

## Black Solar Panel Aluminium Profile Customized Length and Thickness for Optimal Performance

Our Product Introduction

for more products please visit us on [alu-heatsink.com](http://alu-heatsink.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

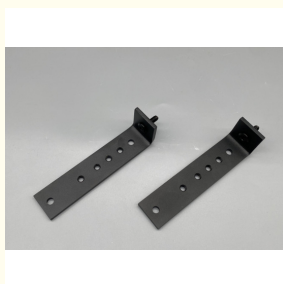

### Product Specification

- Usage: Solar Panel Frame
- Shape: Customized
- Color: Black
- Material: Aluminum
- Width: Customized
- Feature: Lightweight And Durable
- Surface Treatment: Power Coating
- Thickness: Customized
- Highlight: **Customized Length Solar Panel Aluminium Profile**  
**, Black Solar Panel Aluminium Profile,**  
**Optimal Performance Solar Panel Aluminium Profile**

## Product Description

### Product Description:

The Solar Panel Aluminium Profile is a versatile and customizable solution for photovoltaic applications. With OEM and ODM services available, this product can be tailored to meet the unique specifications of various solar panel projects.

One of the key features of this aluminium profile is its customizable width and thickness. This flexibility allows for precise sizing to fit the specific requirements of the solar panel frame. Whether for residential, commercial, or industrial installations, the ability to customize the dimensions ensures a perfect fit and optimal performance.

Enhanced with a durable surface treatment of power coating, this aluminium profile offers excellent protection against environmental elements, ensuring long-lasting performance in various weather conditions. The power coating not only provides a sleek and professional finish but also enhances the profile's resistance to corrosion, scratches, and UV rays.

Designed specifically for solar panel applications, this aluminium profile is an ideal choice for constructing sturdy and reliable solar panel frames. Its strength and durability make it a dependable support structure for photovoltaic systems, ensuring the longevity and efficiency of the solar panels.

Whether for ground-mounted, rooftop, or solar tracking systems, the Solar Panel Aluminium Profile offers a versatile solution that can be customized to meet the specific needs of different solar panel installations. Its compatibility with various mounting systems and configurations makes it a versatile choice for different project requirements.

With a focus on quality and performance, this aluminium profile is manufactured with precision and attention to detail. The customization options for width and thickness ensure a perfect fit for the solar panel frame, while the power coating surface treatment adds an extra layer of protection and aesthetics.

For solar panel installers and manufacturers looking for a reliable and customizable solution for their photovoltaic projects, the Solar Panel Aluminium Profile is the ideal choice. Its combination of flexibility, durability, and surface treatment make it a standout option for constructing robust and long-lasting solar panel frames.

### Features:

Product Name: Solar Panel Aluminium Profile

Width: Customized

Oem/Odm: Available

Shape: Customized

Length: Customized

Thickness: Customized

### Technical Parameters:

Color	Black
Shape	Customized
Usage	Solar Panel Frame
Application	Solar Energy System
Material	Aluminum
Width	Customized
Feature	Lightweight And Durable
Oem/Odm	Available
Thickness	Customized
Surface Treatment	Power Coating

### Applications:

The Solar Panel Aluminium Profile by Golden Chain is a high-quality product originating from Guangdong, China. With a minimum order quantity of 300 kilograms, this product comes packaged with protective film to ensure its safety during delivery. The delivery time for this product is estimated to be between 15-30 days, with payment terms accepted including L/C and T/T.

Customization is a key feature of the Golden Chain Solar Panel Aluminium Profile, with the length, shape, and thickness all able to be tailored to the specific requirements of the customer. The material used is durable aluminum, making it ideal for long-term use in various environments.

This Aluminium Profile is specifically designed for applications in the Solar Energy System sector. Its versatility and customizable features make it suitable for various scenarios such as photovoltaic installations, mounting systems for solar panels, and other solar energy projects.

### Customization:

Product Customization Services for the Solar Panel Aluminium Profile:

Brand Name: Golden Chain

Place of Origin: Guangdong, China  
Minimum Order Quantity: 300 Kilogram  
Packaging Details: Protect film  
Delivery Time: 15-30 days  
Payment Terms: L/C, T/T  
Usage: Solar Panel Frame  
Application: Solar Energy System  
Color: Black  
Material: Aluminum  
Width: Customized

**Packing and Shipping:**

Product Packaging:  
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.  
Shipping:  
Ocean, Air, Express

**Golden Chain Products Industrial Co., Ltd.**
