong, China

Minimum Order Quantity: 300 Kilograms

Packaging Details: Protect Film  
Delivery Time: 15-30 days  
Payment Terms: L/C, T/T  
OEM/ODM: Available  
Length: Customized  
Application: Solar Energy System  
Usage: Solar Panel Frame  
Width: Customized

**Packing and Shipping:**

Product Packaging: -----  
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.  
Shipping:  
Ocean, Air, Express

**Golden Chain Products Industrial Co., Ltd.**
