

Lightweight And Durable Solar Panel Aluminium Profile Customized For Sustainable Solar Applications

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

Product Specification

- Shape: Customized
- Thickness: Customized
- Application: Solar Energy System
- Surface Treatment: Power Coating
- Width: Customized
- Oem/Odm: Available
- Feature: Lightweight And Durable
- Usage: Solar Panel Frame
- Highlight: **Lightweight Solar Panel Aluminium Profile, Durable Solar Panel Aluminium Profile, Customized Solar Panel Aluminium Profile**

Product Description

Product Description:

The Solar Panel Aluminium Profile is an essential component of the Aluminium Photovoltaic Mounting System, designed to provide a durable and reliable framework for solar panels. Customized in thickness, this profile is engineered to meet the specific requirements of solar panel installations, ensuring optimal performance and longevity.

One of the key features of this aluminium profile is its lightweight yet durable construction. The use of high-quality aluminium material ensures that the profile is strong and sturdy enough to support the weight of solar panels, while also being lightweight for ease of handling and installation.

With a surface treatment of power coating, this aluminium profile is further enhanced in terms of protection against corrosion, weathering, and other environmental factors. The power coating not only adds a layer of durability to the profile but also provides a sleek and professional finish that complements the overall aesthetics of the solar panel installation.

Specifically designed for solar panel applications, this aluminium profile is ideal for creating the frame structure that supports and secures the solar panels in place. The customized shape of the profile allows for flexibility in design and installation, ensuring that it can be tailored to fit the unique requirements of different solar panel setups.

Whether used for residential, commercial, or industrial solar projects, this Solar Panel Aluminium Profile is a reliable and efficient solution for mounting solar panels securely and effectively. Its compatibility with various solar panel sizes and configurations makes it a versatile choice for a wide range of solar energy systems.

In conclusion, the Solar Panel Aluminium Profile is a high-quality component of the Aluminium Photovoltaic Mounting System, offering customized thickness, lightweight and durable construction, power coating surface treatment, and versatility in shape for solar panel frame applications. Invest in this reliable and efficient aluminium profile to ensure the success and longevity of your solar panel installations.

Features:

Product Name: Solar Panel Aluminium Profile

Thickness: Customized

Shape: Customized

Width: Customized

Usage: Solar Panel Frame

Feature: Lightweight And Durable

Technical Parameters:

Surface Treatment	Power Coating
Shape	Customized
Usage	Solar Panel Frame
Length	Customized
Material	Aluminum
Application	Solar Energy System
Oem/Odm	Available
Feature	Lightweight And Durable
Thickness	Customized
Width	Customized

Applications:

Golden Chain's Solar Panel Aluminium Profile is a versatile product designed for various Product Application Occasions and Scenarios in the solar industry. With its high-quality materials and innovative design, this product is ideal for creating Aluminium Photovoltaic Mounting Systems for solar panel installations.

Originating from Guangdong, China, this product is manufactured to meet the highest standards, ensuring durability and reliability. The minimum order quantity for the Solar Panel Aluminium Profile is 300 Kilograms, making it suitable for both small and large-scale projects. The packaging details include a protective film to safeguard the profiles during transit, while the delivery time ranges from 15 to 30 days, allowing for efficient project planning. Payment terms accepted for this product are L/C and T/T, providing flexibility for customers.

Customized in thickness and available in a sleek black color, the Solar Panel Aluminium Profile offers versatility in design and application. Additionally, OEM/ODM services are available for tailored solutions to meet specific project requirements.

The surface treatment of the profile involves Power Coating, enhancing its resistance to corrosion and wear, ensuring longevity in various environmental conditions. The primary usage of this product is for constructing Solar Panel Frames, providing structural support and stability for solar panels.

Customization:

Product Customization Services for the Solar Panel Aluminium Profile:

Brand Name: Golden Chain
Place of Origin: Guangdong, China
Minimum Order Quantity: 300 Kilogram
Packaging Details: Protect film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
Length: Customized
Shape: Customized
Material: Aluminum
Width: Customized
Oem/Odm: Available

Packing and Shipping:

Product Packaging:

The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.

Shipping:

Ocean, Air, Express
