

Power Coating Aluminium Photovoltaic Mounting System For Customized Solar Panel Installation Solutions

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

Product Specification

- Length: Customized
- Feature: Lightweight And Durable
- Oem/Odm: Available
- Surface Treatment: Power Coating
- Color: Black
- Thickness: Customized
- Application: Solar Energy System
- Material: Aluminum
- Highlight: **Power Coating Aluminium Photovoltaic Mounting System**
, Aluminium Photovoltaic Mounting System

Product Description

Product Description:

The Solar Panel Aluminium Profile is a high-quality product designed for use in solar panel installations. This profile is customized in shape to ensure a perfect fit for various solar panel systems. Its lightweight and durable features make it an ideal choice for both residential and commercial solar projects.

The aluminium profile is specifically designed to provide sturdy support for solar panels while remaining lightweight for easy installation. The material used in this profile is aluminum, known for its strength and resistance to corrosion, making it perfect for outdoor use in solar installations.

One of the key features of this aluminium profile is its surface treatment with power coating. The power coating not only enhances the appearance of the profile but also provides added protection against environmental elements, ensuring the longevity of the product in solar panel installations.

With a customized thickness, this aluminium profile can be tailored to meet the specific requirements of different solar panel systems. Whether you need a thicker profile for added strength or a thinner profile for flexibility, the customization options ensure a perfect fit for your solar project.

The Solar Panel Aluminium Profile is an essential component of any solar installation, providing structural support and stability for the solar panels. Its lightweight design makes it easy to handle and install, reducing the overall installation time and effort required.

For solar panel systems requiring a reliable mounting solution, the Aluminium Photovoltaic Mounting System offers a secure and durable option. The power coating surface treatment adds an extra layer of protection against harsh weather conditions, ensuring the longevity of the mounting system in outdoor environments.

In conclusion, the Solar Panel Aluminium Profile is a versatile and durable product that offers customized solutions for solar panel installations. Its lightweight design, coupled with the power coating surface treatment, ensures both ease of installation and long-term durability. Whether you are setting up a residential solar system or a large-scale commercial installation, this aluminium profile provides the structural support needed for a successful solar project.

Features:

Product Name: Solar Panel Aluminium Profile

Color: Black

Feature: Lightweight And Durable

Surface Treatment: Power Coating

Application: Solar Energy System

Length: Customized

Technical Parameters:

Material	Aluminum
Oem/Odm	Available
Thickness	Customized
Surface Treatment	Power Coating
Width	Customized
Color	Black
Length	Customized
Feature	Lightweight And Durable
Application	Solar Energy System
Usage	Solar Panel Frame

Applications:

The Golden Chain Solar Panel Aluminium Profile is a versatile and essential component for various photovoltaic applications in the solar energy industry. Its high-quality aluminum material ensures durability and reliability, making it ideal for use in solar panel frames. The customized shape and thickness allow for easy integration into any solar energy system.

Manufactured in Guangdong, China, this product meets the highest standards of quality and performance. With a minimum order quantity of 300 kilograms, it is suitable for both small-scale and large-scale solar panel projects. The packaging details include a protective film to prevent any damage during transportation.

Whether you are setting up a residential solar energy system or a commercial solar farm, the Golden Chain Solar Panel Aluminium Profile is the perfect choice. Its application occasions range from rooftop solar installations to ground-mounted solar arrays. The profile is designed to withstand various weather conditions and provide long-term support for the solar panels.

When it comes to delivery, you can expect your order to arrive within 15-30 days, ensuring timely completion of your solar projects. The flexible payment terms of L/C and T/T make it convenient for customers to make transactions.

In conclusion, the Golden Chain Solar Panel Aluminium Profile is a reliable and efficient solution for your solar panel mounting needs. Its compatibility with the Aluminium Photovoltaic Mounting System makes it a preferred choice for solar industry professionals. Invest in this product to enhance the performance and longevity of your solar energy systems.

Customization:

Product Customization Services for the Solar Panel Aluminium Profile:
Brand Name: Golden Chain
Place of Origin: Guangdong, China
Minimum Order Quantity: 300 Kilogram
Packaging Details: Protect film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
Width: Customized
OEM/ODM: Available
Usage: Solar Panel Frame
Feature: Lightweight And Durable
Length: Customized

Packing and Shipping:

Product Packaging:
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.
Shipping:
Ocean, Air, Express
