

Lightweight And Durable Solar Panel Aluminium Profile For Solar Energy System Sustainability

Our Product Introduction

for more products please visit us on alu-heatsink.com

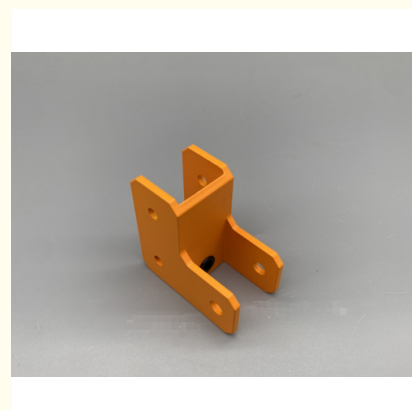

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

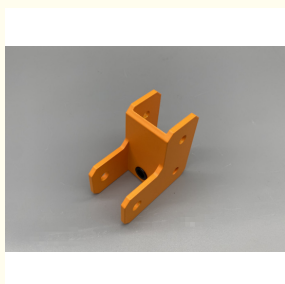

Product Specification

- Material: Aluminum
- Width: Customized
- Usage: Solar Panel Frame
- Shape: Customized
- Length: Customized
- Application: Solar Energy System
- Oem/Odm: Available
- Thickness: Customized
- Highlight: **Lightweight Solar Panel Aluminium Profile,
Sustainability Solar Panel Aluminium Profile,
Durable Solar Panel Aluminium Profile**

Product Description

Product Description:

The Solar Panel Aluminium Profile is a versatile and essential component designed specifically for the construction and assembly of solar panel frames. With a focus on durability and functionality, this product is crafted from high-quality aluminum material, ensuring both lightweight properties and long-lasting performance.

One of the standout features of this Aluminium Profile is its customizable width, allowing for seamless integration and compatibility with various solar panel sizes and configurations. This flexibility enables users to tailor the frame to their specific requirements, ensuring a perfect fit and optimal functionality.

In addition to its customizable width, this Aluminium Profile boasts a sleek and modern design that seamlessly combines form and function. Its lightweight construction makes it easy to handle and install, while its durable properties guarantee a reliable and robust support structure for solar panels.

Furthermore, the Aluminium Profile is available in a range of thickness options, providing users with the flexibility to choose the most suitable profile for their specific needs. Whether you require a slim and discreet frame or a thicker and more robust design, this product offers the versatility to accommodate various preferences and requirements.

Enhancing its durability and longevity, this Aluminium Profile is treated with a high-quality power coating finish. This surface treatment not only adds a layer of protection against corrosion and environmental damage but also gives the profile a professional and polished appearance.

Designed to meet the demanding requirements of photovoltaic applications, this Aluminium Profile is engineered to provide a sturdy and reliable foundation for solar panels. Its lightweight construction and customizable features make it an ideal choice for supporting and securing solar panels in both residential and commercial settings.

Whether you are looking to install solar panels on rooftops, ground-mounted arrays, or other structures, this Aluminium Profile offers the strength, durability, and flexibility needed to create a secure and efficient solar panel system. Its sleek design and power coating surface treatment ensure a professional finish that complements the aesthetics of any installation.

In summary, the Solar Panel Aluminium Profile is a premium-quality product that combines lightweight construction, customizable features, and durable performance to meet the unique needs of solar panel frame construction. With its power coating surface treatment and versatile design, this Aluminium Profile is the ideal choice for creating reliable and efficient photovoltaic systems.

Features:

Product Name: Solar Panel Aluminium Profile

Oem/Odm: Available

Feature: Lightweight And Durable

Shape: Customized

Usage: Solar Panel Frame

Width: Customized

Technical Parameters:

Thickness	Customized
Shape	Customized
Material	Aluminum
Surface Treatment	Power Coating
Usage	Solar Panel Frame
Length	Customized
Oem/Odm	Available
Feature	Lightweight And Durable
Color	Black
Width	Customized

Applications:

The Solar Panel Aluminium Profile by Golden Chain is a versatile product suitable for a variety of applications in the solar energy industry. With its lightweight and durable features, this aluminum profile is ideal for constructing solar panels that require a sturdy framework to support the photovoltaic cells.

One of the key product attributes of the Golden Chain Solar Panel Aluminium Profile is its customizable width and shape, allowing for flexibility in design and construction. The black color of the profile adds a sleek and modern aesthetic to the solar panel structures.

Whether you are working on a large-scale solar farm project or a residential rooftop installation, the Golden Chain Solar Panel Aluminium Profile is designed to meet your specific requirements. The product is manufactured in Guangdong, China, ensuring high quality and reliability.

With a minimum order quantity of 300 kilograms, customers can easily procure the required amount for their solar panel projects. The packaging details include a protective film to prevent any damage during transportation.

Customers can expect a delivery time of 15-30 days, making it convenient for project timelines. The payment terms accepted for this

product are L/C and T/T, providing flexibility for different payment preferences.
Furthermore, the Golden Chain Solar Panel Aluminium Profile offers OEM/ODM services, allowing customers to customize the product according to their specific needs. The profiles are also treated with power coating for enhanced durability and corrosion resistance.

Customization:

Product Customization Services for the Solar Panel Aluminium Profile: -----
Brand Name: Golden Chain
Place of Origin: Guangdong, China
Minimum Order Quantity: 300 Kilogram
Packaging Details: Protect film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
Material: Aluminum
Width: Customized
Length: Customized
Usage: Solar Panel Frame
Application: Solar Energy System

Packing and Shipping:

Product Packaging: -----
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.
Shipping:
Ocean, Air, Express
