

Customized Solar Panel Aluminium Profile For Solar Energy System Width Customized Long-Lasting

Our Product Introduction

for more products please visit us on alu-heatsink.com

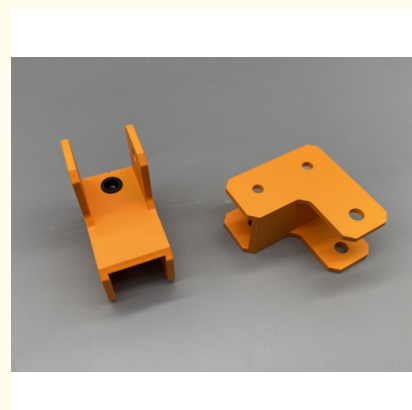

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

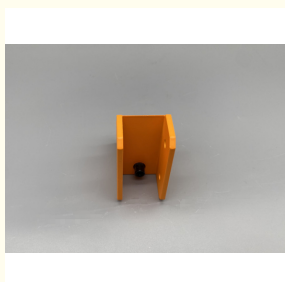

Product Specification

- Application: Solar Energy System
- Length: Customized
- Material: Aluminum
- Feature: Lightweight And Durable
- Width: Customized
- Surface Treatment: Power Coating
- Oem/Odm: Available
- Usage: Solar Panel Frame
- Highlight: **Long-Lasting Solar Panel Aluminium Profile,
Customized Solar Panel Aluminium Profile**

Product Description

Product Description:

The Solar Panel Aluminium Profile is a versatile and essential component for constructing durable and efficient solar panel frames. This high-quality aluminum profile is specifically designed to meet the requirements of solar energy systems, providing a reliable and long-lasting solution for securing solar panels in place. With a customizable length, thickness, and width, the Solar Panel Aluminium Profile offers flexibility and adaptability to suit various solar panel configurations and installation needs. Whether you are setting up a small residential solar system or a large-scale commercial solar project, this aluminum profile can be tailored to meet your specific requirements, ensuring a precise and secure fit for your solar panels. Constructed from premium quality aluminum material, the Solar Panel Aluminium Profile is lightweight yet robust, offering excellent structural support for solar panels while withstanding environmental factors such as wind, rain, and UV exposure. The profile's durable design helps to extend the lifespan of solar panels and maintain their optimal performance over time. The Solar Panel Aluminium Profile features a sleek and modern design that enhances the overall appearance of solar panel installations. The profile can be easily integrated into existing solar energy systems, providing a seamless and professional finish. Its versatility allows for easy customization to accommodate different panel sizes and layouts, making it suitable for a wide range of solar applications. To ensure long-lasting protection against corrosion and wear, the Solar Panel Aluminium Profile is treated with a high-quality powder coating finish. This coating not only enhances the profile's aesthetic appeal but also provides a durable barrier against environmental damage, ensuring that the profile maintains its integrity and appearance even in harsh outdoor conditions. The Solar Panel Aluminium Profile is designed for ease of installation, featuring pre-drilled holes and compatible accessories that facilitate quick and efficient assembly. Whether you are a professional solar installer or a DIY enthusiast, this aluminum profile simplifies the mounting process, saving you time and effort during solar panel installation. In conclusion, the Solar Panel Aluminium Profile is a top-quality and versatile solution for constructing reliable and efficient solar panel frames. With its customizable dimensions, durable construction, and protective powder coating finish, this aluminum profile offers the perfect combination of strength, durability, and aesthetics for solar energy systems. Invest in the Solar Panel Aluminium Profile to enhance the performance and longevity of your solar panels while achieving a professional and polished look for your solar installations.

Features:

Product Name: Solar Panel Aluminium Profile

Color: Black

Usage: Solar Panel Frame

Material: Aluminum

Width: Customized

Application: Solar Energy System

Technical Parameters:

Oem/Odm	Available
Thickness	Customized
Width	Customized
Application	Solar Energy System
Usage	Solar Panel Frame
Surface Treatment	Power Coating
Color	Black
Shape	Customized
Material	Aluminum
Feature	Lightweight And Durable

Applications:

The Golden Chain Solar Panel Aluminium Profile is a versatile product that can be used in a variety of application occasions and scenarios related to solar energy systems. With its lightweight and durable features, this aluminium profile is ideal for constructing solar panel frames to support photovoltaic modules.

Whether you are setting up a residential solar energy system or a large-scale commercial photovoltaic project, the Golden Chain Aluminium Profile is a reliable choice. Its customizable width and thickness make it suitable for different solar panel sizes and configurations.

Manufactured in Guangdong, China, this product meets high-quality standards and is designed to withstand various weather conditions. The aluminium profile is coated with a protective film for added durability, ensuring a long lifespan for your solar panel mounting system. With a minimum order quantity of 300 kilograms, the Golden Chain Solar Panel Aluminium Profile is suitable for both small and large-scale projects. The delivery time of 15-30 days makes it convenient for project timelines, while flexible payment terms such as L/C and T/T provide ease of transaction.

Whether you are a solar panel manufacturer, installer, or project developer, the Golden Chain Aluminium Profile offers a reliable solution for your photovoltaic mounting needs. Its compatibility with power coating enhances the aesthetics of the solar panel frame while providing an additional layer of protection.

Overall, the Golden Chain Solar Panel Aluminium Profile is a versatile and efficient product that caters to the needs of the solar energy industry. Its customizable features, lightweight design, and durability make it an excellent choice for various solar panel applications and mounting systems.

Customization:

Product Customization Services for Solar Panel Aluminum Profile:

Brand Name: Golden Chain
Place of Origin: Guangdong, China
Minimum Order Quantity: 300 Kilogram
Packaging Details: Protect film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
Color: Black
Shape: Customized
Surface Treatment: Power Coating
Width: Customized
Feature: Lightweight And Durable

Packing and Shipping:

Product Packaging:

The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.

Shipping:

Ocean, Air, Express
